Prospectus

Domino's, Inc.

Offer to Exchange

**\$403,000,000 Principal Amount of our
8¹/₄% Senior Subordinated Notes due 2011, which have been
registered under the Securities Act, for any and all of our
outstanding 8¹/₄% Senior Subordinated Notes due 2011**

Exchange Offer

We are offering to exchange our 8¹/₄% Senior Subordinated Notes due 2011, or the "Notes," for our currently outstanding 8¹/₄% Senior Subordinated Notes due 2011, or the "outstanding notes". The Notes are substantially identical to the outstanding notes, except that the Notes have been registered under the Securities Act of 1933 and will not bear any legend restricting their transfer. The Notes will represent the same debt as the outstanding notes, and we will issue the Notes under the same indenture.

The Notes will be subordinated to all of our existing and future senior debt, rank equally with all of our existing and future senior subordinated debt, including the outstanding notes, and be senior to all of our existing and future subordinated debt. The Notes will be guaranteed on a senior subordinated unsecured basis by most of our domestic subsidiaries and one of our international subsidiaries and any of our other subsidiaries that in the future guarantee specified other debt. As of June 15, 2003, the Notes would have been subordinated to \$610.5 million of senior indebtedness.

The principal features of the exchange offer are as follows:

- The exchange offer expires at 5:00 p.m., New York City time, on _____, 2003, unless extended. The exchange offer will remain in effect for a limited time and we do not currently intend to extend the expiration date of the exchange offer.
- We will exchange all outstanding notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer.
- You may withdraw tendered outstanding notes at any time prior to the expiration of the exchange offer.
- The exchange of outstanding notes for Notes pursuant to the exchange offer will not be a taxable event for U.S. federal income tax purposes, but you should see the discussion under the caption "Material United States federal income tax considerations" beginning on page 154 for more information.
- We will not receive any proceeds from the exchange offer.
- We do not intend to apply for listing of the Notes on any securities exchange or automated dealer quotation system.

Broker-Dealers

- Each broker-dealer that receives Notes for its own account in the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of those Notes. The letter of transmittal states that, by so acknowledging and delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.
- This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of Notes received in exchange for outstanding notes where the outstanding notes were acquired by the broker-dealer as a result of market-making or other trading activities.
- We have agreed that, for a period of 180 days after the consummation of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with the resale of Notes. See "Plan of distribution."

You should consider carefully the risk factors beginning on page 15 of this prospectus before participating in the exchange offer.

Neither the U.S. Securities and Exchange Commission nor any other federal or state agency has approved or disapproved of these securities to be distributed in the exchange offer, nor have any of these organizations determined that this prospectus is truthful or complete. Company overview

We are the number one pizza delivery company in the United States with a 19.9% share of the U.S. pizza delivery channel and we also have a leading and growing international presence. We believe our Domino's Pizza® brand is one of the most widely recognized consumer brands in the world. We operate through a network of 596 company-owned stores, substantially all of which are in the United States, and 6,695 franchise stores located in all 50 states and in more than 50 countries. In addition, we operate 18 regional dough manufacturing and distribution centers in the contiguous United States as well as eight dough manufacturing and distribution centers outside the contiguous United States. In fiscal 2002 and the two fiscal quarters ended June 15, 2003, our worldwide net retail sales at our company-owned and franchise stores, which we refer to as our system-wide sales, were nearly \$4.0 billion and \$1.9 billion, respectively, including over \$2.9 billion and nearly \$1.4 billion, respectively, domestically and over \$1.0 billion and \$0.5 billion, respectively, internationally. During these same periods, we generated nearly \$1.3 billion and \$0.6 billion, respectively, in revenues.

Over our 43-year history, we have developed a cost-efficient store model focused on the timely delivery of high-quality, affordable pizza and complementary side items. Because our domestic stores and most of our international stores do not offer dine-in areas, they are relatively inexpensive to open and maintain. We believe that our typical store generates attractive returns on investment, which drives demand for new Domino's franchise stores.

Strong store demand from franchisees, and the resulting growth in store counts, has allowed us to build a large, global and diverse franchise network. As of June 15, 2003, our franchise store network consisted of 6,695 stores, 64% of which were located in the contiguous United States. Over 90% of our worldwide stores are owned and operated by our highly committed franchisees.

Our earnings are driven largely through sales by franchise stores, which generate royalty payments and distribution sales. We also generate earnings through our company-owned stores. We operate our business in three segments: domestic stores, domestic distribution and international.

Table of Contents

- *Domestic stores.* The domestic stores segment, comprised of 579 company-owned stores and 4,283 franchise stores, generated revenues of \$242.6 million, and earnings before interest, taxes, depreciation and amortization, calculated in the manner required by SFAS No. 131 and which is further described in the notes to our summary historical and pro forma consolidated financial and other data included in this prospectus, which we refer to as EBITDA, as adjusted, of \$66.6 million for the two fiscal quarters ended June 15, 2003.
- *Domestic distribution.* Our domestic distribution segment, which distributes food, equipment and supplies to all of our domestic company-owned stores and food to approximately 98% of our domestic franchise stores, generated revenues of \$322.1 million and EBITDA, as adjusted, of \$25.7 million for the two fiscal quarters ended June 15, 2003.
- *International.* Our international segment, which operates 17 company-owned stores and oversees 2,412 franchise stores outside the contiguous United States and also distributes food and supplies in a limited number of these markets, generated revenues of \$42.8 million and EBITDA, as adjusted, of \$12.4 million for the two fiscal quarters ended June 15, 2003.

On a consolidated basis, we generated revenues of nearly \$607.5 million, and EBITDA, as adjusted, including \$9.5 million of unallocated corporate and administrative costs, of \$95.3 million for the two fiscal quarters ended June 15, 2003. We have been able to grow our earnings with limited capital investments because a significant portion of our earnings are driven by sales by franchise stores, which require minimal capital expenditures by us.

We have been delivering high-quality, affordable pizza to our customers since 1960 when brothers Thomas and James Monaghan borrowed \$900 and purchased a small pizza store in Ypsilanti, Michigan. In 1998, an investor group led by investment funds affiliated with Bain Capital, LLC completed a recapitalization through which the investor group acquired a 93% controlling economic interest in our company from Thomas Monaghan and his family. In June 2003, we completed a recapitalization with our parent corporation, TISM, Inc., as described below under the heading “—The Transactions.”

Since 1999, the first full year after our 1998 recapitalization, through fiscal 2002, we increased our system-wide sales from nearly \$3.4 billion to nearly \$4.0 billion and increased our revenues from nearly \$1.2 billion to nearly \$1.3 billion. These increases in system-wide sales were driven by an increase of 671 stores worldwide and increases in same store sales in both domestic and international markets. As a result of these increases, we have grown our EBITDA, as adjusted, 44%, from \$131.1 million in 1999 to \$189.3 million in fiscal 2002. This growth in EBITDA, as adjusted, enabled us to invest in re-imaging approximately 90% of our domestic company-owned stores as well as to develop our Domino's PULSE™ point-of-sale computer system, which we have implemented in all of our domestic company-owned stores. In addition to these significant investments, between year end 1998 and our June 2003 recapitalization we repaid \$147.4 million of debt.

We believe that our competitive strengths include the following:

- #1 pizza delivery company in the United States with a leading and growing international presence;
- Strong brand awareness;

[Table of Contents](#)

- Successful and proven earnings model; and
- Vertically integrated distribution system.

Our business strategy

We intend to achieve further growth and to strengthen our competitive position through the continued implementation of our business strategy, which includes the following key elements:

- Implement our strategic initiatives;
- Leverage our strong brand awareness; and
- Expand and optimize worldwide store base.

Risks relating to our business strategy

Our business and our industry are subject to intense competition and rapid change. If we are faced with increased competition or changes in consumer tastes, among other factors, we may be unable to compete effectively, our revenues and profitability may be adversely affected and our business may be harmed. We are dependent on the successful implementation of our growth strategy to increase our revenues and profitability and a failure to open new stores, both domestically and internationally, would adversely affect our ability to increase our revenues and profitability. Additionally, any increase in food, labor or other costs, which in many cases is beyond our control, could adversely affect our profitability and operating results. As of June 15, 2003, after giving effect to the Transactions referred to below, our consolidated indebtedness would have been approximately \$1.02 billion. If we are unable to generate sufficient cash flow to meet our debt service obligations, our business and financial condition could be harmed.

Our principal executive offices are located at 30 Frank Lloyd Wright Drive, Ann Arbor, MI 48106 Telephone: (734) 930-3030. We maintain a website on the Internet at www.dominos.com. Our website, and the information contained therein, is not a part of this prospectus.

The Transactions

On June 25, 2003, in connection with the offering of our outstanding notes, we amended and restated our existing senior secured credit facility, which amendment and restatement we refer to as our new senior secured credit facility, to provide for a \$610.0 million term loan facility and a \$125.0 million revolving credit facility. In addition, on May 28, 2003, we commenced a tender offer for all of our outstanding 10³/₈% senior subordinated notes due 2009 (the "2009 Notes Tender Offer"). With the proceeds from the offering of our outstanding notes, borrowings under our new senior secured credit facility and cash from operations, on June 25, 2003 we:

- repaid all \$365.2 million of indebtedness outstanding under our existing senior secured credit facility;
- purchased \$206.7 million in aggregate principal amount of our 10³/₈% senior subordinated notes due 2009, representing all of the 10³/₈% senior subordinated notes that were tendered to us in the 2009 Notes Tender Offer, for an aggregate purchase price of \$236.6 million;

[Table of Contents](#)

- distributed \$200.5 million to TISM, Inc., our parent corporation, to permit TISM to redeem all of its outstanding 11.5% cumulative preferred stock; and
- distributed approximately \$188.3 million to TISM (to permit TISM to pay a dividend on its outstanding common stock) and made approximately \$12.4 million of compensatory make-whole payments to specified TISM stockholders and to our officers, directors and employees who hold TISM stock options.

The issuance and sale of the outstanding notes and the transactions discussed above, together with the payment of the related fees and expenses are referred to collectively as the "Transactions." Following consummation of the Transactions, \$11.2 million in aggregate principal amount of our 10³/₈% senior subordinated notes due 2009 remained outstanding.

The shares of TISM common stock and cumulative preferred stock were primarily issued in December 1998 to investment funds affiliated with Bain Capital, LLC and other investors in connection with the recapitalization of TISM.

The exchange offer

On June 25, 2003, we completed an offering of \$403 million in aggregate principal amount at maturity of our 8¹/₄% Senior Subordinated Note due 2011, which was exempt from registration under the Securities Act.

We sold the outstanding notes to J.P. Morgan Securities, Inc., Banc of America Securities LLC, Banc One Capital Markets, Inc., Bear, Stearns & Co. Inc., Citigroup Global Markets, Inc., Credit Suisse First Boston LLC, Goldman, Sachs & Co. and Lehman Brothers Inc. The initial purchasers subsequently resold the outstanding notes to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to non-U.S. persons outside the United States in reliance on Regulation S under the Securities Act.

In connection with the sale of the outstanding notes, we and the subsidiary guarantors entered into a registration rights agreement with the initial purchasers. Under the terms of that agreement, we each agreed to use reasonable best efforts to consummate the exchange offer contemplated by this prospectus.

If we and the subsidiary guarantors are not able to effect the exchange offer contemplated by this prospectus, we and the subsidiary guarantors will use reasonable best efforts to file and cause to become effective a shelf registration statement relating to resales of the outstanding notes. We must pay additional interest on the outstanding notes if we do not complete the exchange offer within 210 days after their issue date or, if required, the shelf registration statement is not declared effective within 210 days after the issue date of the outstanding notes.

tender on your own behalf, you must, prior to completing and executing the letter of transmittal and delivering your outstanding notes, either make appropriate arrangements to register ownership of the outstanding notes in your name or obtain a properly completed bond power from the registered holder.

Guaranteed delivery procedures

If you wish to tender your outstanding notes and your outstanding notes are not immediately available or you cannot deliver your outstanding notes, the letter of transmittal or any other documents required by the letter of transmittal or comply with DTC's ATOP procedures prior to the expiration date, you must tender your outstanding notes according to the guaranteed delivery procedures set forth in this prospectus under "The exchange offer—Guaranteed delivery procedures."

Interest on the Notes and the outstanding notes

The Notes will bear interest from the most recent interest payment date to which interest has been paid on the outstanding notes or, if no interest has been paid, from June 25, 2003. Interest on the outstanding notes accepted for exchange will cease to accrue upon the issuance of the Notes.

Withdrawal rights

Tenders of outstanding notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

Material United States federal income tax considerations

The exchange of outstanding notes for exchange notes in the exchange offer will not be a taxable event for U.S. federal income tax purposes. Please read the section of this prospectus captioned "Material United States federal income tax considerations" for more information on tax consequences of the exchange offer.

Use of proceeds

We will not receive any cash proceeds from the issuance of Notes in to the exchange offer.

Exchange agent

BNY Midwest Trust Company, the trustee under the indenture, is serving as exchange agent in connection with the exchange offer. The address and telephone number of the exchange agent are set forth under the heading "The exchange offer—Exchange agent."

The exchange notes

The following is a brief summary of the terms of the exchange notes. The financial terms and covenants of the exchange notes are the same as the financial terms and covenants of the outstanding notes other than the provisions of the outstanding notes relating to additional interest in the event that this exchange offer is not completed within 210 days of the issue date of the outstanding notes or the shelf registration statement, if applicable, is not declared effective within such 210 day period. For a more complete description of the terms of the exchange notes, see "Description of Notes."

Optional redemption

We may redeem some or all of the Notes at any time on or after July 1, 2007. We may also redeem up to 40% of the aggregate principal amount of the Notes using the proceeds from one or more equity offerings completed by us or our parent corporation before July 1, 2006.

Change of control and asset sales

If we experience specific kinds of changes of control or we sell assets under specified circumstances, we will be required to make an offer to purchase the Notes at the prices listed in “Description of Notes—Repurchase at the option of holders.” We may not have sufficient funds available at the time of any change of control to effect the purchase.

Certain covenants

The indenture restricts our ability and the ability of our restricted subsidiaries to, among other things:

- incur additional debt or issue preferred stock;
- make certain distributions, investments and other restricted payments;
- create certain liens;

- pay dividends and repurchase capital stock;
- limit the ability of restricted subsidiaries to make payments to us;
- sell assets; and
- merge, consolidate or sell substantially all of our assets.

These covenants are subject to important exceptions and qualifications, which are described under the heading “Description of Notes—Certain covenants” in this prospectus.

**Absence of a public market
for the exchange notes**

The exchange notes generally will be freely transferable but will also be new securities for which there will not initially be a market. Accordingly, a market for the exchange notes may not develop or, if one does develop, the liquidity of such market may be limited. We do not intend to apply for the listing of the exchange notes on any securities exchange or automated dealer quotation system. The initial purchasers in the private offering of the outstanding notes have advised us that they currently intend to make a market in the exchange notes. However, they are not obligated to do so, and any market making with respect to the exchange notes may be discontinued at any time without notice. See “Plan of distribution.”

Risk factors

See “Risk factors” for a discussion of certain factors that you should carefully consider before deciding whether to exchange your outstanding notes.

Summary historical and pro forma consolidated financial and other data

The summary historical and pro forma consolidated financial and other data set forth below should be read in conjunction with “Management’s discussion and analysis of financial condition and results of operations,” “Selected historical consolidated financial and other data,” “Unaudited pro forma consolidated financial data” and the consolidated financial statements and related notes thereto included elsewhere in this prospectus. The summary historical balance sheet data as of the end of each fiscal year presented below, and the summary income statement data for the periods then ended, have been derived from our audited consolidated financial statements. The summary historical balance sheet data as of the end of each fiscal quarter presented below and the summary income statement data for the periods then ended have been derived from our unaudited consolidated financial statements. Sales information for franchise stores is reported by franchisees. These historical data are not necessarily indicative of results to be expected for any future period. In addition, the summary unaudited pro forma consolidated financial data for the two fiscal quarters ended June 15, 2003 presented below give effect to the Transactions as if they occurred on June 15, 2003 for balance sheet data and as if they had occurred on the first day of fiscal 2002 for income statement data used to derive the pro forma ratios. However, the unaudited pro forma ratios and balance sheet data do not purport to represent what our ratios or balance sheet data would have been if the Transactions had occurred on such dates or what the data will be for future periods.

(1) EBITDA, as adjusted, represents earnings before interest, taxes, depreciation, amortization, gains (losses) on sale/disposal of assets and other, and gain (loss) on debt extinguishments. Management uses EBITDA, as adjusted, as a primary profit measure as management believes it provides a meaningful year-to-year comparison of our operating results, and should not be substituted as an alternative to net income or income from operations which are measures of performance in accordance with accounting principles generally accepted in the United States. Furthermore, EBITDA, as adjusted, information is provided as we use it extensively in internal management reporting to evaluate our business segments, we believe it assists the investing community in evaluating the operating performance of our company and it is a required disclosure under SFAS No. 131 relating to the profitability of our reportable segments as we evaluate the performance of our segments and allocate resources to them based on EBITDA, as adjusted. EBITDA, as adjusted, should not be considered as an alternative to cash flows provided by operating activities as a measure of liquidity.

The following table sets forth a reconciliation of our net income to EBITDA, as adjusted:

Amortization expense for this covenant not-to-compete was provided using an accelerated method over a three-year period and was approximately

\$10.9 million in 2000 and \$5.3 million in 2001. As of December 30, 2001, this asset was fully amortized. We adopted SFAS No. 142 "Goodwill and Other Intangibles", effective December 31, 2001 and, accordingly, ceased amortizing goodwill. Goodwill amortization was approximately \$2.3 million in 2000 and \$2.0 million in 2001.

- (2) System-wide sales represent worldwide net retail sales at our company-owned and franchise stores.
- (3) Same store sales growth is calculated including only sales from stores that also had sales in the same period of the prior year but excluding sales from certain seasonal locations such as stadiums and concert arenas. International same store sales growth is calculated similarly to domestic same store sales growth, on a constant dollar basis.
- (4) Includes a 51 store reduction in the 2001 ending store count as a result of our revised definition of a store. During the fourth quarter of 2001, we reviewed our store definition and decided to exclude from our total store count any retail location that was open less than 52 weeks and had annual sales of less than \$100,000. Although these stores are no longer included in our store count, revenues and profits generated from these stores are recognized in our operating results. The store count information for 2000 has not been adjusted to reflect this change in store count methodology.
- (5) The ratio of EBITDA, as adjusted, to interest expense is used by management primarily to assess our ability to meet our debt service requirements. Similarly, the ratio of debt to EBITDA, as adjusted, is used by management primarily to assess the appropriateness of our leverage as well as our ability to meet our debt service requirements. Management believes that for these reasons these measures are useful to investors.

Risk factors

In deciding whether to participate in this exchange offer, you should carefully consider the risks described below, which could cause our operating results and financial condition to be materially adversely affected, as well as the other information and data included in this prospectus.

Risks related to the Notes

Our substantial indebtedness could adversely affect our business and prevent us from fulfilling our obligations under the Notes.

As of June 15, 2003, after giving effect to the Transactions, our consolidated indebtedness would have been approximately \$1.02 billion, of which \$610.5 million would have been senior indebtedness. Our substantial indebtedness, and the fact that a large portion of our cash flow from operations must be used to make principal and interest payments on our indebtedness, could have important consequences to you. For example, it could:

- make it more difficult for us to satisfy our obligations with respect to the Notes;
- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow for other purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate thereby placing us at a competitive disadvantage compared to our competitors that may have less debt;
- limit, by the financial and other restrictive covenants in the Notes and in our new senior secured credit facility, our ability to borrow additional funds; and
- have a material adverse effect on us if we fail to comply with the covenants in the Notes and our new senior secured credit facility, because such failure could result in an event of default which, if not cured or waived, could result in a substantial amount of our indebtedness becoming immediately due and payable.

In addition, the indenture governing the Notes and our new senior secured credit facility permits us to incur substantial additional indebtedness in the future. As of June 15, 2003, after giving effect to the Transactions, \$125.0 million would have been available to us for additional borrowing under the revolving credit facility portion of our new senior secured credit facility (excluding outstanding letters of credit of \$21.8 million). If new indebtedness is added to our and our subsidiaries' current debt levels, the risks described above would intensify.

See "Description of senior secured credit facility" and "Description of Notes."

We may be unable to generate sufficient cash flow to satisfy our significant debt service obligations, which would adversely affect our financial condition and results of operations.

Our ability to make principal and interest payments on and to refinance our indebtedness, including the Notes, will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other

[Table of Contents](#)

factors that are beyond our control. In addition, the indenture governing the Notes permits us to make distributions to our parent corporation and make other payments otherwise prohibited by the indenture so long as we meet specified financial tests that are based in part on our consolidated net income, as defined, since December 29, 2002. Any of these distributions or payments, if made, could make it more difficult for us to make scheduled payments on the Notes and could result in our inability to satisfy our obligations under the Notes.

If our business does not generate sufficient cash flow from operations, if currently anticipated cost savings and operating improvements are not realized on schedule, in the amounts projected or at all, or if future borrowings are not available to us under our new senior secured credit facility in amounts sufficient to enable us to pay our indebtedness, including the Notes, or to fund our other liquidity needs our financial condition and results of operations may be adversely affected. If we cannot generate sufficient cash flow from operations to make scheduled principal and interest payments on the Notes in the future, we may need to refinance all or a portion of our indebtedness, including the Notes, on or before maturity, sell assets, delay capital expenditures, or seek additional equity. If we are unable to refinance any of our indebtedness, including the Notes, on commercially reasonable terms or at all or to effect any other action relating to the Notes or our other indebtedness on satisfactory terms or at all, our business may be harmed.

The terms of the Notes and our new senior secured credit facility have restrictive terms and our failure to comply with any of these terms could put us in default, which would have an adverse effect on our business and prospects.

Our new senior secured credit facility and the indenture governing the Notes contain a number of significant covenants. These covenants limit our ability and the ability of our restricted subsidiaries to, among other things:

- incur additional indebtedness and issue additional preferred stock;
- make capital expenditures and other investments;
- merge, consolidate or dispose of our assets or the capital stock or assets of any restricted subsidiary;
- pay dividends, make distributions or redeem capital stock;
- change our line of business;
- enter into transactions with our affiliates; and
- grant liens on our assets or the assets of our restricted subsidiaries.

Our new senior secured credit facility requires us to maintain specified financial ratios and satisfy financial condition tests at the end of each fiscal quarter. Our ability to meet these financial ratios and tests can be affected by events beyond our control, and we may not meet those tests. A breach of any of these covenants could result in a default under our new senior secured credit facility and/or the indenture governing the Notes. If our banks accelerate amounts owing under our new senior secured credit facility because of a default under our new senior secured credit facility and we are unable to pay such amounts, the banks have the right to foreclose on substantially all of our assets.

For a more detailed description of the terms of our indebtedness, please see “Description of senior secured credit facility” and “Description of Notes” beginning on page 91 and 94, respectively.

[Table of Contents](#)

We may not be able to purchase the Notes upon a change of control, which would result in a default under the indenture governing the Notes and would adversely affect our business and financial condition.

Upon the occurrence of specific kinds of change of control events, we must offer to repurchase all of our outstanding Notes. It is possible, however, that we will not have sufficient funds at the time of the change of control to make the required repurchase of the Notes or that restrictions in our new senior secured credit facility will not allow such repurchase. The occurrence of some of the events that would constitute a change of control under the indenture would also constitute a default under our new senior secured credit facility. Moreover, the exercise by the holders of the Notes of their right to require us to repurchase the Notes in connection with a change of control transaction could cause a default under the new senior secured credit facility, even if the change of control itself does not, due to the financial effect on us of such repurchase. A default under the indenture governing the Notes or our new senior secured credit facility may have a material adverse effect on our business, financial condition or results of operations.

Your right to receive payments on the Notes is junior to our existing senior indebtedness and the existing senior indebtedness of our subsidiary guarantors and all of our and their future senior indebtedness.

The Notes and the subsidiary guarantees will be subordinated in right of payment to the prior payment in full of our and our subsidiary guarantors' respective current and future senior indebtedness, including our and their obligations under our new senior secured credit facility. As a result of the subordination provisions of the Notes, in the event of the bankruptcy, liquidation or dissolution of us or any subsidiary guarantor, our assets or the assets of the applicable subsidiary guarantor would be available to pay obligations under the Notes and our other senior subordinated obligations only after all payments had been made on our senior indebtedness or the senior indebtedness of the applicable subsidiary guarantor. Sufficient assets may not remain after all of these payments have been made to make any payments on the Notes and our other senior subordinated obligations (which, after giving effect to the Transactions, would have totaled \$414.2 million as of June 15, 2003), including payments of interest when due. In addition, all payments on the Notes and the subsidiary guarantees will be prohibited in the event of a payment default on our designated senior indebtedness and, for limited periods, upon the occurrence of other defaults under our designated senior indebtedness.

The Notes and the subsidiary guarantees are effectively subordinated to all of our and our subsidiary guarantors' secured indebtedness and all indebtedness of our non-guarantor subsidiaries.

The Notes will not be secured. The borrowings under our new senior secured credit facility are secured by liens on all of our and our domestic subsidiary guarantors' assets, including receivables, inventory, equipment, real estate, leases, licenses, patents, brand names, trademarks, contracts, securities and stock of subsidiaries. If we or any of these subsidiary guarantors declare bankruptcy, liquidate or dissolve, or if payment under our new senior secured credit facility or any of our other secured indebtedness is accelerated, our secured lenders would be entitled to exercise the remedies available to a secured lender under applicable law and will have a claim on those assets before the holders of the Notes. As a result, the Notes are effectively subordinated to our and our subsidiaries' secured indebtedness to the

[Table of Contents](#)

extent of the value of the assets securing that indebtedness, and the holders of the Notes would in all likelihood recover ratably less than the lenders of our and our subsidiaries' secured indebtedness in the event of our bankruptcy, liquidation or dissolution. As of June 15, 2003, after giving effect to the Transactions, we would have had \$610.0 million of secured indebtedness outstanding and \$125.0 million of secured indebtedness would have been available for borrowing under the revolving credit facility portion of our new senior secured credit facility (excluding outstanding letters of credit of \$21.8 million).

In addition, the Notes will be structurally subordinated to all of the liabilities of our subsidiaries that do not guarantee the Notes. In the event of a bankruptcy, liquidation or dissolution of any of the non-guarantor subsidiaries, holders of their indebtedness, their trade creditors and holders of their preferred equity will generally be entitled to payment on their claims from assets of those subsidiaries before any assets are made available for distribution to us. However, under some circumstances, the terms of the Notes will permit our non-guarantor subsidiaries to incur additional specified indebtedness. As of June 15, 2003, after giving effect to the Transactions, the non-guarantor subsidiaries would have had approximately \$463,000 of senior indebtedness outstanding and approximately \$9.8 million of trade payables outstanding.

We will depend on distributions from our operating subsidiaries to repay the indebtedness represented by the Notes.

We are a holding company and derive all of our operating income from, and hold substantially all of our assets through, our subsidiaries. The effect of this structure is that we will depend on the earnings of our subsidiaries, and the payment or other distributions to us of these earnings, to meet our obligations under our new senior secured credit facility and the Notes. Provisions of law, like those requiring that dividends be paid only out of surplus, and provisions of our senior indebtedness limit the ability of our subsidiaries to make payments or other distributions to us.

If the issuance of the Notes or the subsidiary guarantees is deemed to be a fraudulent conveyance, the Notes and the subsidiary guarantees may be subordinated to all of our other debts and those of our subsidiaries.

Under the federal bankruptcy law and comparable provisions of state fraudulent transfer laws, the Notes and the subsidiary guarantees could be voided, or claims in respect of the Notes or the subsidiary guarantees could be subordinated to all of our other debts or those of any subsidiary guarantor if, among other things, either, the Notes or the subsidiary guarantees were incurred with the intent to hinder, delay or defraud any of our present or future creditors or those of our subsidiary guarantors, or at the time we or our subsidiary guarantors incurred the indebtedness evidenced by the Notes or the subsidiary guarantees, we or they received less than reasonably equivalent value or fair consideration for the incurrence of such indebtedness and we or the subsidiary guarantor either:

- were insolvent or rendered insolvent by reason of such incurrence;
- were engaged in a business or transaction for which we or such guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that we or it would incur, debts beyond our or its ability to pay such debts as they mature.

[Table of Contents](#)

In addition, any payment by us or such subsidiary guarantor pursuant to the Notes or any subsidiary guarantee could be voided and required to be returned to us or such subsidiary guarantor, or to a fund for the benefit of our creditors or those of such subsidiary guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, we or a subsidiary guarantor would be considered insolvent if:

- the sum of our or such subsidiary guarantor's debts, including contingent liabilities, were greater than the fair saleable value of all of our or such subsidiary guarantor's assets;
- the present fair saleable value of our or such subsidiary guarantor's assets were less than the amount that would be required to pay our or such subsidiary guarantor's probable liability on existing debts, including contingent liabilities, as they become absolute and mature; or
- we or any subsidiary guarantor could not pay debts as they become due.

Based on historical financial information, recent operating history and other factors, we do not believe that we or any of our subsidiary guarantors, after giving effect to the Transactions, will be insolvent, will have unreasonably small capital for the business in which we and they are engaged or will have incurred debts beyond our or their ability to pay such debts as they mature. However, a court could apply a different standard in making such determinations or a court could disagree with our conclusions in this regard.

There is no existing market for the exchange notes, and if an active trading market does not develop for the exchange notes you may not be able to sell your exchange notes.

There is no existing market for the exchange notes, and a liquid market may not develop for the exchange notes. As a result, you may be limited in your ability to sell your exchange notes or the prices at which you would be able to sell your exchange notes may not reflect the full value of the exchange notes. Future trading prices of the exchange notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. The initial purchasers of the outstanding notes are not obligated to make a market in the exchange notes and any market making by them may be discontinued at any time without notice. We do not intend to apply for a listing of the exchange notes on any securities exchange or on any automated dealer quotation system.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused volatility in prices. It is possible that the market for the exchange notes will be subject to disruptions. Any such disruptions may have a negative effect on you, as a holder of the exchange notes, regardless of our prospects and financial performance.

The exchange offer will be open for a limited period of time and if you choose not to exchange your outstanding notes, the present transfer restrictions will remain in force and the liquidity of your outstanding notes could be negatively affected.

If you do not exchange your outstanding notes for exchange notes under the exchange offer, then you will continue to be subject to the existing transfer restrictions on the outstanding notes. In general, the outstanding notes may not be offered or sold unless they are registered or

[Table of Contents](#)

exempt from registration under the Securities Act and applicable state securities laws. Except as required by the registration rights agreements, we do not intend to register resales of the outstanding notes under the Securities Act. You should refer to “Prospectus summary—The exchange offer” and “The exchange offer” for information about how to tender your outstanding notes.

The tender of outstanding notes in the exchange offer will reduce the outstanding principal amount of the outstanding notes, which may have an adverse effect upon, and increase the volatility of, the market price of the outstanding notes due to a reduction in liquidity.

Risks relating to our business and industry

The pizza delivery channel is highly competitive, and such competition could adversely affect our operating results.

We compete in the United States against two national chains, as well as many regional and local businesses. We could experience increased competition from existing or new companies in the pizza delivery channel, which could create increasing pressures to grow our business in order to maintain our channel share. If we are unable to maintain our competitive position, we could experience downward pressure on prices, lower demand for our products, reduced margins, the inability to take advantage of new business opportunities and the loss of channel share, which would have an adverse effect on our operating results.

We also compete on a broader scale with QSRs and other international, national, regional and local restaurants. The overall food service market and the QSR sector are intensely competitive with respect to food quality, price, service, convenience and concept, and are often affected by changes in:

- consumer tastes;
- national, regional or local economic conditions;
- disposable purchasing power;
- demographic trends; and
- currency fluctuations to the extent international operations are involved.

We compete within the food service market and the QSR sector not only for customers, but also for management and hourly employees, suitable real estate sites and qualified franchisees. Our domestic distribution segment is also subject to competition from outside suppliers. If other suppliers were to offer lower prices or better service to our franchisees for their ingredients and supplies and, as a result, our franchisees chose not to purchase from our domestic distribution centers, our results of operations and financial condition would be adversely affected.

If we fail to successfully implement our growth strategy, which includes opening new domestic and international stores, our ability to increase our revenues and operating profits could be adversely affected.

A significant component of our growth strategy is opening new domestic and international franchise stores. We and our franchisees face many challenges in opening new stores, including, among others:

- selection and availability of suitable store locations;

[Table of Contents](#)

- negotiation of acceptable lease or financing terms;
- securing required domestic or foreign governmental permits and approvals; and
- employment and training of qualified personnel.

The opening of additional franchise stores also depends, in part, upon the availability of prospective franchisees who meet our criteria. Our failure to add a significant number of new stores would adversely affect our ability to increase revenues and operating income. We are currently planning to expand our international operations in markets where we currently operate and in selected new markets. This may require considerable management time as well as start-up expenses for market development before any significant revenues and earnings are generated. Operations in new foreign markets may achieve low margins or may be unprofitable and expansion in existing markets may be affected by local economic and market conditions. Therefore, as we expand internationally, we may not experience the operating margins we expect, and our revenues and earnings may be negatively impacted.

We may also pursue strategic acquisitions as part of our business. If we are able to identify acquisition candidates, such acquisitions may be financed, to the extent permitted under our debt agreements, with substantial debt.

The food service market is affected by consumer preferences and perceptions. Changes in these preferences and perceptions may lessen the demand for our products, which would reduce sales and harm our business.

Food service businesses are affected by changes in consumer tastes, national, regional and local economic conditions, and demographic trends. Our sales could also be affected by changing consumer tastes. For instance, if prevailing health or dietary preferences cause consumers to avoid pizza and other products we offer in favor of foods that are perceived as more healthy, our business and operating results would be harmed. Moreover, because we are primarily dependent on a single product, if consumer demand for pizza should decrease, our business would suffer more than if we had a more diversified menu, as many other food service businesses do.

Increases in food, labor and other costs could adversely affect our profitability and operating results.

An increase in our operating costs could adversely affect our profitability. Factors such as inflation, increased food costs, increased labor and employee benefit costs and increased energy costs may adversely affect our operating costs. Most of the factors affecting costs are beyond our control and, in many cases, we may not be able to pass along these increased costs to our customers or franchisees. Most ingredients used in our pizza, particularly cheese, are subject to significant price fluctuations as a result of seasonality, weather, demand and other factors. The cheese block price per pound averaged \$1.19 in 2002 and the estimated increase in company-owned store food costs from a hypothetical \$0.20 adverse change in the average cheese block price per pound would have been approximately \$3.5 million in 2002. Labor costs are largely a function of the minimum wage for a majority of our store and distribution center personnel, and, generally, are a function of the availability of labor. Food, including cheese costs, and labor represent approximately 45% to 60% of a typical company-owned store's cost of sales.

[Table of Contents](#)

We do not have long-term contracts with many of our suppliers, and as a result they could seek to significantly increase prices or fail to deliver.

We typically do not rely on written contracts or long-term arrangements with our suppliers. Although we have not experienced significant problems with our suppliers, our suppliers may implement significant price increases or may not meet our requirements in a timely fashion, if at all. The occurrence of any of the foregoing could have a material adverse effect on our operating results.

We are dependent on sole suppliers for some of our food products.

We are dependent on sole suppliers for our cheese, chicken and meat toppings and for our Crunchy Thin Crust dough products. Alternate sources for these ingredients may not be available and we may not be able to enter into new arrangements on a timely basis for the supply of these ingredients or on terms as favorable to us as under our current arrangements.

Shortages or interruptions in the supply or delivery of fresh food products could adversely affect our operating results.

We and our franchisees are dependent on frequent deliveries of fresh food products that meet our specifications. Shortages or interruptions in the supply of fresh food products caused by unanticipated demand, problems in production or distribution, inclement weather or other conditions could adversely affect the availability, quality and cost of ingredients, which would adversely affect our operating results.

Any prolonged disruption in the operations of any of our dough manufacturing and distribution centers could harm our business.

We operate 18 regional dough manufacturing and distribution centers in the contiguous United States and dough manufacturing and distribution centers in Alaska, Hawaii, Canada, the Netherlands and France. Our domestic dough manufacturing and distribution centers service all of our company-owned stores and approximately 98% of our domestic franchise stores. As a result, any prolonged disruption in the operations of any of these facilities, whether due to technical or labor difficulties, destruction or damage to the facility, real estate issues or other reasons, could result in increased costs and reduced revenues and our profitability and prospects could be harmed.

We face risks of litigation from customers, franchisees, employees and others in the ordinary course of business, which diverts our financial and management resources. Any adverse litigation or publicity may negatively impact our financial condition and results of operations.

Claims of illness or injury relating to food quality or food handling are common in the food service industry. In addition, class action lawsuits have been filed, and may continue to be filed, against various QSRs alleging, among other things, that QSRs have failed to disclose the health risks associated with high-fat foods and that QSR marketing practices have encouraged obesity. In addition to decreasing our sales and profitability and diverting our management resources, adverse publicity or a substantial judgment against us could negatively impact our financial condition, results of operations and brand reputation, hindering our ability to attract and retain franchisees and grow our business.

[Table of Contents](#)

Further, we may be subject to employee, franchisee and other claims in the future based on, among other things, discrimination, harassment, wrongful termination and wage, rest break and meal break issues, including those relating to overtime compensation. We have been subject to these types of claims in the past, and we are currently subject to a purported class action claim of this type in California relating to rest break and meal break compensation and if one or more of these claims were to be successful or if there is a significant increase in the number of these claims, our business, financial condition, operating results and cash flows could be harmed.

Loss of key personnel or our inability to attract and retain new qualified personnel could hurt our business and inhibit our ability to operate and grow successfully.

Our success in the highly competitive pizza delivery channel will continue to depend to a significant extent on our leadership team and other key management personnel. Other than with our chairman and chief executive officer, David A. Brandon, we do not have any long-term employment agreements with any of our executive officers. As a result, we may not be able to retain our executive officers and key personnel or attract additional qualified management. Our success also will continue to depend on our ability to attract and retain qualified personnel to operate our stores, dough manufacturing and distribution centers and international operations. The loss of these employees or our inability to recruit and retain qualified personnel could have a material adverse effect on our operating results.

Our international operations subject us to additional risks, which risks and costs may differ in each country in which we do business, and may cause our profitability to decline due to increased costs.

We conduct a portion of our business outside the United States. Our financial condition and results of operations may be adversely affected if global markets in which our company-owned and franchise stores compete are affected by changes in political, economic or other factors. These factors, over which neither we nor our franchisees have control, may include:

- recessionary or expansive trends in international markets;
- changing labor conditions and difficulties in staffing and managing our foreign operations;
- increases in the taxes we pay and other changes in applicable tax laws;
- legal and regulatory changes and the burdens and costs of our compliance with a variety of foreign laws;
- changes in inflation rates;
- changes in exchange rates and the imposition of restrictions on currency conversion or the transfer of funds;
- difficulty in collecting our royalties and longer payment cycles;
- expropriation of private enterprises;
- political or economic instability; and
- other external factors.

Fluctuations in the value of the U.S. dollar in relation to other currencies may lead to lower revenues and earnings.

Exchange rate fluctuations could have an adverse effect on our results of operations. Approximately 5.6% of our revenues in 2001, 6.4% of our revenues in 2002 and 7.1% of our revenues in the two fiscal quarters ended June 15, 2003 were derived from our international segment, the majority of which were denominated in foreign currencies. Sales made by our stores outside the United States are denominated in the currency of the country in which the store is located, and this currency could become less valuable prior to conversion to U.S. dollars as a result of exchange rate fluctuations. Unfavorable currency fluctuations could lead to increased prices to customers outside the United States or lower profitability to our franchisees outside the United States, or could result in lower revenues for us, on a U.S. dollar basis, from such customers and franchisees.

We may not be able to adequately protect our intellectual property, which could harm the value of our brand and branded products and adversely affect our business.

We depend in large part on our brand and branded products and believe that they are very important to our business. We rely on a combination of trademarks, copyrights, service marks, trade secrets and similar intellectual property rights to protect our brand and branded products. The success of our business depends on our continued ability to use our existing trademarks and service marks in order to increase brand awareness and further develop our branded products in both domestic and international markets. We have registered certain trademarks and have other trademark registrations pending in the United States and foreign jurisdictions. Not all of the trademarks that we currently use have been registered in all of the countries in which we do business and they may never be registered in all of these countries. We may not be able to adequately protect our trademarks and our use of these trademarks may result in liability for trademark infringement, trademark dilution or unfair competition. All of the steps we have taken to protect our intellectual property in the United States and in foreign countries may not be adequate. In addition, the laws of some foreign countries do not protect intellectual property rights to the same extent as the laws of the United States. Further, through acquisitions of third parties, we may acquire brands and related trademarks that are subject to the same risks as the brands and trademarks we currently own.

We may from time to time be required to institute litigation to enforce our trademarks or other intellectual property rights, or to protect our trade secrets. Such litigation could result in substantial costs and diversion of resources and could negatively affect our sales, profitability and prospects regardless of whether we are able to successfully enforce our rights.

Our earnings and business growth strategy depends on the success of our franchisees and we may be harmed by actions taken by our franchisees that are outside of our control.

A significant portion of our earnings comes from royalties generated by our franchise stores. Franchisees are independent operators and their employees are not our employees. We provide limited training and support to franchisees, but the quality of franchise store operations may be diminished by any number of factors beyond our control. Consequently, franchisees may not successfully operate stores in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other store personnel. If they do not, our image and

[Table of Contents](#)

reputation may suffer, and revenues and system-wide sales could decline. While we try to ensure that our franchisees maintain the quality of our brand and branded products, our franchisees may take actions that adversely affect the value of our intellectual property or reputation. As of June 15, 2003, we had 1,300 domestic franchisees operating 4,283 domestic stores. Four of these franchisees each operate over 50 domestic stores, including our largest franchisee who operates 163 stores, and the average franchisee operates only three stores. In addition, our international master franchisees are generally responsible for the development of significantly more stores than our domestic franchisees. As a result, our international operations are more closely tied to the success of a smaller number of franchisees than our domestic operations. Our largest international master franchisee operates 488 stores, which accounts for approximately 20% of our total international store count. Our domestic and international franchisees may not operate their franchises successfully. If one or more of our key franchisees were to become insolvent or otherwise were unable or unwilling to pay us our royalties, our results of operation could be adversely affected.

We are subject to extensive government regulation, and our failure to comply with existing or increased regulations could adversely affect our business and operating results.

We are subject to numerous federal, state, local and foreign laws and regulations, including those relating to:

- the preparation and sale of food;
- building and zoning requirements;
- environmental protection;
- minimum wage, overtime and other labor requirements;
- compliance with the Americans with Disabilities Act; and
- working and safety conditions.

We may become subject to legislation seeking to tax and/or regulate high-fat foods. If we fail to comply with existing or future regulations, we may be subject to governmental or judicial fines or sanctions. In addition, our capital expenditures could increase due to remediation measures that may be required if we are found to be noncompliant with any of these laws or regulations.

We are also subject to a Federal Trade Commission rule and to various state and foreign laws that govern the offer and sale of franchises. Additionally, these laws regulate various aspects of the franchise relationship, including terminations and the refusal to renew franchises. The failure to comply with these laws and regulations in any jurisdiction or to obtain required government approvals could result in a ban or temporary suspension on future franchise sales, fines or other penalties or require us to make offers of rescission or restitution, any of which could adversely affect our business and operating results.

Our current insurance coverage may not be adequate, and insurance premiums for such coverage may increase and we may not be able to obtain insurance at acceptable rates, or at all.

We are partially self-insured for workers' compensation, general liability and owned and non-owned automobile liabilities. We are generally responsible for up to \$1.0 million per occurrence

[Table of Contents](#)

under these retention programs for workers' compensation and general liability. We are also generally responsible for between \$500,000 and \$3.0 million per occurrence under these retention programs for owned and non-owned automobile liabilities. Total insurance limits under these retention programs vary depending on the period covered and range up to \$108.0 million per occurrence for general liability and owned and non-owned automobile liabilities and up to the applicable statutory limits for workers' compensation. These insurance policies may not be adequate to protect us from liabilities that we incur in our business. In addition, in the future our insurance premiums may increase and we may not be able to obtain similar levels of insurance on reasonable terms or at all. Any such inadequacy of or inability to obtain insurance coverage could have a material adverse effect on our business, financial condition and results of operations. We are not required to, and do not, specifically set aside funds for our self-insurance programs. We believe that our cash flows from operations and our available borrowings under our new senior secured credit facility are adequate to fund related liabilities.

Our annual and quarterly financial results are subject to significant fluctuations depending on various factors, many of which are beyond our control, which could adversely affect our ability to satisfy our debt obligations as they become due.

Our sales and operating results can vary significantly from quarter to quarter and year to year depending on various factors, many of which are beyond our control. These factors include:

- variations in the timing and volume of our sales and our franchisees' sales;
- the timing of expenditures in anticipation of future sales;
- sales promotions by us and our competitors;
- changes in competitive and economic conditions generally;
- changes in the cost or availability of our ingredients or labor; and
- foreign currency exposure.

As a result, our results of operations may decline quickly and significantly in response to changes in order patterns or rapid decreases in demand for our products. We anticipate that fluctuations in operating results will continue in the future.

- (1) On December 30, 1996, we elected to be an "S" corporation for federal income tax purposes. We reverted to "C" corporation status effective December 21, 1998. On a pro forma basis, had we been a "C" corporation throughout fiscal 1998, income tax expense would have been higher by the following amount (unaudited): fiscal year 1998—\$36.8 million.
- (2) System-wide sales represent worldwide net retail sales at our company-owned and franchise stores.
- (3) Same store sales growth is calculated including only sales from stores that also had sales in the same period of the prior year but excluding sales from certain seasonal locations such as stadiums and concert arenas. International same store sales growth is calculated similarly to domestic same store sales growth, on a constant dollar basis.
- (4) EBITDA, as adjusted, represents earnings before interest, taxes, depreciation, amortization, gains (losses) on sale/disposal of assets and other, and gain (loss) on debt extinguishments and, in 1999, the legal settlement expense indemnified by a TISM stockholder. Management uses EBITDA, as adjusted, as a primary profit measure as management believes it provides a meaningful year-to-year comparison of our operating results, and should not be substituted as an alternative to net income or income from operations which are measures of performance in accordance with accounting principles generally accepted in the United States. Furthermore, EBITDA, as adjusted, information is provided as we use it extensively in internal management reporting to evaluate our business segments, we believe it assists the investing community in evaluating the operating performance of our company and it is a required disclosure under SFAS No. 131 relating to the profitability of our reportable segments as we evaluate the performance of our segments and allocate resources to them based on EBITDA, as adjusted. EBITDA, as adjusted, should not be considered as an alternative to cash flows provided by operating activities as a measure of liquidity.

The following table sets forth a reconciliation of our net income to EBITDA, as adjusted:

- (a) As part of our 1998 recapitalization, TISM, our parent corporation, entered into a covenant not-to-compete with its former majority stockholder. TISM contributed this asset to us in 1998. Amortization expense for this covenant not-to-compete was provided using an accelerated method over a three-year period and was approximately \$1.3 million in 1998, \$32.5 million in 1999, \$10.9 million in 2000 and \$5.3 million in 2001. As of December 30, 2001, this asset was fully amortized. We adopted SFAS No. 142, "Goodwill and Other Intangibles," effective December 31, 2001 and, accordingly, ceased amortizing goodwill. Goodwill amortization was approximately \$2.0 million in 1998, \$2.1 million in 1999, \$2.3 million in 2000 and \$2.0 million in 2001.

Table of Contents

- (5) Includes a 51 store reduction in the 2001 ending store count as a result of our revised definition of a store. During the fourth quarter of 2001, we reviewed our store definition and decided to exclude from our total store count any retail location that was open less than 52 weeks and had annual sales of less than \$100,000. Although these stores are no longer included in our store count, revenues and profits generated from these stores are recognized in our operating results. The store count information for 1998, 1999 and 2000 has not been adjusted to reflect this change in store count methodology.
- (6) The 1998 fiscal year is comprised of 53 weeks, while the other fiscal years presented are comprised of 52 weeks. In 1998, we incurred significant debt as part of TISM's 1998 recapitalization. We distributed substantially all of the proceeds from the issuance of debt to TISM resulting in a significant charge to stockholder's equity. We also recorded significant long-term assets as part of the recapitalization including deferred tax assets, deferred financing costs and a covenant not-to-compete.
- (7) In 1999, we recognized \$7.6 million in restructuring charges comprised primarily of staff reduction costs.

Unaudited pro forma consolidated financial data

The unaudited pro forma consolidated financial data set forth below are based on the historical consolidated financial statements of Domino's, Inc. and its subsidiaries appearing elsewhere in this prospectus and adjustments described in the accompanying notes to the unaudited pro forma consolidated financial data.

The unaudited pro forma consolidated balance sheet as of June 15, 2003 gives effect to the Transactions as if they occurred on such date. The unaudited pro forma consolidated statements of income for the fiscal year ended December 29, 2002 and the two fiscal quarters ended June 15, 2003 give effect to the Transactions as if they had occurred on the first day of fiscal 2002. In addition, the unaudited pro forma consolidated financial data gives effect to the purchase of an aggregate of \$206.7 million of our 10^{3/8}% senior subordinated notes in the 2009 Notes Tender Offer. Further, pro forma interest expense related to the term loan facility of our new senior secured credit facility is based upon the actual LIBOR rates that were in effect for the periods presented. We believe that using actual LIBOR rates results in a more representative presentation of pro forma interest expense than using current LIBOR rates.

The unaudited pro forma consolidated financial data do not purport to represent what our results of operations, balance sheet data or financial information would have been if the Transactions had occurred as of the dates indicated or what such results will be for any future periods. The unaudited pro forma adjustments are based upon available information and certain assumptions that we believe are reasonable and exclude certain non-recurring charges as disclosed. You should read our unaudited pro forma consolidated financial data and the accompanying notes in conjunction with our historical financial statements and the accompanying notes thereto included elsewhere in this prospectus and the other financial information included under the headings "Capitalization" and "Management's discussion and analysis of financial condition and results of operations."

A 1/8% increase or decrease in the assumed weighted average interest rate would change pro forma interest expense by \$0.8 million and \$0.3 million for the fiscal year ended December 29, 2002 and the two fiscal quarters ended June 15, 2003, respectively.

Management's discussion and analysis of financial condition and results of operations

The following discussion should be read in conjunction with our consolidated financial statements and related notes and other financial information appearing elsewhere in this prospectus. In addition to historical information, the following discussion and other parts of this prospectus contain forward-looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by such forward-looking information due to the factors discussed under "Risk factors," "Disclosure regarding forward-looking statements" and elsewhere in this prospectus.

Overview

Our revenues are driven primarily by system-wide sales, which generate royalty payments by our franchisees, revenues from our company-owned stores and revenues to our distribution business. The following table sets forth our system-wide sales for the 2000, 2001 and 2002 fiscal years and the two fiscal quarters ended June 16, 2002 and June 15, 2003, respectively.

Critical accounting policies

The following discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting

[Table of Contents](#)

principles generally accepted in the United States of America. The preparation of these financial statements requires our management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an ongoing basis, our management evaluates its estimates, including those related to revenue recognition, uncollectible receivables, long-lived assets, insurance and legal matters, and income taxes. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates. Changes in our estimates could materially impact our results of operations and financial condition for any particular period. We believe that our most critical accounting policies are:

Revenue recognition

We earn revenues through our network of domestic company-owned and franchise stores, dough manufacturing and distribution centers and international operations. Retail sales from company-owned stores and royalty revenues resulting from the retail sales from franchise stores are recognized as revenues when the items are delivered to or carried out by customers. Sales of food from our distribution centers are recognized as revenues upon delivery of the food to franchisees while sales of equipment and supplies from our distribution centers are recognized as revenues upon shipment of the related products to franchisees.

Allowance for uncollectible receivables

We closely monitor our accounts and notes receivable balances and provide allowances for uncollectible amounts as a result of our reviews. These estimates are based on, among other factors, historical collection experience and a review of our receivables by aging category. Additionally, we may also provide allowances for uncollectible receivables based on specific customer collection issues that we have identified. While write-offs of bad debts have historically been within our expectations and the provisions established, management cannot guarantee that future write-offs will not exceed historical rates. Specifically, if the financial condition of our franchisees were to deteriorate resulting in an impairment of their ability to make payments, additional allowances may be required.

Long-lived assets

We generally record long-lived assets, including property, plant and equipment and capitalized software, at cost. For acquisitions of franchise operations, we estimate the fair values of the assets and liabilities acquired based on physical inspection of assets, historical experience and/or other information available to us regarding the acquisition. We depreciate and amortize long-lived assets using useful lives determined by us based on historical experience and other information available to us including industry practice. We review long-lived assets for impairment when events or circumstances indicate that the related amounts might be impaired.

We evaluate goodwill for impairment on an annual basis by comparing the fair value of our reporting units to their carrying values. Substantially all of our goodwill relates to our company-owned stores in our domestic stores segment. The fair value of our stores significantly exceeds the recorded carrying value. Given the current and expected future performance of our domestic stores, we do not anticipate a material goodwill impairment to be recorded in the near term.

Insurance and legal matters

We are a party to lawsuits and legal proceedings arising in the ordinary course of business. Management closely monitors these legal matters and estimates the probable costs for the resolution of such matters. These estimates are primarily determined by consulting with both internal and external parties handling the matters and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. If our estimates relating to legal matters proved inaccurate for any reason, we may be required to increase or decrease the related expense in future periods.

For certain periods prior to December 1998 and for periods after December 2001 we maintain insurance coverage for workers' compensation, general liability and owned and non-owned auto liability under insurance policies requiring payment of a deductible for each occurrence up to between \$500,000 and \$3.0 million, depending on the policy year and line of coverage. The related insurance reserves are determined using actuarial estimates, which are based on historical information along with assumptions about future events. Changes in assumptions for such factors as medical costs and legal actions, as well as changes in actual experience, could cause these estimates to change in the near term which could result in an increase or decrease in the related expense in future periods.

Income taxes

Our net deferred tax assets assume that we will generate sufficient taxable income in specific tax jurisdictions, based on estimates and assumptions. The amounts relating to taxes recorded on the balance sheet, including tax reserves, also consider the ultimate resolution of revenue agent reviews based on estimates and assumptions. If these estimates and assumptions change in the future, we may be required to adjust our valuation allowance or other tax reserves resulting in additional income tax expense or benefit in future periods.

(a) Includes a 51 unit reduction as a result of the company's revised definition of a store in 2001. During 2001, we revised our store definition and decided to exclude any retail location that was open less than 52 weeks and had annual sales of less than \$100,000 from its total store count. Although these units are no longer included in the company's store counts, revenues and profits generated from these units will continue to be recognized in the company's operating results.

First two quarters of fiscal 2003 compared to first two quarters of fiscal 2002

(Unaudited)

The 2003 and 2002 second quarters referenced herein represent the twelve-week periods ended June 15, 2003 and June 16, 2002, respectively. The 2003 and 2002 first two quarters referenced herein represent the twenty-four week periods ended June 15, 2003 and June 16, 2002, respectively.

Revenues. Revenues include retail sales by company-owned stores, royalties and fees from domestic and international franchise stores, and sales of food, equipment and supplies by our distribution centers to certain domestic and international franchise stores.

Consolidated revenues increased \$1.1 million or 0.4% to \$295.2 million in the second quarter of 2003, from \$294.1 million in the comparable period in 2002, and increased \$5.4 million or 0.9% to \$607.5 million in the first two quarters of 2003, from \$602.1 million in the comparable period in 2002. These increases in revenues were due primarily to increases in international revenues, offset in part by decreases in domestic stores revenues. Additionally, revenues for the first two quarters of 2003 were positively impacted by an increase in domestic distribution revenues. These results are more fully described below.

Domestic stores. Domestic stores are comprised of domestic company-owned store operations and domestic franchise operations, as summarized in the following table.

Domestic Stores	Second quarter of 2003		Second quarter of 2002		First two quarters of 2003		First two quarters of 2002	
Domestic company-owned stores	\$ 85.9	72.6%	\$ 88.5	73.4%	\$175.8	72.5%	\$178.4	72.8%
Domestic franchise	32.3	27.4%	32.0	26.6%	66.8	27.5%	66.6	27.2%
Total domestic stores revenues	\$ 118.2	100.0%	\$ 120.5	100.0%	\$242.6	100.0%	\$245.0	100.0%

Domestic stores revenues decreased \$2.3 million or 1.9% to \$118.2 million in the second quarter of 2003, from \$120.5 million in the comparable period in 2002, and decreased \$2.4 million or 1.0% to \$242.6 million in the first two quarters of 2003, from \$245.0 million in the comparable period in 2002. These decreases in revenues were due primarily to decreases in same store sales at our domestic stores during 2003. Same store sales for domestic stores decreased 0.3% and 0.8% in the second quarter and first two quarters of 2003, respectively, compared to the same period in 2002.

Domestic company-owned stores. Revenues from domestic company-owned store operations decreased \$2.6 million or 2.9% to \$85.9 million in the second quarter of 2003, from \$88.5 million in the comparable period in 2002, and decreased \$2.6 million or 1.4% to \$175.8 million in the first two quarters of 2003, from \$178.4 million in the comparable period in 2002. These decreases in revenues were due primarily to decreases in same store sales. Same store sales for domestic company-owned stores decreased 2.9% and 4.3% in the second quarter and first two quarters of 2003, respectively, compared to the same period in 2002. There were 579 and 583 domestic company-owned stores in operation as of June 15, 2003 and June 16, 2002, respectively.

Domestic franchise. Revenues from domestic franchise operations increased slightly in the second quarter and first two quarters of 2003 from the comparable period in 2002. These increases in revenues were due primarily to increases in the average number of domestic franchise stores open during 2003. There were 4,283 and 4,223 domestic franchise stores in operation as of June 15, 2003 and June 16, 2002, respectively. Same store sales for domestic franchise stores remained relatively flat, increasing 0.1% in the second quarter of 2003 and decreasing 0.2% in the first two quarters of 2003, compared to the same period in 2002.

Domestic distribution. Revenues from domestic distribution operations decreased slightly in the second quarter of 2003 from the comparable period in 2002 and increased \$1.6 million or 0.5% to \$322.1 million in the first two quarters of 2003, from \$320.5 million in the comparable period in 2002. This increase in revenues in the first two quarters of 2003 was due primarily to increases in volumes, offset by a market decrease in overall food basket prices, including lower cheese prices. The cheese block price per pound averaged \$1.11 and \$1.12 in the second quarter and first two quarters of 2003, respectively, compared to \$1.22 and \$1.24 in the comparable period in 2002.

International. Revenues from international operations increased \$3.6 million or 18.8% to \$22.4 million in the second quarter of 2003, from \$18.8 million in the comparable period in 2002, and

[Table of Contents](#)

increased \$6.1 million or 16.8% to \$42.8 million in the first two quarters of 2003, from \$36.7 million in the comparable period in 2002. These increases in revenues were due in part to increases in same store sales and in the average number of international stores open during 2003. On a constant dollar basis, same store sales increased 2.6% and 3.5% in the second quarter and first two quarters of 2003, respectively, compared to the same period in 2002. On a historical dollar basis, same store sales increased 6.0% and 6.3% in the second quarter and first two quarters of 2003, respectively, compared to the same period in 2002. The 2003 same store sales results indicate that the U.S. Dollar was generally weaker against the currencies of those countries in which we compete, as compared to the same period in 2002. There were 2,429 and 2,290 international stores in operation as of June 15, 2003 and June 16, 2002, respectively.

Cost of sales / operating margin. The consolidated operating margin, which we define as revenues less cost of sales, increased slightly in the second quarter of 2003 and decreased slightly in the first two quarters of 2003 from the comparable period in 2002, as summarized in the following table.

(Dollars in millions)	Second quarter of 2003		Second quarter of 2002		First two quarters of 2003		First two quarters of 2002	
Revenues	\$ 295.2	100.0%	\$ 294.1	100.0%	\$607.5	100.0%	\$602.1	100.0%
Cost of sales	216.6	73.4%	215.8	73.4%	446.6	73.5%	441.1	73.3%
Consolidated operating margin	\$ 78.6	26.6%	\$ 78.3	26.6%	\$160.9	26.5%	\$161.0	26.7%

Consolidated cost of sales is comprised primarily of domestic company-owned store and domestic distribution costs incurred to generate related revenues. Components of consolidated cost of sales primarily include food, labor and occupancy costs.

Consolidated cost of sales increased \$0.8 million or 0.4% to \$216.6 million in the second quarter of 2003, from \$215.8 million in the comparable period in 2002, and increased \$5.5 million or 1.2% to \$446.6 million in the first two quarters of 2003, from \$441.1 million in the comparable period in 2002. These net increases in consolidated cost of sales were driven in part by cost of sales changes at domestic company-owned stores and domestic distribution, as more fully described below.

Domestic company-owned stores. The domestic company-owned store operating margin decreased \$2.7 million or 13.1% to \$18.3 million in the second quarter of 2003, from \$21.0 million in the comparable period in 2002, and decreased \$6.3 million or 14.5% to \$37.2 million in the first two quarters of 2003, from \$43.5 million in the comparable period in 2002, as summarized in the following table.

(Dollars in millions)	Second quarter of 2003		Second quarter of 2002		First two quarters of 2003		First two quarters of 2002	
Revenues	\$ 85.9	100.0%	\$88.5	100.0%	\$175.8	100.0%	\$178.4	100.0%
Cost of sales	67.6	78.8%	67.5	76.2%	138.6	78.9%	134.9	75.6%
Store operating margin	\$ 18.3	21.2%	\$21.0	23.8%	\$ 37.2	21.1%	\$ 43.5	24.4%

[Table of Contents](#)

Cost of sales increased as a percentage of store revenues in the second quarter and first two quarters of 2003, compared to the comparable period in 2002, due primarily to increases in food, labor and occupancy costs.

As a percentage of store revenues, food costs increased 0.4% to 26.4% in the second quarter of 2003, from 26.0% in the comparable period in 2002, and increased 0.9% to 26.7% in the first two quarters of 2003, from 25.8% in the comparable period in 2002. These increases in food costs as a percentage of store revenues were due primarily to a change in product mix per order as a result of certain promotions and new product introductions, offset in part by a market decrease in overall food prices, including cheese. As a percentage of store revenues, labor costs remained flat at 30.1% in the second quarter of 2003, compared to the same period in 2002, and increased 0.5% to 30.3% in the first two quarters of 2003, from 29.8% in the comparable period in 2002. This increase primarily reflects the impact of decreased same store sales and the resulting effects on the fixed portion of store labor and, to a lesser extent, increased average wage rates at our stores. As a percentage of store revenues, occupancy costs, which include rent, telephone, utilities and depreciation, increased 1.5% to 10.6% in the second quarter of 2003, from 9.1% in the comparable period in 2002, and increased 1.4% to 10.2% in the first two quarters of 2003, from 8.8% in the comparable period in 2002. These increases in occupancy costs were due primarily to increases in store operating costs including, telephone, utilities and depreciation. This increase in depreciation is primarily a result of recent investments in our stores including the implementation of a new point of sale system as well as significant investments in the re-imaging of substantially all of our stores.

Domestic distribution. The domestic distribution operating margin increased \$0.6 million or 3.5% to \$17.9 million in the second quarter of 2003, from \$17.3 million in the comparable period in 2002, and increased \$2.7 million or 7.8% to \$37.7 million in the first two quarters of 2003, from \$35.0 million in the comparable period in 2002. These results are summarized in the following tables.

(Dollars in millions)	Second quarter of 2003		Second quarter of 2002		First two quarters of 2003		First two quarters of 2002	
Revenues	\$ 154.6	100.0%	\$ 154.7	100.0%	\$322.1	100.0%	\$320.5	100.0%
Cost of sales	136.7	88.4%	137.4	88.8%	284.4	88.3%	285.5	89.1%
Distribution operating margin	\$ 17.9	11.6%	\$ 17.3	11.2%	\$ 37.7	11.7%	\$ 35.0	10.9%

Cost of sales as a percentage of distribution revenues was positively impacted by increases in volumes, efficiencies in the areas of operations and purchasing as well as reductions in certain commodity prices, including cheese. Reductions in certain food prices have a positive effect on the distribution operating margin as a percentage of distribution revenues due to the fixed dollar margin earned by domestic distribution on sales of certain food items, including cheese. Had cheese prices remained constant with 2002 levels, the domestic distribution operating margin for the second quarter and first two quarters of 2003 would have been approximately 11.3% and 11.4% of distribution revenues, respectively, or 0.3% less than the reported amounts for each of the second quarter and first two quarters of 2003.

General and administrative expenses. General and administrative expenses decreased \$8.1 million or 17.0% to \$39.4 million in the second quarter of 2003, from \$47.5 million in the comparable period in 2002, and decreased \$11.3 million or 12.4% to \$80.3 million in the first two quarters of 2003, from \$91.6 million in the comparables period in 2002. As a percentage of total revenues, general and administrative expenses decreased 2.8% to 13.3% in the second quarter of 2003, from 16.1% in the comparable period in 2002, and decreased 2.0% to 13.2% in the first two quarters of 2003, from 15.2% in the comparable period in 2002. These improvements in general and administrative expenses as a percentage of revenues were due in part to management's continued focus on controlling overhead costs, including decreases in administrative labor, and decreases in depreciation and amortization. Additionally, during the second quarter of 2002, the company expensed approximately \$5.3 million of certain capitalized software costs.

Interest expense. Interest expense decreased \$2.7 million or 19.5% to \$11.0 million in the second quarter of 2003, from \$13.7 million in the comparable period in 2002, and decreased \$3.8 million or 14.2% to \$23.4 million in the first two quarters of 2003, from \$27.2 million in the comparable period in 2002. These decreases in interest expense were due primarily to decreases in related variable interest rates on our senior credit facility borrowings and reduced debt levels. The company repaid \$21.4 million of debt in the first two quarters of 2003.

Provision for income taxes. Provision for income taxes increased \$4.5 million to \$10.8 million in the second quarter of 2003, from \$6.3 million in the comparable period in 2002, and increased \$5.8 million to \$21.5 million in the first two quarters of 2003, from \$15.7 million in the comparable period in 2002.

2002 compared to 2001

Revenues. Consolidated revenues rose slightly in 2002 to \$1.27 billion. This increase in revenues was due primarily to increases in revenues from domestic stores and international operations, offset in part by a decrease in revenues from domestic distribution operations. This increase in revenues is more fully described below.

Domestic stores. Domestic stores is comprised of domestic company-owned store operations and domestic franchise store operations, as summarized in the following table:

(Dollars in millions)	Fiscal year ended			
	Dec. 30, 2001		Dec. 29, 2002	
Domestic company-owned stores	\$ 362.2	73.0%	\$376.5	72.8%
Domestic franchise	134.2	27.0%	140.7	27.2%
Total domestic stores revenues	\$ 496.4	100.0%	\$517.2	100.0%

Domestic stores revenues increased \$20.8 million or 4.2% to \$517.2 million in 2002, from \$496.4 million in 2001. This increase was due primarily to increases in system-wide sales at both our franchise and company-owned stores. This increase is more fully described below.

Domestic company-owned stores. Revenues from domestic company-owned store operations increased \$14.3 million or 4.0% to \$376.5 million in 2002, from \$362.2 million in 2001. This

[Table of Contents](#)

increase was due primarily to an increase in the average number of domestic company-owned stores open during 2002. There were 577 and 519 domestic company-owned stores in operation as of December 29, 2002 and December 30, 2001, respectively. This increase was due primarily to the purchase of 83 stores from our former franchisee in Arizona. Same store sales for domestic company-owned stores were flat in 2002 compared to 2001.

Domestic franchise. Revenues from domestic franchise operations increased \$6.5 million or 4.8% to \$140.7 million in 2002, from \$134.2 million in 2001. This increase was due primarily to an increase in same store sales offset in part by a decrease in the average number of domestic franchise stores open during 2002. Same store sales for domestic franchise stores increased 3.0% in 2002 compared to 2001. There were 4,271 and 4,294 domestic franchise stores in operation as of December 29, 2002 and December 30, 2001, respectively. This decrease in store count was due primarily to the aforementioned sale of 83 domestic franchise stores in Arizona offset in part by net new store openings.

Domestic distribution. Revenues from domestic distribution operations decreased \$15.9 million or 2.3% to \$676.0 million in 2002, from \$691.9 million in 2001. This decrease was due primarily to a market decrease in overall food prices, primarily cheese, and a decrease in the average number of domestic franchise stores open in 2002, offset in part by an increase in volumes relating to increases in domestic franchise same store sales.

International. Revenues from international operations increased \$11.8 million or 16.8% to \$81.8 million in 2002, from \$70.0 million in 2001. This increase was due primarily to the acquisition of the Netherlands franchise operations, which includes 39 franchise stores, 15 company-owned stores and a distribution center, in the fourth quarter of 2001 (\$7.1 million year over year impact on revenues), as well as increases in same store sales and the average number of international stores open during 2002. On a constant dollar basis, same store sales increased 4.1% in 2002 compared to 2001. On a historical dollar basis, same store sales increased 3.2% in 2002 compared to 2001, reflecting a generally stronger U.S. dollar in those markets that we compete. There were 2,382 and 2,259 international stores in operation as of December 29, 2002 and December 30, 2001, respectively.

Cost of sales / operating margin. The consolidated operating margin, which we define as revenues less cost of sales, increased \$15.6 million or 4.9% to \$336.0 million in 2002, from \$320.4 million in 2001, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 30, 2001		Dec. 29, 2002	
Revenues	\$ 1,258.3	100.0%	\$ 1,275.0	100.0%
Cost of sales	937.9	74.5%	939.0	73.6%
Operating margin	\$ 320.4	25.5%	\$ 336.0	26.4%

Consolidated cost of sales increased \$1.1 million or 0.1% to \$939.0 million in 2002, from \$937.9 million in 2001. This increase in consolidated cost of sales was driven primarily by cost of sales changes at domestic company-owned stores and domestic distribution, as more fully described below.

[Table of Contents](#)

Domestic company-owned stores. The domestic company-owned store operating margin increased \$2.7 million or 3.3% to \$84.1 million in 2002, from \$81.4 million in 2001, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 30, 2001		Dec. 29, 2002	
Revenues	\$ 362.2	100.0%	\$376.5	100.0%
Cost of sales	280.8	77.5%	292.4	77.6%
Store operating margin	\$ 81.4	22.5%	\$ 84.1	22.4%

Cost of sales increased slightly as a percentage of store revenues in 2002 compared to 2001 primarily due to increases in labor, insurance, and occupancy costs offset in part by a decrease in food costs. As a percentage of store revenues, labor costs increased 0.4% to 30.2% in 2002, from 29.8% in 2001, reflecting increased average wage rates at our stores. As a percentage of store revenues, insurance costs increased 1.0% to 4.4% in 2002, from 3.4% in 2001. This increase in insurance costs was driven primarily by the increased cost of workers' compensation and automobile liability premiums. As a percentage of store revenues, occupancy costs, which include rent, telephone, utilities and other related costs, increased 0.2% to 9.7% in 2002, from 9.5% in 2001. This increase in occupancy costs was due primarily to increases in rents.

These increases in cost of sales were offset in part by a decrease in food costs as a percentage of store revenues. Food costs decreased 1.7% to 26.2% in 2002, from 27.9% in 2001 due primarily to lower cheese prices during 2002 as compared to 2001. The cheese block price per pound averaged \$1.19 in 2002 compared to \$1.43 in 2001.

Domestic distribution. The domestic distribution operating margin increased \$4.7 million or 6.6% to \$75.7 million in 2002, from \$71.0 million in 2001, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 30, 2001		Dec. 29, 2002	
Revenues	\$ 691.9	100.0%	\$676.0	100.0%
Cost of sales	620.9	89.7%	600.3	88.8%
Distribution operating margin	\$ 71.0	10.3%	\$ 75.7	11.2%

Cost of sales as a percentage of distribution revenues was positively impacted by increases in volumes and efficiencies in the areas of operations and purchasing as well as reductions in certain commodity prices, specifically cheese. Reductions in certain commodity prices has a positive effect on cost of sales as a percentage of revenues due to the fixed dollar margin earned by domestic distribution on certain food items, including cheese. Had cheese prices remained constant with fiscal 2001 levels, distribution operating margin would have decreased to approximately 10.6% of distribution revenues, or 0.6% less than the reported amounts.

These decreases in cost of sales were offset in part by increases in insurance costs. The increases in insurance costs were driven by the increased cost of workers' compensation and automobile liability premiums.

General and administrative expenses. General and administrative expenses decreased \$13.7 million or 7.1% to \$179.8 million in 2002, from \$193.5 million in 2001. As a percentage of total revenues, general and administrative expenses decreased 1.3% to 14.1% in 2002, from 15.4% in 2001. This improvement in general and administrative expenses as a percentage of revenues was due in part to management's continued focus on controlling overhead costs, and improved collections, as well as the following:

- The absence of covenant not-to-compete amortization expense in 2002 relating to our covenant with our former majority stockholder (\$5.3 million in 2001);
- The reversal in 2002 of a \$2.5 million reserve originally recorded in 2001 relating to an international contingent liability which was favorably resolved in 2002, as well as a related \$1.4 million reserve for doubtful accounts receivable originally recorded in 2000 and 2001 which was reversed upon collection of the receivable in 2002 (\$7.2 million year over year impact); and
- The absence of goodwill expense in 2002 relating to our adoption of SFAS No. 142 (\$2.0 million in 2001).

These decreases in general and administrative expenses in 2002 were offset in part by a \$1.0 million net increase in loss on the sale/disposal of assets, which includes approximately \$5.3 million of certain capitalized software costs that were expensed in 2002.

Interest expense. Interest expense decreased \$8.1 million or 11.8% to \$60.3 million in 2002, from \$68.4 million in 2001. This decrease was due primarily to a decrease in variable interest rates and interest rate margins on our senior secured credit facility and reduced debt levels. We repaid approximately \$52.7 million of debt in 2002. This decrease in interest expense was offset in part by a \$4.5 million write-off of financing fees related to the refinancing of our senior secured credit facility.

Provision for income taxes. Provision for income taxes increased \$12.3 million to \$35.8 million in 2002, from \$23.5 million in 2001. This increase was due primarily to an increase in pre-tax income.

2001 compared to 2000

Revenues. Consolidated revenues increased \$92.2 million or 7.9% to \$1.26 billion in 2001, from \$1.17 billion in 2000. This increase in consolidated revenues was due primarily to increases in revenues from domestic distribution operations. This increase in revenues is more fully described below.

Total domestic stores revenues	\$ 498.6	100.0%	\$496.4	100.0%

[Table of Contents](#)

The domestic stores revenues decreased \$2.2 million or 0.4% to \$496.4 million in 2001, from \$498.6 million in 2000. This decrease was due primarily to decreases in revenues from company-owned stores as a result of strategic store sales, offset in part by increases in system-wide sales at our franchise stores. This decrease is more fully described below.

Domestic company-owned stores. Revenues from domestic company-owned store operations decreased \$15.8 million or 4.2% to \$362.2 million in 2001, from \$378.0 million in 2000. This decrease was due primarily to a decrease in the average number of domestic company-owned stores open during 2001. There were 519 and 626 domestic company-owned stores in operation as of December 30, 2001 and December 31, 2000, respectively. This decrease was due primarily to the strategic sales of 95 domestic company-owned stores to franchisees during 2001. This decrease was offset in part by an increase in same store sales at company-owned stores of 7.3% in 2001 compared to 2000.

Domestic franchise. Revenues from domestic franchise operations increased \$13.6 million or 11.3% to \$134.2 million in 2001, from \$120.6 million in 2000. This increase was due primarily to increases in same store sales and the average number of domestic franchise stores open during 2001. Same store sales for domestic franchise stores increased 3.6% in 2001 compared to 2000. There were 4,294 and 4,192 domestic franchise stores in operation as of December 30, 2001 and December 31, 2000, respectively. This increase in store count was due primarily to a 153 net increase in domestic franchise store openings, including the aforementioned transfer of 95 company-owned stores that were sold to franchisees during 2001. This increase was offset in part by the results of our review of our store definition in 2001. Based on this review, we decided to exclude from our store count any retail location that was open less than 52 weeks and had annual sales of less than \$100,000. As a result of this change, we reduced our domestic franchise store counts by 51 units. Although these units are no longer included in our store counts, revenues and profits generated from these units continue to be recognized in our operating results.

Domestic distribution. Revenues from domestic distribution operations increased \$87.8 million or 14.5% to \$691.9 million in 2001, from \$604.1 million in 2000. This increase was due primarily to a market increase in overall food prices, primarily cheese prices, as well as an increase in volumes relating to increases in domestic franchise store sales.

International. Revenues from international operations increased \$6.6 million or 10.4% to \$70.0 million in 2001, from \$63.4 million in 2000. This increase was due primarily to an increase in same store sales and an increase in the average number of international stores open during 2001. On a constant dollar basis, same store sales increased 6.4% in 2001 compared to 2000. On a historical dollar basis, same store sales increased 0.7% in 2001 compared to 2000, reflecting a generally stronger U.S. dollar in those markets that we compete. There were 2,259 and 2,159 international stores in operation as of December 30, 2001 and December 31, 2000, respectively.

Cost of sales / operating margin. The consolidated operating margin increased \$16.5 million or 5.4% to \$320.4 million in 2001, from \$303.9 million in 2000, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 31, 2000		Dec. 30, 2001	
Revenues	\$ 1,166.1	100.0%	\$ 1,258.3	100.0%
Cost of sales	862.2	73.9%	937.9	74.5%
Operating margin	\$ 303.9	26.1%	\$ 320.4	25.5%

[Table of Contents](#)

Consolidated cost of sales increased \$75.7 million or 8.8% to \$937.9 million in 2001, from \$862.2 million in 2000. This increase in consolidated cost of sales was driven primarily by cost of sales changes at domestic company-owned stores and domestic distribution, as more fully described below.

Domestic company-owned stores. The domestic company-owned store operating margin decreased \$7.2 million or 8.1% to \$81.4 million in 2001, from \$88.6 million in 2000, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 31, 2000		Dec. 30, 2001	
Revenues	\$ 378.0	100.0%	\$362.2	100.0%
Cost of sales	289.4	76.6%	280.8	77.5%
Store operating margin	\$ 88.6	23.4%	\$ 81.4	22.5%

Cost of sales increased as a percentage of store revenues in 2001 compared to 2000 primarily due to rising food and occupancy costs offset in part by a decrease in labor costs. As a percentage of store revenues, food costs increased 1.8% to 27.9% in 2001, from 26.1% in 2000. Company-owned stores were negatively impacted primarily by higher cheese prices during 2001 as compared to 2000. The cheese block price per pound averaged \$1.43 in 2001 compared to \$1.15 in 2000. As a percentage of store revenues, occupancy costs increased 0.4% to 9.5% in 2001, from 9.1% in 2000. This increase in occupancy costs was due primarily to increases in energy costs in 2001.

These increases in cost of sales were offset in part by a decrease in labor costs as a percentage of revenues. As a percentage of store revenues, labor costs decreased 0.7% to 29.8% in 2001, from 30.5% in 2000. This decrease was due to an increase in existing same store sales and the strategic sales of company-owned stores to franchisees offset in part by an increase in the average wage rates at the stores.

Domestic distribution. Our domestic distribution operating margin increased \$7.2 million or 11.3% to \$71.0 million in 2001, from \$63.8 million in 2000, as summarized in the following table.

(Dollars in millions)	Fiscal year ended			
	Dec. 31, 2000		Dec. 30, 2001	
Revenues	\$ 604.1	100.0%	\$691.9	100.0%
Cost of sales	540.3	89.4%	620.9	89.7%
Distribution operating margin	\$ 63.8	10.6%	\$ 71.0	10.3%

Cost of sales as a percentage of distribution revenues was negatively impacted by increases in certain commodity prices, specifically cheese, offset by increases in volumes and efficiencies in the areas of operations and purchasing. Increases in commodity prices has a negative impact on operating margins as a percentage of revenues due to the fixed dollar margin earned by domestic distribution on certain food items, including cheese. Had cheese prices remained

[Table of Contents](#)

constant with fiscal 2000 levels, distribution operating margin would have increased to approximately 10.9% of revenues, or 0.6% greater than the reported amounts.

General and administrative expenses. General and administrative expenses increased \$2.8 million or 1.5% to \$193.5 million in 2001, from \$190.7 million in 2000. As a percentage of total revenues, general and administrative expenses decreased 1.0% to 15.4% in 2001, from 16.4% in 2000.

This increase in general and administrative expenses was due primarily to an increase in labor costs and a \$2.5 million reserve recorded in 2001 relating to an international contingent liability. These increases were offset in part by a decrease in covenant not-to-compete amortization expense and a decrease in store costs as a result of domestic company-owned store divestitures. Covenant not-to-compete amortization expense, primarily relating to our covenant with our former majority stockholder, decreased \$5.7 million to \$5.5 million in 2001, from \$11.2 million in 2000.

Interest expense. Interest expense decreased \$7.4 million or 9.8% to \$68.4 million in 2001, from \$75.8 million in 2000. This decrease was due primarily to a decrease in variable interest rates on our senior secured credit facility and reduced debt levels. We repaid approximately \$32.3 million of debt in 2001.

Provision for income taxes. Provision for income taxes increased \$7.3 million to \$23.5 million in 2001, from \$16.2 million in 2000. This increase was due primarily to an increase in pre-tax income.

Liquidity and capital resources

Historical

As of June 15, 2003, we had working capital of \$16.3 million and cash and cash equivalents of \$51.7 million. We had negative working capital of \$10.3 million and cash and cash equivalents of \$22.5 million at December 29, 2002. Historically, we have operated with minimal positive or negative working capital primarily because our receivable collection periods and inventory turn rates are faster than the normal payment terms on our current liabilities. We generally collect our receivables within three weeks from the date of the related sale and we generally experience 40 to 50 inventory turns per year. In addition, our sales are not typically seasonal, which further limits our working capital requirements. These factors, coupled with significant and ongoing cash flows from operations, which are primarily used to repay long-term debt and invest in long-term assets, reduce our working capital amounts. Our primary sources of liquidity are cash flows from operations and availability of borrowings under our revolving credit facility. We expect to fund planned capital expenditures and debt repayments from these sources. We did not have any material commitments for capital expenditures as of June 15, 2003.

[Table of Contents](#)

As of June 15, 2003, we had \$580.7 million of long-term debt, of which \$3.8 million was classified as a current liability. There were no borrowings under our revolving credit facility. Letters of credit issued under our revolving credit facility were \$21.8 million.

As of December 29, 2002, we had \$602.0 million of long-term debt, of which \$2.8 million was classified as a current liability. There were no borrowings under our revolving credit facility. Letters of credit issued under the revolving credit facility were \$17.9 million. Borrowings under our revolving credit facility are available to fund our working capital requirements, capital expenditures and other general corporate purposes.

Cash provided by operating activities was \$60.5 million and \$52.4 million in the first two quarters of 2003 and 2002, respectively. The \$8.1 million increase was due primarily to a \$9.2 million increase in net income.

Cash provided by operating activities was \$105.0 million and \$87.2 million in 2002 and 2001, respectively. The \$17.8 million increase was due primarily to a \$23.9 million increase in net income, an \$8.2 million increase in provision for deferred income taxes and a \$3.9 million increase in amortization of deferred financing costs. These increases were offset in part by a \$10.9 million net change in operating assets and liabilities, a \$4.8 million decrease in depreciation and amortization and a \$3.4 million decrease in provision for losses on accounts and notes receivable.

Cash used in investing activities was \$9.6 million and \$47.2 million in the first two quarters of 2003 and 2002, respectively. The \$37.6 million decrease was due primarily to a \$21.9 million decrease in acquisitions of franchise operations and a \$13.1 million decrease in capital expenditures. The decrease in acquisitions of franchise operations is due primarily to the Arizona Acquisition in the first quarter of 2002.

Cash used in investing activities was \$72.0 million and \$34.8 million in 2002 and 2001, respectively. The \$37.2 million increase was due primarily to a \$20.8 million increase in acquisitions of franchise operations and a \$13.3 million increase in capital expenditures. The increase in acquisitions of franchise operations was due primarily to our purchase of 83 domestic franchise stores in Arizona during the first quarter of 2002.

Cash used in financing activities was \$21.8 million and \$41.6 million in the first two quarters of 2003 and 2002, respectively. The \$19.8 million decrease was due primarily to a \$9.7 million decrease in distributions to our parent corporation primarily relating to the Arizona Acquisition and a \$10.7 million decrease in repayments of long-term debt.

Cash used in financing activities was \$65.8 million and \$35.2 million in 2002 and 2001, respectively. The \$30.6 million increase was due primarily to a \$20.4 million increase in net repayments of long-term debt, a \$7.0 million increase in distributions to our parent corporation and a \$3.6 million increase in cash paid for financing costs.

Post Transactions

As of June 15, 2003, after giving effect to the Transactions, we would have had outstanding \$403.0 million in aggregate principal amount at maturity of our outstanding notes, \$11.2 million

[Table of Contents](#)

in aggregate principal amount of our 10³/₈% senior subordinated notes due 2009, a term loan of \$610.0 million, an available revolving credit facility of \$125.0 million (excluding outstanding letters of credit of \$21.8 million), \$0.5 million of international debt, and a cash balance of \$38.8 million. Following the Transactions, our primary source of liquidity will continue to be cash flow generated from operations, available cash and our unused revolving credit facility.

Our borrowings under the new senior secured credit facility bear interest at a floating rate and are maintained as base rate loans or as Eurodollar loans. Base rate loans bear interest at the base rate plus the applicable base rate margin, as defined in the new senior secured credit facility. Base rate is defined as the higher of (1) the rate of interest announced publicly by JPMorgan Chase Bank in New York, New York, from time to time, as JPMorgan Chase Bank's base rate, or (2) the Federal Reserve reported overnight funds rate plus ¹/₂ of 1%. Eurodollar loans bear interest at the adjusted Eurodollar rate, as described in the new senior secured credit facility, plus the applicable Eurodollar rate margin.

The applicable margins with respect to our term loan facility and our revolving credit facility will vary from time to time in accordance with the terms thereof and agreed upon pricing grids based on our leverage ratio as defined in our new senior secured credit facility. The initial applicable margin with respect to the term loan facility and the revolving credit facility is:

- 2.00% in the case of base rate loans; and
- 3.00% in the case of Eurodollar loans.

A commitment fee of 0.50% per annum applies to the unused portion of the revolving loan facility. Had our new senior secured credit facility been in effect at June 15, 2003, the interest rate on the term loan facility would have been 4.29% and the commitment fee on the undrawn revolving credit facility would have been 0.50%.

The term loan facility matures in quarterly installments from consummation of the Transactions, the closing date, through the seventh anniversary of the closing date, (provided that for the fiscal year 2010, only two installments will be required to be paid) and the revolving credit facility terminates on the sixth anniversary of the closing date.

Our new senior secured credit facility and the Notes contain a number of covenants that, among other things, limit, subject to certain exceptions, our ability to incur additional liens and indebtedness, make capital expenditures, engage in certain transactions with affiliates, repay other indebtedness (including the Notes), make certain distributions, make acquisitions and investments, loans or advances, engage in mergers or consolidations, liquidations and dissolutions and joint ventures, sell assets, make dividends, amend certain material agreements governing our indebtedness, enter into guarantees and other contingent obligations and other matters customarily restricted in similar agreements. In addition, our senior secured credit facility contains, among others, the following financial covenants: a maximum leverage ratio; a maximum senior leverage ratio; a minimum interest coverage ratio; and a maximum capital expenditures limitation.

We believe that funds generated from operations and available borrowing capacity under the revolving credit facility will be adequate to fund our debt service requirements, capital expenditures and working capital requirements for the near future. Our ability to continue to

[Table of Contents](#)

fund these items and continue to reduce debt could be adversely affected by the occurrence of any of the events described under "Risk factors." However, our business may not generate sufficient cash flows from operations or future borrowings available to us under the revolving credit portion of our new senior secured credit facility may not be sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs. Additionally, we may be requested to provide funds to TISM for stock dividends, stock repurchases, distributions and/or other cash needs of TISM. For a more detailed description of the covenants governing our indebtedness, please see "Description of senior secured credit facility" and "Description of Notes—Certain covenants" beginning on page 91 and 103, respectively.

Impact of inflation

We believe that our results of operations are not materially impacted upon moderate changes in the inflation rate. Inflation and changing prices did not have a material impact on our operations in 2000, 2001, or 2002. Severe increases in inflation, however, could affect the global and U.S. economies and could have an adverse impact on our business, financial condition and results of operations.

New accounting pronouncements

We adopted Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangibles", effective December 31, 2001 and, accordingly, ceased amortizing goodwill. In addition, we performed the required transition impairment test and determined that no impairment adjustment was required as of the date of adoption. We also performed the annual impairment test at December 29, 2002 and determined that no impairment adjustment was required. SFAS No. 142 requires prospective application and does not permit restatement of prior period financial statements. Had this Statement been applied in prior years, net income would have been approximately \$26.7 million and \$38.1 million in 2000 and 2001, respectively.

In April 2002, the Financial Accounting Standards Board (FASB) issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13 and Technical Corrections", which, among other things, eliminates the requirement to report certain extinguishment of debt as extraordinary items. As a result, gains and losses from extinguishment of debt should be classified as extraordinary items only if they meet the criteria of Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations – Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." We adopted SFAS No. 145 effective December 31, 2001. Accordingly, the gain on extinguishment of debt of approximately \$181,000 (net of tax provision of approximately \$111,000) in 2000 and loss of approximately \$327,000 (net of tax benefit of approximately \$207,000) in 2001 have been reclassified in accordance with this Statement.

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (FIN 45). FIN 45 clarifies the requirements of SFAS No. 5 "Accounting for Contingencies", relating to a guarantor's accounting for, and disclosure of, the issuance of certain types of guarantees. We adopted FIN 45 during the first quarter of 2003. The adoption of FIN 45 did not have a material effect on our results of operation or financial condition.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities, an interpretation of ARB No. 51" (FIN 46). FIN 46 addresses the consolidation of entities

[Table of Contents](#)

whose equity holders have either (a) not provided sufficient equity at risk to allow the entity to finance its own activities or (b) do not possess certain characteristics of a controlling financial interest. FIN 46 requires the consolidation of these entities, known as variable interest entities (VIEs), by the primary beneficiary of the entity. FIN 46 applies immediately to variable interests in VIEs created or obtained after January 31, 2003. For variable interests of a non-public equity company in a VIE created before February 1, 2003, FIN 46 is applied to the VIE no later than the end of the first annual reporting period beginning after June 15, 2003, which is the end of our fiscal 2004. We have concluded that we have not created or obtained any VIEs subsequent to January 31, 2003 that would require consolidation. We are assessing FIN 46 as it relates to VIEs created before February 1, 2003 and, although we have not completed our analysis, we currently do not expect adoption to have a material effect on our financial statements.

Contractual obligations

The following is a summary of our significant contractual obligations at December 29, 2002 and does not give effect to the Transactions or this exchange offer:

(Dollars in millions)	2003	2004	2005	2006	2007	Thereafter	Total
Long-term debt(1)	\$ 2.8	\$ 4.6	\$ 3.7	\$ 3.7	\$88.5	\$ 498.7	\$602.0
Operating leases(2)	32.3	22.5	23.5	18.6	15.2	65.7	177.7

(1) This table does not give effect to the consummation of the Transactions, which include significant increases in total debt and changes in debt amortizations. The above figures represent principal payments only and do not include interest.

(2) We lease retail store and distribution center locations, distribution vehicles, various equipment and our World Resource Center, which is our corporate headquarters, under operating leases with expiration dates through 2018.

As part of our 1998 recapitalization, we and our subsidiaries entered into a management agreement with an affiliate of one of TISM's stockholders to provide specified management services. We are committed to pay an amount not to exceed \$2.0 million per year, excluding out-of-pocket expenses on an ongoing basis for management services as defined in the management agreement.

We are contingently liable to pay the former majority TISM stockholder and his wife an amount not exceeding approximately \$15.0 million under a note payable, plus 8% interest per annum beginning in 2003, in the event the majority of TISM's stockholders sell a specified percentage of their common stock to an unaffiliated party. Separately, we may be required to purchase our outstanding 10^{3/8}% senior subordinated notes upon a change of control, as defined in the indenture governing those notes. As of June 15, 2003, there was approximately \$217.9 million in aggregate principal amount of our 10^{3/8}% senior subordinated notes outstanding.

Quantitative and qualitative disclosure of market risks

Market risk

We are exposed to market risks primarily from interest rate changes on our variable rate debt. Management actively monitors this exposure. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes.

We are also exposed to market risks from changes in commodity prices. During the normal course of business, we purchase cheese and certain other food products that are affected by

[Table of Contents](#)

commodity prices and as a result, we are subject to volatility in our food costs. Management actively monitors this exposure. However, we do not enter into financial instruments to hedge commodity prices. The cheese block price per pound averaged \$1.19 in 2002. The estimated increase in company-owned store food costs from a hypothetical \$0.20 adverse change in the average cheese block price per pound would have been approximately \$3.5 million in 2002.

Financial derivatives

We enter into interest rate swaps, collars or similar instruments with the objective of reducing our volatility in borrowing costs.

We are party to an interest rate collar and four interest rate swap agreements which effectively convert the variable Eurodollar component of the effective interest rate on a portion of our term debt under our existing senior secured credit facility to various fixed rates over various terms. These agreements are summarized as follows:

(Dollars in millions)

Derivative	Total Notional Amount	Term	Rate
Interest Rate Collar	\$ 70.0	June 2001 – June 2003	3.86%- Floor 6.00%- Ceiling
Interest Rate Swap	\$ 70.0	June 2001 – June 2004	4.90%
Interest Rate Swap	\$ 35.0	September 2001 – September 2003	3.645%
Interest Rate Swap	\$ 35.0	September 2001 – September 2004	3.69%
Interest Rate Swap	\$ 75.0	August 2002 – June 2005	3.25%

Interest rate risk

Our variable interest expense is sensitive to changes in the general level of interest rates. As of June 15, 2003, a portion of our debt is borrowed at Eurodollar rates plus a margin rate of 2.25%. As of June 15, 2003, the weighted average interest rate on our \$77.3 million of variable interest debt was approximately 3.54%.

We had total interest expense of approximately \$60.3 million in 2002 and \$23.4 million in the first two quarters of 2003. The estimated increase in interest expense from a hypothetical 200 basis point adverse change in applicable variable interest rates would have been approximately \$2.5 million in 2002 and \$0.7 million in the first two quarters of 2003.

Foreign currency exchange rate risk

We have exposure to various foreign currency exchange rate fluctuations for revenues generated by our operations outside the United States, which can adversely impact our net income and cash flows. Approximately 7.1%, 6.4% and 5.6% of our revenues in the two fiscal quarters ended June 15, 2003, the year ended December 29, 2002 and the year ended December 30, 2001, respectively, were derived from sales to customers and royalties from franchisees outside the contiguous United States. This business is conducted in the local currency. We anticipate that revenues from operations outside the United States will continue to grow as a percentage of our total revenue. This exposes us to risks associated with changes in foreign currency that can adversely affect revenues, net income and cash flows.

Business

Company overview

We are the number one pizza delivery company in the United States with a 19.9% share of the U.S. pizza delivery channel and we also have a leading and growing international presence. We believe our Domino's Pizza® brand is one of the most widely recognized consumer brands in the world. We operate through a network of 596 company-owned stores, substantially all of which are in the United States, and 6,695 franchise stores located in all 50 states and in more than 50 countries. In addition, we operate 18 regional dough manufacturing and distribution centers in the contiguous United States as well as eight dough manufacturing and distribution centers outside the contiguous United States. In fiscal 2002 and the two fiscal quarters ended June 15, 2003, our worldwide net retail sales at our company-owned and franchise stores, which we refer to as our system-wide sales, were nearly \$4.0 billion and \$1.9 billion, respectively, including over \$2.9 billion and nearly \$1.4 billion, respectively, domestically and over \$1.0 billion and \$0.5 billion, respectively, internationally. During these same periods, we generated nearly \$1.3 billion and \$0.6 billion, respectively, in revenues.

Over our 43-year history, we have developed a cost-efficient store model focused on the timely delivery of high-quality, affordable pizza and complementary side items. Because our domestic stores and most of our international stores do not offer dine-in areas, they are relatively inexpensive to open and maintain. We believe that our typical store generates attractive returns on investment, which drives demand for new Domino's franchise stores.

Strong store demand from franchisees and the resulting growth in store counts, has allowed us to build a large, global and diverse franchise network. As of June 15, 2003, our franchise store network consisted of 6,695 stores, 64% of which were located in the contiguous United States. In the United States, only four franchisees operate more than 50 stores, including our largest franchisee who operates 163 stores and the average franchisee operates only three stores. Our largest international franchisee operates 488 stores, which accounts for approximately 20% of our total international store count. Over 90% of our worldwide stores are owned and operated by our highly committed franchisees.

Our earnings are driven largely through sales by franchise stores, which generate royalty payments and distribution sales. We also generate earnings through our company-owned stores. We operate our business in three segments: domestic stores, domestic distribution and international.

- *Domestic stores.* The domestic stores segment, comprised of 579 company-owned stores and 4,283 franchise stores, generated revenues of \$242.6 million, and earnings before interest, taxes, depreciation and amortization, calculated in the manner required by SFAS No. 131 and which is further described in the notes to our selected historical consolidated financial and other data included in this prospectus, which we refer to as EBITDA, as adjusted, of \$66.6 million for the two fiscal quarters ended June 15, 2003.
- *Domestic distribution.* Our domestic distribution segment, which distributes food, equipment and supplies to all of our domestic company-owned stores and food to approximately 98% of our domestic franchise stores, generated revenues of \$322.1 million and EBITDA, as adjusted, of \$25.7 million for the two fiscal quarters ended June 15, 2003.
- *International.* Our international segment, which operates 17 company-owned stores and oversees 2,412 franchise stores outside the contiguous United States and also distributes food

[Table of Contents](#)

and supplies in a limited number of these markets, generated revenues of \$42.8 million and EBITDA, as adjusted, of \$12.4 million for the two fiscal quarters ended June 15, 2003.

On a consolidated basis, we generated revenues of nearly \$607.5 million, and EBITDA, as adjusted, including \$9.5 million of unallocated corporate and administrative costs, of \$95.3 million for the two fiscal quarters ended June 15, 2003. We have been able to grow our earnings with limited capital investments because a significant portion of our earnings are driven by sales by franchise stores, which require minimal capital expenditures by us.

We have been delivering high-quality, affordable pizza to our customers since 1960 when brothers Thomas and James Monaghan borrowed \$900 and purchased a small pizza store in Ypsilanti, Michigan. In 1998, an investor group led by investment funds affiliated with Bain Capital, LLC completed a recapitalization through which the investor group acquired a 93% controlling economic interest in our company from Thomas Monaghan and his family. In June 2003, we completed a recapitalization with our parent corporation, TISM, Inc., as described under the heading "Prospectus summary—The Transactions."

Since 1999, the first full year after our 1998 recapitalization, through fiscal 2002, we increased our system-wide sales from nearly \$3.4 billion to nearly \$4.0 billion and increased our revenues from nearly \$1.2 billion to nearly \$1.3 billion. These increases in system-wide sales were driven by an increase of 671 stores worldwide and increases in same store sales in both domestic and international markets. As a result of these increases, we have grown our EBITDA, as adjusted, 44%, from \$131.1 million in 1999 to \$189.3 million in fiscal 2002. This growth in EBITDA, as adjusted, enabled us to invest in re-imaging approximately 90% of our domestic company-owned stores as well as to develop our Domino's PULSE™ point-of-sale computer system, which we have implemented in all of our domestic company-owned stores. In addition to these significant investments, between year end 1998 and our June 2003 recapitalization we repaid \$147.4 million of debt.

Our principal executive offices are located at 30 Frank Lloyd Wright Drive, Ann Arbor, MI 48106 Telephone: (734) 930-3030. We maintain a website on the Internet at www.dominos.com. Our website, and the information contained therein, is not a part of this prospectus.

Industry overview

Domestic market share and compound annual growth rate information included in this industry overview have been provided by CREST. Domestic sales information relating to the QSR sector, the U.S. pizza category and the U.S. pizza delivery channel represent consumer reported spending provided by CREST.

The U.S. pizza category is large and growing. With sales of approximately \$33.3 billion in the twelve months ended November 2002, the U.S. pizza category is the second largest category within the \$182.5 billion QSR sector, which consists of restaurants that offer a relatively focused menu of quickly prepared foods and beverages for consumption on or off premises. Over the past three years, the U.S. pizza category has grown at a compound annual growth rate of 2.4%.

The U.S. pizza category can be further segmented into the delivery, dine-in, and carry-out channels. We operate primarily within the large, growing and fragmented U.S. pizza delivery channel which generated sales of approximately \$11.8 billion and accounted for 35% of total U.S. pizza category sales in the twelve months ended November 2002.

[Table of Contents](#)

With a compound annual growth rate of 4.1% between 1999 and 2002, the U.S. pizza delivery channel was the fastest growing channel of the U.S. pizza category. We believe that this growth is the result of long-lasting demographic and lifestyle trends that include the growth of dual career families, longer work weeks and increased consumer emphasis on convenience.

The U.S. pizza delivery channel is highly fragmented. For the twelve months ended November 2002, we, along with our top two competitors, accounted for approximately 47% of all sales in the channel, up from approximately 44% in 1999. The remaining 53% is comprised predominantly of small chains and individual establishments with no single company having more than 2% of the channel. We believe that scale advantages and brand awareness will continue to drive share gains for the largest competitors within this fragmented channel.

Like the U.S. pizza delivery channel, we believe the international pizza delivery channel is large and growing. By contrast, this channel is relatively underdeveloped with only Domino's and one other competitor having a significant multinational presence. We believe that the continued increase in acceptance and demand for the convenience of delivered pizza will drive growth of the international pizza delivery channel.

Our competitive strengths

We believe that our competitive strengths include the following:

- **#1 pizza delivery company in the United States with a leading and growing international presence.** We are the number one pizza delivery company in the United States with a 19.9% share of the large and growing U.S. pizza delivery channel. With 4,862 domestic stores located in the contiguous United States, our domestic store delivery areas cover a majority of U.S. households. We believe our delivery channel coverage is one of the strongest in the industry. Our share position and scale allow us to leverage our purchasing power, distribution costs and advertising expenditures across our store base. We also believe that our scale and market coverage allow us to effectively serve our customers' demands for convenience and timely delivery.

Outside the United States, we have significant share positions in the key markets in which we compete, including, among other countries, Mexico, the United Kingdom, Australia, Canada, South Korea, Japan and Taiwan. Our top ten international markets, based on store count, accounted for approximately 61% of our system-wide international sales in 2002. We believe we have a leading presence in these markets.

- **Strong brand awareness.** We believe our Domino's Pizza® brand is one of the most widely recognized consumer brands in the world. We believe consumers associate our brand with the timely delivery of high-quality, affordable pizza and complementary side items. Over the past five years, our domestic franchise and company-owned stores have invested an estimated \$1.2 billion on national, local and co-operative advertising in the United States. We continue to reinforce our brand with extensive advertising through television, radio and print. We have also enhanced the strength of our brand through marketing affiliations with brands such as Coca-Cola® and NASCAR.®

[Table of Contents](#)

- **Successful and proven earnings model.** Over our 43-year history, we have developed a successful cash flow and earnings model. This model, anchored by strong unit economics, has driven demand for franchise stores and has established a strong and well-diversified franchise system.

- **Strong unit economics.** We have developed a cost-efficient store model characterized by a delivery-oriented store design with low capital requirements and a focused menu of high-quality, affordable pizza and complementary side items. At the store level, we believe that the simplicity and efficiency of our operations give us significant advantages over our competitors that do not focus primarily on delivery.

Our domestic stores and most of our international stores do not offer dine-in areas and thus do not require expensive restaurant facilities. In addition, our focused menu of pizza and complementary side items simplifies and streamlines our production and delivery processes and maximizes economies of scale on purchases of our principal ingredients. As a result of our focused business model and menu, our stores are small (averaging approximately 1,000 to 1,300 square feet) and inexpensive to build, furnish and maintain as compared to many other QSR franchise opportunities. The combination of this efficient store model and strong store sales volume has resulted in superior store-level financial returns for us and makes Domino's an attractive business opportunity for existing and prospective franchisees.

- **Strong and well-diversified franchise system.** We have developed a large, global, diversified and highly committed franchise network that is a critical component of our system-wide success and our leading position in the U.S. pizza delivery channel. As of June 15, 2003, our franchise store network consisted of 6,695 stores, 64% of which were located in the contiguous United States. In the United States only four franchisees operate more than 50 stores, including our largest franchisee which operates 163 stores, and the average franchisee operates only three stores. Over 90% of our worldwide stores are owned and operated by our highly committed franchisees.

In addition, we share 50% of the pre-tax profits generated by our regional dough manufacturing and distribution centers with our domestic franchisees who agree to purchase all of their food products from our distribution system. These arrangements strengthen our ties with our franchisees, provide us with a continuing source of revenues and earnings, and provide incentives for franchisees to work closely with us to reduce costs. We believe our strong, mutually beneficial franchisee relationships are evidenced by the approximately 98% voluntary participation in our domestic distribution system, our over 99% domestic franchise contract renewal rate and our over 99% collection rate on domestic franchise royalty payments.

Internationally, we have also been able to grow our franchise network by attracting franchisees with business experience and local market knowledge. We use our master franchisee model, which provides our international franchisees with exclusive rights to our well-recognized brand name in their markets. From 1999 to June 15, 2003, we grew our international franchise network 25%, from 1,930 stores to 2,412 stores. Our largest master franchisee operates 488 stores, which accounts for approximately 20% of our total international store count.

- **Strong cash flow and earnings stream.** A substantial percentage of our earnings are generated by our highly committed owner-operator franchisees through royalty payments and revenues to our vertically integrated distribution system. Royalty payments yield strong

[Table of Contents](#)

profitability to us because there are minimal corresponding company-level expenses and virtually no capital requirements associated with their collection.

We believe that our strong unit economics have led to a strong and well-diversified franchise system. This established franchise system has produced strong cash flow and earnings for us, which allowed us to significantly reduce our leverage ratios from our 1998 recapitalization until our June 2003 recapitalization, while also allowing us to make substantial investments in our stores and in the Domino's Pizza® brand.

- **Vertically integrated distribution system.** In addition to generating significant revenues and earnings, we believe that our vertically integrated distribution system enhances the quality and consistency of our products, enhances our relationships with franchisees, leverages economies of scale to offer lower costs to our stores and allows our store managers to better focus on store operations and customer service.

We make approximately 640,000 full-service food deliveries per year to our domestic stores, or an average of over two deliveries per store per week, with a delivery accuracy rate of approximately 99%. All of our domestic company-owned and approximately 98% of our domestic franchise stores purchase all of their food from our distribution system. This is accomplished through our network of 18 regional dough manufacturing and distribution centers, each of which is generally located within a one-day delivery radius of the stores it serves, and a leased fleet of over 200 tractors and trailers. We supply our domestic and international franchisees with equipment and supplies through our equipment and supply distribution center, which we operate as part of our domestic distribution segment. Our equipment and supply distribution center ships a full range of products, including ovens and uniforms, on a daily basis.

Because we source the food for substantially all of our domestic stores, our domestic distribution segment enables us to leverage and monitor our strong supplier relationships to achieve the cost benefits of scale and to ensure compliance with our rigorous quality standards. In addition, the "one-stop shop" nature of this system combined with our delivery accuracy allow our store managers to eliminate a significant component of the typical "back-of-store" activity that many of our competitors' store managers must undertake.

Our business strategy

We intend to achieve further growth and to strengthen our competitive position through the continued implementation of our business strategy, which includes the following key elements:

- **Implement our strategic initiatives.** Our mission statement is "Exceptional people on a mission to be the best pizza delivery company in the world." We undertake this mission by focusing on our four strategic initiatives:
 - **PeopleFirst.** Attract and retain high-quality company employees, who we refer to as team members, with the goals of reducing turnover and maintaining continuity in the workforce. We continually strive to achieve this objective through a combination of performance-based compensation for our non-hourly team members, learning and development programs and team member ownership to promote our entrepreneurial spirit.

[Table of Contents](#)

- **Build the Brand.** Strengthen and build upon our strong brand name to further solidify our position as the brand of first choice within the pizza delivery channel. We continually strive to achieve this objective through product and process innovation, advertising and promotional campaigns and a strong brand message.
- **Maintain High Standards.** Elevate and maintain quality throughout the entire Domino's system, with the goals of making quality and consistency a competitive advantage, controlling costs and supporting our stores. We believe that our comprehensive store audits and vertically integrated distribution system help us to consistently achieve high quality of operations across our system in a cost-efficient manner.
- **Flawless Execution.** Perfect operations with the goals of making high-quality products, attaining consistency in execution, maintaining the best operating model, making our team members a competitive advantage, operating stores with smart hustle and aligning us with our franchisees.
- **Leverage our strong brand awareness.** We believe that the strength of our Domino's Pizza® brand makes us one of the first options consumers consider when seeking a convenient, high-quality and affordable meal. We intend to continue to promote our brand name and enhance our reputation as the leader in pizza delivery. For example, we intend to continue our highly recognizable advertising campaign, "Get the Door. It's Domino's.®", through national, local and co-operative media. In addition, we intend to leverage our strong brand by continuing to introduce innovative, consumer-tested and profitable new pizza varieties and complementary side items, such as Domino's Buffalo Chicken Kickers and Cinna Stix® as well as through marketing affiliations with brands such as Coca-Cola® and NASCAR®. We believe these actions will allow us to increase our market share in the highly fragmented pizza delivery channel.
- **Expand and optimize worldwide store base.** We plan to continue expanding our base of domestic stores to take advantage of the attractive growth opportunities as well as the fragmented nature of the U.S. pizza delivery channel. We believe that our scale allows us to expand our store base with limited incremental infrastructure costs. We also believe that our franchise-oriented business model allows us to expand our store base with limited capital expenditures and working capital investments. While we plan to expand our traditional domestic store base primarily through opening new franchise stores, we will also continually evaluate our mix of company-owned and franchise stores and opportunistically re-franchise company-owned stores and acquire franchise stores.

We believe that pizza has global appeal and that there is strong international acceptance of delivered pizza. We have successfully built a leading international platform, almost exclusively through our master franchisee model. We believe that we have long-term growth opportunities in international markets where we have established a leading presence but where we believe the market is not yet fully developed. We believe we will achieve long-term growth internationally due to the strong unit economics of our business model, international acceptance of delivered pizza and strong global recognition of the Domino's Pizza® brand.

Store operations

We believe that our focused and proven store model provides a significant competitive advantage relative to many of our competitors who focus on multiple pizza category channels. We have been focused on pizza delivery for over 40 years. Because our domestic stores and most

[Table of Contents](#)

of our international stores do not offer dine-in areas, they typically do not require expensive real estate, are relatively small, and are relatively inexpensive to build and furnish. Our stores also benefit from lower maintenance costs as store assets have long lives and updates are not frequently required. Our simple and efficient operational processes, which we have refined through continuous improvement, include:

- strategic store locations to facilitate delivery service;
- production-oriented store designs;
- product and process innovations;
- a focused menu;
- efficient order taking, production and delivery;
- Domino's PULSE™ point-of-sale system; and
- a comprehensive store audit program.

Strategic store locations to facilitate delivery service

We locate our stores strategically to facilitate timely delivery service to our customers. The majority of our domestic stores are located in populated areas in or adjacent to large or mid-size cities, or on or near college campuses. We use geographic information software, which incorporates variables such as traffic volumes, competitor locations, household demographics and visibility, to evaluate and identify potential store locations and new markets.

Production-oriented store designs

Our typical store is relatively small, occupying approximately 1,000 to 1,300 square feet, and is designed with a focus on efficient and timely production of consistent, high-quality pizza for delivery. The store layout has been refined over time to provide an efficient flow from order entry to delivery. Our stores are primarily production facilities and, accordingly, do not typically have a dine-in area.

Product and process innovations

Our 43 years of experience and innovative culture have resulted in numerous new product and process developments that increase both quality and efficiency. These include our efficient vertically integrated distribution system, a sturdier corrugated pizza box and a mesh tray that helps cook pizza crust more evenly. We have also added a number of complementary side items such as buffalo wings, bread sticks, cheesy bread, Domino's Buffalo Chicken Kickers, Cinna Stix® and Domino's Dots®. The Domino's HeatWave® hot bag, which was introduced in 1998, keeps our pizza hot during delivery.

Focused menu

We maintain a focused menu that is designed to present an attractive, high-quality offering to customers, while minimizing errors in, and expediting, the order taking and food preparation processes. Our basic menu has three choices: pizza type, pizza size and pizza toppings. Most stores carry two sizes of Traditional Hand-Tossed, Ultimate Deep Dish and Crunchy Thin Crust pizza. The typical store also offers buffalo wings, bread sticks, cheesy bread, Domino's Buffalo Chicken Kickers, Cinna Stix®, Domino's Dots® and Coca-Cola® soft drink products. We also

[Table of Contents](#)

occasionally offer other products on a promotional basis. We believe that our focused menu creates a strong identity among consumers, improves operating efficiency and maintains food quality and consistency.

Efficient order taking, production and delivery

Each store executes an operational process that includes order taking, pizza preparation, cooking (via automated, conveyor-driven ovens), boxing and delivery. The entire order taking and pizza production process is designed for completion in approximately 15 minutes. These operational processes are supplemented by an extensive employee training program designed to ensure world-class quality and customer service. It is our priority to ensure that every Domino's store operates in an efficient, consistent manner while maintaining our high standards of food quality and team member safety.

Domino's PULSE™ point-of-sale system

Our computerized management information systems are designed to improve operating efficiencies, provide corporate management with timely access to financial and marketing data and reduce store and corporate administrative time and expense. We have installed Domino's PULSE™, our next generation point-of-sale system, in every company-owned store in the United States. We are also offering Domino's PULSE™ to our franchisees. Some enhanced features of Domino's PULSE™ over our previous point-of-sale system include:

- touch screen ordering, which improves accuracy and facilitates more efficient order taking;
- a delivery driver routing system, which improves delivery efficiency;
- improved administrative and reporting capabilities, which enables store managers to better focus on store operations and customer satisfaction; and
- a customer relationship management tool, which enables us to recognize customers and track ordering preferences.

Comprehensive store audit program

We utilize a comprehensive store audit program to ensure that our stores are meeting both our stringent standards as well as the expectations of our customers. The audit program focuses primarily on the quality of the pizza a store is producing, the out-the-door time and the condition of the store as viewed by the customer. We believe that this store audit program is an integral part of our strategy to maintain high standards in our stores.

Segment overview

We operate in three business segments:

- *Domestic stores.* Our domestic stores segment consists of domestic company-owned store operations, which operates our domestic network of 579 company-owned stores, and our domestic franchise operations, which oversees our domestic network of 4,283 franchise stores;
- *Domestic distribution.* Our domestic distribution segment operates 18 regional dough manufacturing and food distribution centers and one distribution center supplying equipment and supplies to our domestic and international stores; and

[Table of Contents](#)

- *International.* Our international segment oversees our network of 2,412 franchise stores in more than 50 countries and operates 16 company-owned stores in the Netherlands and one company-owned store in France. Our international segment also distributes food to a limited number of markets from eight dough manufacturing and distribution centers in Alaska, Hawaii, Canada (4), the Netherlands and France.

Domestic stores

During 2002, our domestic stores segment accounted for \$517.2 million, or 41%, of our consolidated revenues. Our domestic franchises are operated by entrepreneurs who own and operate an average of three stores. Only four of our domestic franchisees operate more than 50 stores, including our largest domestic franchisee who operates 163 stores. Our principal sources of revenues from domestic store operations are company-owned store sales and royalty payments based on franchise store sales. Our domestic network of company-owned stores also plays an important strategic role in our predominantly franchised system. In addition to generating revenues and earnings, we use our domestic company-owned stores as a forum for training new store managers and prospective franchisees, and as a test site for new products and promotions as well as store operational improvements. We also believe that our domestic company-owned stores add to the economies of scale available for advertising, marketing and other costs that are primarily borne by our franchisees.

Our domestic store operations are divided into three geographic zones and are managed through offices located in Georgia, California and Maryland. These offices provide direct supervision over our domestic company-owned stores and also provide limited training, store operational audits and marketing services. These offices also provide financial analysis and store development services to our franchisees. We maintain a close relationship with our franchise stores through regional franchise teams, an array of computer-based training materials that help franchise stores comply with our standards and franchise advisory groups that facilitate communications between us and our franchisees.

We continually evaluate our mix of domestic company-owned and franchise stores in an effort to optimize our profitability. During 2001, we sold 95 of our domestic company-owned stores to franchisees because we believed that these stores would be operated more efficiently and profitably by franchisees. In contrast, during the first fiscal quarter of 2002, we acquired 83 franchise stores in Arizona where we believe there are significant growth opportunities, and we believe that we can utilize our operational expertise to improve the operation of these stores, resulting in higher profitability.

Domestic distribution

During 2002, our domestic distribution segment accounted for \$676.0 million, or 53%, of our consolidated revenues. Our domestic distribution segment is comprised of dough manufacturing and distribution centers that manufacture fresh dough on a daily basis. We also purchase, receive, store and deliver uniform, high-quality food and equipment to all of our company-owned stores and food to approximately 98% of our domestic franchise stores. Each regional dough manufacturing and distribution center serves an average of approximately 265 stores, generally located within a one-day delivery radius. We regularly supply more than 4,700 stores with various supplies and ingredients, of which nine product groups account for nearly 90% of the volume. Our domestic distribution segment made an average of approximately 12,300 full service deliveries per week in 2002, or more than two deliveries per store per week, and we produced over 340 million pounds of dough during 2002.

[Table of Contents](#)

We believe that franchisees choose to obtain food, supplies and equipment from us because we provide the most efficient, convenient and cost-effective alternative while also providing both quality and consistency. In addition, our domestic distribution segment offers a profit-sharing arrangement to stores that purchase all of their food from our domestic dough manufacturing and distribution centers. This profit-sharing arrangement provides domestic company-owned stores and participating franchisees with 50% of their regional distribution center's pre-tax profits. Profits are shared with the franchisees based upon each franchisee's purchases from our distribution centers. We believe these arrangements strengthen our ties with these franchisees.

The information systems used by our domestic dough manufacturing and distribution centers are an integral part of the high-quality service we provide our stores. We use routing strategies and software to optimize our daily delivery schedules, which maximizes on-time deliveries. Through our strategic dough manufacturing and distribution center locations and proven routing systems, we achieved on-time delivery rates of approximately 99% during 2002. Our distribution center drivers unload food and supplies and stock store shelves typically during non-peak store hours, which minimizes disruptions in store operations.

International

During 2002, international operations accounted for \$81.8 million, or 6.4%, of our consolidated revenues. We have 464 franchise stores in Mexico, representing the largest presence of any QSR company in Mexico, more than 200 franchise stores in each of the United Kingdom, Australia, South Korea and Canada and over 100 franchise stores in each of Japan and Taiwan. The principal sources of revenues from our international operations are sales of food to franchisees in certain markets, royalty payments generated by sales from franchise stores and, to a lesser extent, company-owned store sales and fees from master franchise agreements and store openings.

We have grown by nearly 700 international stores since our 1998 recapitalization. While our stores are designed for the less capital-intensive delivery and carry-out channels, we empower our managers and franchisees to adapt the standard operating model, within certain parameters, to satisfy the local eating habits and consumer preferences of various regions outside the United States. Currently, most of our international stores are operated under master franchise agreements, and we plan to continue entering into master franchise agreements with qualified franchisees to expand our international operations in selected countries. We believe that our international franchise stores appeal to potential franchisees because of our well recognized brand name, the limited capital expenditures required to open our stores, and our system's favorable store economics. The following table shows our top ten international markets based on store counts as of June 15, 2003, which account for approximately 77% of our international stores:

Market	Number of stores
Mexico	464
United Kingdom	266
Australia	242
Canada	228
South Korea	204
Japan	160
Taiwan	103
India	81
Netherlands	58
France	54
Total	1,860

Our franchise program

As of June 15, 2003, our 4,283 domestic franchise stores were owned and operated by our 1,300 domestic franchisees. The success of our franchise formula, which enables franchisees to benefit from our brand name with a relatively low initial capital investment, has attracted a large number of highly motivated entrepreneurs as franchisees. As of June 15, 2003, each of our domestic franchisees operated an average of approximately three stores and had been in our franchise system for approximately eight years. At the same time, only four of our domestic franchisees operated more than 50 stores, including our largest domestic franchisee who operates 163 stores.

Domestic franchisees

We apply rigorous standards to prospective franchisees. We generally require prospective domestic franchisees to manage a store for at least one year before being granted a franchise. This enables us to observe the operational and financial performance of a potential franchisee prior to entering into a long-term contract. We also restrict the ability of domestic franchisees to become involved in other businesses, which focuses our franchisees' attention on operating their stores. We believe these standards are unique to the franchise industry and result in highly qualified and focused franchisees operating their stores.

Franchise agreements

We enter into franchise agreements with domestic franchisees under which the franchisee is granted the right to operate a store in a particular location for a term of ten years, with an option to renew for an additional ten years. We currently have a franchise contract renewal rate of over 99%. Under the current standard franchise agreement, we assign an exclusive area of primary responsibility to each franchise store. During the term of the franchise agreement, the franchisee is required to pay a 5.5% royalty fee on sales, subject, in limited instances, to lower rates based on area development agreements, sales initiatives and new store incentives. We have the contractual right, subject to state law, to terminate a franchise agreement for a variety of reasons, including, but not limited to, a franchisee's failure to make required payments when due or failure to adhere to specified company policies and standards.

Franchise store development

We provide domestic franchisees with assistance in selecting store sites and conforming the space to the physical specifications required for our stores. Each domestic franchisee selects the location and design for each store, subject to our approval, based on accessibility and visibility of the site and demographic factors, including population density and anticipated traffic levels. We provide design plans and sell fixtures and equipment for most of our franchise stores.

Franchisee financing

We have offered a limited internal financing program to franchisees who meet our standards for creditworthiness. As of June 15, 2003, loans outstanding to our domestic and international franchisees totaled \$16.4 million.

Franchise training and support

Training store managers and employees is a critical component of our success. We require all domestic franchisees to complete initial and ongoing training programs provided by us. In addition, under the standard domestic franchise agreement, domestic franchisees are required to implement training programs for their store employees. We assist our domestic and international franchisees by making training materials available to them for their use in training store managers and employees, including computer-based training materials, comprehensive operations manuals and franchise development classes. We also maintain communications with our franchisees online and through various newsletters.

Franchise operations

We enforce stringent standards over franchise operations to protect our brand name. All franchisees are required to operate their stores in compliance with written policies, standards and specifications, which include matters such as menu items, ingredients, materials, supplies, services, furnishings, decor and signs. Each franchisee has full discretion to determine the prices to be charged to customers. We also provide ongoing support to our franchisees, including training, marketing assistance and consultation to franchisees who experience financial or operational difficulties. We have established several advisory boards, through which franchisees contribute to developing system-wide initiatives.

International franchisees

The vast majority of our franchisees outside of the contiguous United States are master franchisees with franchise and distribution rights for entire regions or countries. In select regions or countries, we franchise directly to individual store operators. Our master franchise agreements generally grant the franchisee exclusive rights to develop or sub-franchise stores and the right to operate distribution centers in a particular geographic area for a term of ten to twenty years, with an option to renew for an additional ten year term. The agreements typically contain growth clauses requiring franchisees to open a minimum number of stores within a specified period. Prospective master franchisees are required to possess or have access to local market knowledge required to establish and develop Domino's Pizza stores. The local market knowledge focuses on the ability to identify and access targeted real estate sites along with

[Table of Contents](#)

expertise in local customs, culture, consumer behavior and laws. We also seek candidates that have access to sufficient capital to meet their growth and development plans. The master franchisee is generally required to pay an initial, one-time franchise fee based on the size of the market covered by the master franchise agreement, as well as an additional franchise fee upon the opening of each new store. In addition, the master franchisee is required to pay a continuing royalty fee as a percentage of sales, which varies among international markets.

Domino's image campaign

We have implemented a re-imaging campaign aimed at increasing store sales and market share through improved brand visibility. This campaign involves relocating selected stores, upgrading store interiors, adding new store signs to draw attention to the stores and providing more contemporary uniforms for employees. If a store is already in a desirable location, the store signs and carry-out areas are updated as needed. As of June 15, 2003, approximately 90% of our company-owned and approximately 76% of our domestic franchise stores had been re-imaged as part of this campaign. We plan to continue to re-image our domestic stores until each store meets our new image standards. We expect to be substantially complete in re-imaging the remaining company-owned stores by the end of 2003.

Marketing operations

We require domestic stores to contribute 3% of their sales to fund national marketing and advertising campaigns. In addition to the required national advertising contributions, we require domestic stores to contribute a minimum of 1% of their sales to local market level media campaigns. These funds are administered by Domino's National Advertising Fund Inc., a not-for-profit subsidiary. The funds remitted to Domino's National Advertising Fund Inc. are used primarily to purchase television advertising, but also support market research, field communications, commercial production, talent payments and other activities supporting the Domino's Pizza® brand. Domino's National Advertising Fund Inc. also provides cost-effective print materials to franchisees for use in local marketing that reinforce our national branding strategy. In addition to the national and co-operative advertising contributions, domestic stores spend an additional percentage of their sales on local store marketing, including targeted database mailings, saturation print mailings and community involvement through school and civic organizations.

By communicating a common brand message at the national, local market and store levels, we create and reinforce a powerful, consistent marketing message to consumers. This is evidenced by our successful marketing campaign with the slogan, "Get the Door. It's Domino's.®". Over the past five years, we estimate that domestic stores have invested approximately \$1.2 billion in system-wide advertising at the national, local and co-operative market levels.

Internationally, marketing efforts are primarily the responsibility of the franchisee in each local market. We assist international franchisees with their marketing efforts through marketing workshops and knowledge sharing of best practices.

Suppliers

We have maintained active relationships over the past 15 years with more than half of our major suppliers. Our suppliers are required to meet strict quality standards to ensure food safety. We

[Table of Contents](#)

review and evaluate our suppliers' quality assurance programs through on-site visits and store records to ensure compliance with our standards. We believe that the length and quality of our relationships with suppliers provide us with priority service and high-quality products at competitive prices.

We believe that two factors have been critical to maintaining long-lasting relationships and keeping our purchasing costs low. First, we are one of the largest domestic volume purchasers of pizza-related products such as flour, cheese, sauce and pizza boxes, allowing us to maximize leverage with our suppliers. Second, we use a combination of single-source and multi-source procurement strategies. Each supply category is evaluated along a number of criteria including value of purchasing leverage, consistency of quality and reliability of supply to determine the appropriate number of suppliers. We currently purchase our cheese from a single supplier pursuant to a requirements contract that provides for pricing based on volume. The agreement is terminable by us upon 90 days prior written notice. Our chicken, meat toppings and Crunchy Thin Crust dough products are currently sourced by another single supplier pursuant to requirements contracts that expire in 2005. We have the right to terminate these requirements contracts for quality failures and for uncured breaches. All of our other dough ingredients, boxes, and sauce are sourced from multiple suppliers. We have also entered into a multi-year beverage contract with Coca-Cola effective January 1, 2003 for the contiguous United States. The contract provides for Coca-Cola to be our exclusive beverage supplier and expires on the later of December 31, 2009 and such time as a minimum number of cases of Coca-Cola® products are purchased by us. We continually evaluate each supply category to determine the optimal sourcing strategy.

We have not experienced any significant shortages of supplies or any delays in receiving our food or beverage inventories, restaurant supplies or products. Prices charged to us by our suppliers are subject to fluctuation and we have historically been able to pass increased costs and savings on to our stores. We do not employ any forward-price commodity purchasing contracts and do not engage in commodity hedging.

Competition

The U.S. pizza delivery channel is highly competitive. We compete against regional and local companies as well as national chains, including Pizza Hut® and Papa John's®. We generally compete on the basis of product quality, location, delivery time, service and price. We also compete on a broader scale with quick service and other international, national, regional and local restaurants. In addition, the overall food service industry, and the QSR sector in particular, is intensely competitive with respect to product quality, price, service, convenience and concept. The industry is often affected by changes in consumer tastes, economic conditions, demographic trends and consumers' disposable income. We compete within the food service industry and the QSR sector not only for customers, but also for personnel, suitable real estate sites and qualified franchisees.

Government regulation

We are subject to various federal, state and local laws affecting the operation of our business, as are our franchisees, including various health, sanitation, fire and safety standards. Each store is subject to licensing and regulation by a number of governmental authorities, which include zoning, health, safety, sanitation, building and fire agencies in the jurisdiction in which the store is located. In connection with the re-imaging of our stores, we may be required to expend funds to meet certain federal, state and local regulations, including regulations requiring that remodeled or altered stores be accessible to persons with disabilities. Difficulties in obtaining, or the failure to obtain, required licenses or approvals could delay or prevent the opening of a new store in a particular area or cause an existing store to cease operations. Our distribution facilities are licensed and subject to similar regulations by federal, state and local health and fire codes.

We are also subject to the Fair Labor Standards Act and various other laws governing such matters as minimum wage requirements, overtime and other working conditions and citizenship requirements. A significant number of our food service personnel are paid at rates related to the federal minimum wage, and past increases in the minimum wage have increased our labor costs as would future increases.

We are subject to the rules and regulations of the Federal Trade Commission and various state laws regulating the offer and sale of franchises. The Federal Trade Commission and various state laws require that we furnish a franchise offering circular containing certain information to prospective franchisees and a number of states require registration of the franchise offering circular with state authorities. We are operating under exemptions from registration in several states based on the net worth of our operating subsidiary, Domino's Pizza LLC, and experience. Substantive state laws that regulate the franchisor-franchisee relationship presently exist in a substantial number of states, and bills have been introduced in Congress from time to time that would provide for federal regulation of the franchisor-franchisee relationship. The state laws often limit, among other things, the duration and scope of non-competition provisions, the ability of a franchisor to terminate or refuse to renew a franchise and the ability of a franchisor to designate sources of supply. We believe that our uniform franchise offering circular, together with any applicable state versions or supplements, and franchising procedures comply in all material respects with both the Federal Trade Commission guidelines and all applicable state laws regulating franchising in those states in which we have offered franchises.

Internationally, our franchise stores are subject to national and local laws and regulations that often are similar to those affecting our domestic stores, including laws and regulations concerning franchises, labor, health, sanitation and safety. Our international franchise stores are also often subject to tariffs and regulations on imported commodities and equipment, and laws regulating foreign investment. We believe that our international disclosure statements, franchise offering documents and franchising procedures comply with the laws of the foreign countries in which we have offered franchises.

Trademarks

We have many registered trademarks and service marks and believe that our Domino's® mark and Domino's Pizza® names and logos, in particular, have significant value and are important to our business. Our policy is to pursue registration of our trademarks and to vigorously oppose the infringement of any of our trademarks. We license the use of our registered marks to franchisees through franchise agreements.

Environmental matters

We are not aware of any federal, state or local environmental laws or regulations that will materially affect our earnings or competitive position, or result in material capital expenditures. However, we cannot predict the effect of possible future environmental legislation or regulations. During 2002, there were no material capital expenditures for environmental control facilities and no such material expenditures are anticipated in 2003.

Employees

As of June 15, 2003, we had approximately 13,600 employees, who we refer to as team members, in our company-owned stores, dough manufacturing and distribution centers, World Resource Center and zone offices. As franchisees are independent business owners, they and their employees are not included in our employee count. We consider our relationships with our employees and franchisees to be good. We estimate the total number of people who work in the Domino's Pizza system, including our employees, franchisees and the employees of franchisees, was approximately 145,000 as of June 15, 2003.

None of our employees are represented by a labor union or covered by a collective bargaining agreement other than statutorily mandated programs in European countries where we operate.

Driver safety

Our commitment to safety is embodied in our hiring, training and review process. Before an applicant is considered for hire as a delivery driver, motor vehicle records are reviewed to ensure a minimum two-year safe driving record. In addition, we require regular checks of driving records and proof of insurance for delivery drivers throughout their employment with us. Each Domino's driver, including drivers employed by franchisees, must complete our safe delivery training program. We have also implemented several company-wide safe driving incentive programs.

Our safety and security department oversees security matters for our stores. Regional security and safety directors oversee security measures at store locations, and assist local authorities in investigations of incidents involving our stores or personnel.

Community activities

We believe strongly in supporting the communities we serve. This is evidenced by our strong support of the Domino's Pizza Partners Foundation. The foundation is a separate, not-for-profit organization that was established in 1986 to assist Domino's Pizza team members in times of tragedy and special need. In 2002, our employees and franchisees contributed over \$700,000 to the foundation's efforts and, since its inception, the foundation has supplied millions of dollars to team members in need.

Additionally, in July 2001, we began a long-term national partnership with the Make-A-Wish Foundation. Through this alliance, we dedicated ourselves to deliver wishes to children with life threatening illnesses and assist the foundation with its benevolent volunteer efforts through heightened awareness and direct contributions.

Insurance

We maintain insurance coverage for general liability, owned and non-owned automobile liability, workers' compensation, employment practices liability, director's and officer's liability, fiduciary, property (including leaseholds and equipment, as well as business interruption), commercial crime, global risks and other coverages in form and with such limits as we believe are customary for a business of our size and type.

We are partially self-insured for workers' compensation, general liability and owned and non-owned automobile liabilities for certain periods prior to December 1998 and for periods after December 2001. We are generally responsible for up to \$1.0 million per occurrence under these retention programs for workers' compensation and general liability. We are also generally responsible for between \$500,000 and \$3.0 million per occurrence under these retention programs for owned and non-owned automobile liabilities. Pursuant to the terms of our standard franchise agreement, franchisees are also required to maintain minimum levels of insurance coverage at their expense and to have us named as an additional insured on their liability policies.

Research and development

We operate research and product development facilities at our World Resource Center in Ann Arbor, Michigan. Company-sponsored research and development costs, including Domino's National Advertising Fund Inc. activities, were approximately \$3.3 million, \$2.8 million and \$2.1 million in 2000, 2001, and 2002, respectively.

Customers

Our business is not dependent upon a single customer or small group of customers, including franchisees. No customer accounted for more than 10% of total consolidated revenues in 2000, 2001, 2002 or the two fiscal quarters ended June 15, 2003.

Legal proceedings

We are a party to lawsuits, revenue agent reviews by taxing authorities and legal proceedings, of which the majority involve workers' compensation, employment practices liability, general liability, automobile and franchisee claims arising in the ordinary course of business. We believe that these matters, individually and in the aggregate, will not have a significant adverse effect on our financial condition, and that established reserves adequately provide for the estimated resolution of such claims.

Properties

We lease approximately 190,000 square feet for our World Resource Center and distribution facility located in Ann Arbor, Michigan under an operating lease with Domino's Farms Office Park, L.L.C., a related party. The lease, as amended, expires in December 2013 and has two five-year renewal options.

We own four domestic company-owned stores and five distribution centers. We also own and lease 13 stores to domestic franchisees. All other domestic company-owned stores are leased by us, typically with five-year leases with one or two five-year renewal options. All other domestic distribution centers are leased by us, typically with leases ranging between five and fifteen years with one or two five-year renewal options. All other franchise stores are leased or owned directly by the respective franchisees.

All options vest immediately in the event of a change in control, as defined.

(2) Assumed annual appreciation rates are established by regulations and are not a forecast of future appreciation. The amounts shown are pre-tax and assume the options will be held throughout the entire ten-year term. If TISM's Class A-3 common stock does not increase in value after the grant date of the options, the options are valueless.

Employment contracts and termination of employment and change in control arrangements

Employment agreements

Mr. Brandon is employed as Chairman and Chief Executive Officer pursuant to a written employment agreement that terminates on December 31, 2008. Under the employment agreement, Mr. Brandon is entitled to receive an annual salary of \$600,000 and is eligible for an annual bonus based on achievement of performance objectives. If Mr. Brandon is terminated other than for cause or resigns voluntarily for good reason, he is entitled to receive continued salary for two years. In addition, each of Mr. Brandon and his wife is entitled to receive health insurance paid by us for the remainder of their lives. Upon consummation of the Transactions, Mr. Brandon's options to purchase shares of TISM's Class A-3 common stock became fully vested. On July 1, 2003 Mr. Brandon was granted additional options to purchase 440,000 shares of TISM's Class A-3 common stock at an exercise price of \$5.77 per share, which options will vest 20% per year, subject to acceleration in specified circumstances involving either a change of control of Domino's, as described below, or a termination of employment without cause or for good reason.

Each of the other named executive officers is employed pursuant to a written employment agreement, terminable at will by either party. Under each employment agreement, the named executive officer is entitled to receive an annual salary and an annual formula bonus based on achievement of company performance objectives and a discretionary bonus. If the employment of any of the other named executive officers is terminated other than for cause or resigns

[Table of Contents](#)

voluntarily for good reason, the affected named executive officer is entitled to continue to receive his salary for twelve months plus any earned but unpaid bonus.

If the employment of any of the named executive officers is terminated by reason of physical or mental disability, he is entitled to receive continued salary less the amount of disability income benefits received by him and continued coverage under group medical plans for 18 months. Each of the named executive officers is subject to certain non-competition, non-solicitation and confidentiality provisions.

Change of control provisions

The TISM stock option plan provides that upon a change in control of TISM, the options granted to the named executive officers shall become immediately vested, but exercisable only as to an additional 20% per year. After a change in control, however, should the named executive officer terminate his employment for good cause (as defined) or, if we terminate the named executive officer without good reason (as defined), all options shall become immediately exercisable.

Deferred compensation plan

Domino's Pizza has adopted a deferred compensation plan for the benefit of certain of its executive and managerial employees, including the named executive officers. Under the plan, eligible employees are permitted to defer up to 40% of their compensation. We do not match contributions. The amounts under the plan are required to be paid out upon termination of employment or a change in control of Domino's Pizza.

Senior executive deferred bonus plan

Prior to TISM's recapitalization in December 1998, Domino's Pizza entered into bonus agreements with Messrs. Silverman and Soignet. The bonus agreements, as amended, provided for bonus payments, a portion of which were payable in cash upon the closing of the recapitalization and a portion of which were deferred under the Senior Executive Deferred Bonus Plan. Domino's Pizza adopted the Senior Executive Deferred Bonus Plan, effective December 21, 1998, which established deferred bonus accounts for the benefit of the two executives identified above. Domino's Pizza must pay the deferred amounts in each account to the respective executive upon the earlier of (i) a change of control, (ii) a qualified public offering, (iii) the cancellation or forfeiture of stock options held by such executive, or (iv) ten years and 180 days after December 21, 1998. If the plan is terminated, deferred bonus accounts to the participating executives may be paid at that time or may be paid as if the plan had continued to be in effect.

Compensation committee interlocks and insider participation

We do not have a compensation committee. Compensation decisions for 2002 regarding our executive officers were made by the Board of Directors. Mr. Brandon participated in discussions with the Board of Directors concerning executive officer compensation.

Principal stockholders

All of Domino's issued and outstanding common stock is owned by TISM. As of June 15, 2003, the issued and outstanding capital stock of TISM consists of (i) 49,058,950 shares of Class A common stock, of which 9,641,874 shares are Class A-1 common stock, par value \$0.001 per share, 9,866,633 shares are Class A-2 common stock, par value \$0.001 per share, and 29,550,443 shares are Class A-3 common stock, par value \$0.001 per share and (ii) 5,421,699 shares of Class L common stock, par value \$0.001 per share. Only Class A-1 common stock shares have voting rights. The Class L common stock is the same as the Class A-1 common stock except that the Class L common stock is nonvoting and is entitled to a preference over the Class A common stock, with respect to any distribution by TISM to holders of its capital stock, equal to \$47.83 plus an amount which accrues from June 25, 2003 at a rate of 12% per annum, compounded quarterly. After payment of the preference amount, each share of Class A common stock and Class L common stock shares equally in all distributions by TISM to holders of its common stock. The Class L common stock is convertible upon an initial public offering, or certain other dispositions, of TISM into Class A common stock upon a vote of the Board of Directors of TISM.

The following table sets forth information with respect to ownership of TISM Class A-1 common stock as of July 1, 2003 (i) by each person known by us to own beneficially more than 5% of such class of securities, and (ii) by each director and named executive officer, and (iii) all directors and executive officers as a group. Unless otherwise noted, to our knowledge, each of such stockholders has sole voting and investment power as to the shares shown.

Certain relationships and related transactions

Stockholders agreement

In connection with our recapitalization in 1998, TISM, we, Thomas S. Monaghan, our former majority stockholder, and his affiliates, and all of the other equity holders of TISM (including the investment funds affiliated with Bain Capital, LLC, the other institutional investors and certain members of our management), entered into a stockholders agreement that, among other things, provides for the right of a minority stockholder to sell shares in a sale transaction entered into by a majority stockholder, commonly known as a tag-along right, the right of a majority stockholder to force a minority stockholder to sell shares upon the sale of a majority owner's interest, at the same price and on the same other terms and conditions as the majority owner, commonly known as a drag-along right, registration rights and related lock-up agreements, restrictions on the transfer of shares held by parties to the stockholders agreement together with rights of repurchase by us upon specified stockholder's termination of employment and certain preemptive rights for certain stockholders. Under the terms of the stockholders agreement, the approval of the investment funds affiliated with Bain Capital, LLC will be required for TISM, its subsidiaries, including us, and its stockholders to take various specified actions, including major corporate transactions such as a sale or initial public offering, acquisitions, divestitures, financings, declarations of dividends, recapitalizations and mergers, as well as other actions such as amending charters or by-laws, hiring and firing senior managers, setting management compensation, entering into partnerships or joint ventures or transactions with affiliates, establishing capital and operating budgets and business plans and entering into material contracts. Pursuant to the stockholders agreement and TISM's Articles of Incorporation, the investment funds affiliated with Bain Capital, LLC have the power to elect up to half of the Board of Directors of TISM. The stockholders agreement includes customary indemnification provisions in favor of any person who is or might be deemed to be a controlling person within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, who we refer to as controlling persons, and related parties against liabilities under the Securities Act incurred in connection with the registration of any of our debt or equity securities. These provisions provide indemnification against certain liabilities arising under the Securities Act and certain liabilities resulting from violations of other applicable laws in connection with any filing or other disclosure made by us under the securities laws relating to any such registrations. We have agreed to reimburse such persons for any legal or other expenses incurred in connection with investigating or defending any such liability, action or proceeding, except that neither we nor any of our subsidiaries will be required to indemnify any such person or reimburse related legal or other expenses if such loss or expense arises out of or is based on any untrue statement or omission made in reliance upon and in conformity with written information provided by such person.

Management agreement

In connection with our recapitalization in 1998, TISM and certain of its subsidiaries entered into a management agreement with Bain Capital Partners VI, L.P. pursuant to which it provides financial, management and operation consulting services. These services include advice in connection with the negotiation and consummation of agreements and other documents to provide us with financing from banks or other entities, as well as financial, managerial and operational advice in connection with our day-to-day operations, including advice with respect to the investment of funds and advice with respect to the development and implementation of strategies for improving our operating, marketing and financial performance. In exchange for such services, Bain Capital

[Table of Contents](#)

Partners VI, L.P. is entitled to an annual management fee of \$2.0 million plus reimbursement of the expenses of Bain Capital Partners VI, L.P. and its affiliates incurred in connection with the management agreement, our 1998 recapitalization or otherwise related to their investment in Domino's. In addition, in exchange for assisting us in negotiating the senior financing for any recapitalization, acquisition or other similar transaction, Bain Capital Partners VI, L.P. is entitled to a transaction fee equal to 1% of the gross purchase price, including assumed liabilities, for such transaction, irrespective of whether such senior financing is actually committed or drawn upon. The management agreement will continue in effect as long as Bain Capital Partners VI, L.P. continues to provide such services. The management agreement, however, may be terminated (i) by mutual consent of the parties, (ii) by either party following a material breach of the management agreement by the other party and the failure of such other party to cure the breach within thirty days of written notice of such breach or (iii) by Bain Capital Partners VI, L.P. upon sixty days written notice. The management agreement includes customary indemnification provisions in favor of Bain Capital Partners VI, L.P. and its affiliates and related parties. Messrs. Balson and Nunnally are managing directors of Bain Capital, LLC, an affiliate of Bain Capital Partners VI, L.P. The management agreement indemnification provision provides that we will indemnify each of the above-referenced entities and persons from and against all liabilities and expenses incurred in connection with our 1998 recapitalization, the management agreement or the transactions contemplated thereby, except for any such liability or expense arising on account of such indemnified person's willful misconduct.

Financing arrangements

One of our directors, Mr. Robert Ruggiero, Jr., is an executive officer of the ultimate general partners of J.P. Morgan Partners (BHCA), L.P., and Sixty Wall Street Fund, L.P. and an executive officer of JPMP Capital, LLC, each of whom is a TISM stockholder (collectively, the "JPMorgan Stockholders"). Affiliates of the JPMorgan Stockholders provide services to us from time to time on terms which we believe are no less favorable than obtainable from an unrelated third party. During 2002 and in connection with the consummation of our previous senior secured credit facility, these affiliates provided financing services for which they were paid approximately \$2.3 million in financing fees. These affiliates, in their respective capacities, acted as joint lead arranger, administrative agent and a lender under our new senior secured credit facility, for which they received customary fees, and also have received or will receive commitment and letters of credit fees for their ratable portion of our previous senior secured credit facility and our new senior secured credit facility. In addition, J.P. Morgan Securities Inc., an affiliate of the JPMorgan Stockholders served as the book-running manager of the offering of the outstanding notes and as dealer manager and solicitation agent for the 2009 Notes Tender Offer and related consent solicitation, for which it received customary fees. A separate affiliate was also counterparty to our \$70.0 million interest rate collar agreement which expired in June 2003.

Shareholder indemnification of legal settlement

In 2000, we settled a lawsuit in which we paid the plaintiffs \$5.0 million for a full release of all related claims. Thomas S. Monaghan, a principal stockholder, agreed to indemnify TISM for 80% of all related legal settlements. Mr. Monaghan paid \$4.0 million to us in 2000 and \$521,000 in 2002 in accordance with this indemnification agreement. Mr. Monaghan has no further obligations under this indemnification agreement.

Lease agreement

In connection with our recapitalization in 1998, Domino's Pizza LLC entered into a new lease agreement with Domino's Farms Office Park, L.L.C. with respect to its World Resource Center

[Table of Contents](#)

and Michigan distribution center. The lease provided for lease payments of \$4.3 million in the first year, increasing annually to approximately \$4.5 million in the fifth year. Thomas S. Monaghan, a TISM shareholder and former director of TISM and Domino's, is the ultimate general partner of Domino's Farms Office Park, L.L.C.

In August of 2002, we amended the aforementioned lease agreement with Domino's Farms Office Park, L.L.C. The new lease provides for no lease payments in the first year, lease payments of approximately \$5.0 million in the second year, increasing annually to approximately \$6.2 million in the tenth year. We believe that this lease, as amended, is on terms no less favorable than are obtainable from unrelated third parties.

Contingent note payable

TISM is contingently liable to pay Thomas S. Monaghan and his wife an amount not to exceed approximately \$15 million under a note payable, plus 8% interest per annum beginning in 2003, in the event the majority stockholders of TISM sell a certain percentage of their TISM common stock to an unaffiliated party. TISM is the sole obligor under the contingent note.

Consulting agreement with Thomas S. Monaghan

In connection with our 1998 recapitalization, Mr. Monaghan entered into a consulting agreement that has a term of ten years, is terminable by either us or Mr. Monaghan upon thirty days prior written notice, and may be extended or renewed by written agreement. Under the consulting agreement, Mr. Monaghan may be required to make himself available to Domino's Pizza on a limited basis. Mr. Monaghan received a retainer of \$1.0 million for the first twelve months of the agreement and was entitled to receive \$500,000 per year for the remainder of the term of the agreement. The agreement provided that upon termination for any reason, we would pay Mr. Monaghan a lump sum payment equal to the full amount of the retainer for the remainder of the term. During 2002, we terminated the consulting agreement in exchange for a payment of approximately \$2.9 million. As a consultant, Mr. Monaghan was entitled to reimbursement of travel and other expenses incurred in performance of his duties but is not entitled to participate in any of our employee benefit plans or other benefits or conditions of employment available to our employees.

Sale of company-owned stores

In October 2000 we sold 32 of our company-owned stores in Detroit, Michigan, Nashville, Tennessee and Scottsville, Kentucky to a corporation owned by Patrick Kelly, one of our former executive officers. Mr. Kelly is operating these stores as franchise stores. In addition, Mr. Kelly's corporation assumed obligations relating to three new store openings in Nashville, Tennessee. In exchange for these stores, Mr. Kelly's corporation paid us \$982,000 in cash and delivered a secured promissory note in the amount of approximately \$4.4 million. The note bears interest at an annual rate of 10% and is secured by a lien on each of these stores. In addition, Mr. Kelly guaranteed the obligations of his corporation under the note. The repayment schedule on the note is based on a fifteen year amortization schedule but the entire principal amount of the note is due in January 2005. In connection with this transaction, Mr. Kelly's corporation also agreed to purchase all food and supplies for these stores from our dough manufacturing and distribution centers for a minimum of five years. If Mr. Kelly's corporation ceases purchasing food and supplies from us prior to October 2003, we will be entitled to \$315,000. We also agreed to finance up to an additional \$750,000 in connection with the construction of four new

[Table of Contents](#)

stores, which amount will, if borrowed, be added to the principal balance of the outstanding note.

In March 2002 we sold nine of our company-owned stores in Ann Arbor and Ypsilanti, Michigan to a corporation controlled by Hoyt D. Jones III, one of our former executive officers. Mr. Jones is operating these stores as franchise stores. In exchange for these stores, Mr. Jones' corporation paid us \$200,000 in cash and delivered a secured promissory note in the amount of \$450,000. The note bears interest at an annual rate of 12% and is secured by a lien on each of these stores. In addition, Mr. Jones guaranteed the obligations of his corporation under the note. The note is being repaid in 11 equal monthly payments of principal and interest commencing in June 2002. In connection with this transaction, Mr. Jones' corporation also agreed to purchase all food and supplies for these stores from our dough manufacturing and distribution centers for a minimum of eight years.

Description of senior secured credit facility

New senior secured credit facility

As part of the Transactions, we amended and restated our previous senior secured credit facility, which amendment and restatement we refer to as our new senior secured credit facility. Domino's, Inc. is the only borrower under our new senior secured credit facility. We entered into an agreement with various banks and financial institutions, providing for our new senior secured credit facility, which consists of:

- a term loan facility of \$610.0 million in term loans; and
- a revolving credit facility of up to \$125.0 million in revolving credit loans, letters of credit and swingline loans.

This new senior secured credit facility replaced our previous senior secured credit facility that was entered into in on July 29, 2002. As of June 15, 2003, we had approximately \$362.3 million of outstanding indebtedness under our previous senior secured credit facility.

We are obligated with respect to all amounts owing under our new senior secured credit facility. In addition, our new senior secured credit facility is:

- guaranteed by TISM, Inc., our parent corporation;
- jointly and severally guaranteed by each of our material domestic subsidiaries (other than Domino's National Advertising Fund Inc., a special purpose advertising affiliate);
- guaranteed by one of our international subsidiaries;
- secured by a first priority lien on specified parcels of our and most of our material domestic subsidiaries' real property and substantially all of our and most of our material domestic subsidiaries' tangible and intangible personal property; and
- secured by a pledge of all of our capital stock, the capital stock of most of our material domestic subsidiaries and 65% of the capital stock of most of our foreign subsidiaries.

Our future material domestic subsidiaries will guarantee the new senior secured credit facility and secure that guarantee with specified real property and substantially all of their tangible and intangible personal property.

Our new senior secured credit facility requires us to meet financial tests, including, without limitation, a maximum leverage ratio, maximum senior leverage ratio and minimum interest coverage ratio. In addition, our new senior secured credit facility contains negative covenants limiting, among other things, additional liens and indebtedness, capital expenditures, transactions with affiliates, mergers and consolidations, liquidations and dissolutions, sales of assets, dividends, investments and joint ventures, loans and advances, prepayments and modifications of debt instruments, and other matters customarily restricted in such agreements. Our new senior secured credit facility contains customary events of default, including payment defaults, breaches of representations and warranties, covenant defaults, events of bankruptcy and insolvency, failure of any guaranty or security document supporting the new senior secured credit facility to be in full force and effect, and a change of control of our business.

The term loan facility matures in quarterly installments from June 25, 2003, the closing date of our new senior secured credit facility, through the seventh anniversary of the closing date

[Table of Contents](#)

(provided that for the fiscal year 2010, only two installments will be required to be paid), and the revolving credit facility will terminate on the sixth anniversary of the closing date.

Our borrowings under the new senior secured credit facility bear interest at a floating rate and may be maintained as base rate loans or as Eurodollar loans. Base rate loans bear interest at the base rate plus the applicable base rate margin, as defined in the new senior secured credit facility. Base rate is defined as the higher of (1) the rate of interest announced publicly by JPMorgan Chase Bank in New York, New York, from time to time, as JPMorgan Chase Bank's base rate, or (2) the Federal Reserve reported overnight funds rate plus 1/2 of 1%. Eurodollar loans bear interest at the adjusted Eurodollar rate, as described in the new senior secured credit facility, plus the applicable Eurodollar rate margin.

The applicable margins with respect to the term loan facility and the revolving credit facility will vary from time to time in accordance with the terms thereof and agreed upon pricing grids based on our leverage ratio. The initial applicable margin with respect to the term loan facility and the revolving credit facility is:

- 2.00% in the case of base rate loans; and
- 3.00% in the case of Eurodollar loans.

Had our new senior secured credit facility been in effect at June 15, 2003, the interest rate on the term loan facility would have been 4.29% and the commitment fee on the undrawn revolving credit facility would have been 0.50%.

With respect to letters of credit, which may be issued as a part of the revolving loan commitment, the revolver lenders will be entitled to receive a commission equal to the product of the applicable Eurodollar rate margin then in effect and the daily amount available to be drawn under such letters of credit. In addition, the issuing bank will be entitled to receive a fronting fee of 0.125% per annum plus its other standard and customary processing charges. Such commission and fronting fees will be payable quarterly in arrears based on the aggregate undrawn amount of all letters of credit outstanding from time to time under the revolver.

The new senior secured credit facility prescribes that specified amounts must be used to prepay the term loan facility and reduce commitments under the revolving credit facility, including:

- 100% of the net proceeds of any issuance of indebtedness after the closing date by us, our parent company and all of its other subsidiaries, subject to exceptions for permitted debt;
- 100% of the net proceeds of any sale or other disposition by us, our parent company and all of its other subsidiaries of any assets, subject to exceptions if the aggregate amount of such net proceeds does not exceed a certain amount or such proceeds are reinvested in other business-related assets;
- 75% of excess cash flow, as defined in the new senior secured credit facility, for any fiscal year, provided, that the foregoing percentage may be reduced to either 50% or 25% upon satisfaction of specified leverage ratio tests;
- 100% of the net proceeds of casualty insurance, condemnation awards or other recoveries, subject to exceptions;
- 50% of the net proceeds from the issuance of common equity or "qualified" preferred equity by, and capital contributions to, TISM, subject to exceptions; and

Table of Contents

- 100% of the net proceeds from (x) the issuance of redeemable or other “non-qualified” preferred equity by TISM and (y) the issuance of equity by, and capital contributions to, subsidiaries of TISM, subject to exceptions.

Voluntary prepayments of our new senior secured credit facility are permitted at any time.

In general, the mandatory prepayments described above will be applied first to prepay the term loan facility and second to reduce commitments under the revolving credit facility. If the amount of revolving loans under the revolving credit facility then outstanding exceeds the commitments as so reduced, then that excess amount must be prepaid. Prepayments of the term loan facility, optional or mandatory, will be applied pro rata to the scheduled installments of the term loan facility; provided, however, optional prepayments and certain mandatory prepayments will be applied first to scheduled payments due and payable during the 12 months immediately following the date of such prepayments and thereafter on a pro rata basis as provided above.

This summary of the new senior secured credit facility may not contain all of the information that is important to you and is subject to, and qualified in its entirety by reference to, all of the provisions of the credit agreement and related documents, copies of which are filed as exhibits to the registration statement of which this prospectus is a part.

Description of Notes

You can find the definitions of certain terms used in this description under the subheading “Certain definitions.” In this description, the word “Domino’s” refers only to Domino’s, Inc. and not to any of its subsidiaries. For purposes of this summary, the term “Notes” refers to both the outstanding notes and the exchange notes.

The outstanding notes were issued, and the exchange notes will be issued, under an Indenture among Domino’s, the Guarantors and BNY Midwest Trust Company, as trustee. The terms of the Notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”).

The following description is a summary of the material provisions of the indenture. It does not restate the indenture in its entirety. We urge you to read the indenture because it, and not this description, defines your rights as holders of these Notes. Copies of the indenture are available as set forth below under the subheading “Additional information.” Certain defined terms used in this description but not defined below under “—Certain definitions” have the meanings assigned to them in the indenture.

Brief description of the Notes and the Subsidiary Guarantees

The Notes

These Notes:

- are general unsecured obligations of Domino’s;
- are subordinated in right of payment to all existing and future Senior Debt of Domino’s; and
- are senior in right of payment to any future junior subordinated Indebtedness of Domino’s.

The Subsidiary Guarantees

These Notes are guaranteed by each domestic subsidiary of Domino’s on the Issue Date (other than Domino’s National Advertising Fund Inc.) and by Domino’s Pizza NS Co., a Canadian subsidiary of Domino’s.

The Subsidiary Guarantees of these Notes:

- are general unsecured obligations of each Guarantor;
- are subordinated in right of payment to all existing and future Guarantor Senior Debt of each Guarantor; and
- are senior in right of payment to any future junior subordinated Indebtedness of each Guarantor.

After giving effect to the Transactions, as of June 15, 2003, Domino’s and the Guarantors would have had total Senior Debt and Guarantor Senior Debt of approximately \$610.5 million, and an additional \$125.0 million would have been available for borrowings under the revolving credit portion of the Senior Credit Facilities (excluding outstanding letters of credit of \$21.8 million). As indicated above and as discussed in detail below under the subheading “Subordination,”

[Table of Contents](#)

payments on the Notes and under the Subsidiary Guarantees will be subordinated to the prior payment in full in cash or Cash Equivalents (other than cash equivalents of the type referred to in clauses (3) and (4) of the definition of Cash Equivalents) of all Senior Debt and Guarantor Senior Debt. The indenture will permit us and the Guarantors to incur additional Senior Debt and Guarantor Senior Debt.

As of the date of the indenture, all of our subsidiaries will be "Restricted Subsidiaries." However, under the circumstances described below under the subheading "Certain covenants—Designation of Restricted and Unrestricted Subsidiaries," we will be permitted to designate certain of our subsidiaries as "Unrestricted Subsidiaries." Unrestricted Subsidiaries will not be subject to the restrictive covenants in the indenture. Unrestricted Subsidiaries will not guarantee these Notes.

Not all of our "Restricted Subsidiaries" will guarantee these Notes; Domino's National Advertising Fund Inc., our Foreign Subsidiaries (other than Domino's Pizza NS Co.) and any Securitization Entity will not be Guarantors. In the event of a bankruptcy, liquidation or reorganization of any non-guarantor subsidiaries, the non-guarantor subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to us. Our non-guarantor subsidiaries are not significant.

Principal, maturity and interest

The indenture provides that Domino's may issue Notes with an aggregate principal amount of up to an unlimited amount, of which \$403.0 million was issued in the offering of the outstanding notes. The Notes and any additional Notes subsequently issued under the indenture will be treated as a single class for all purposes under the indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. Domino's will issue Notes in denominations of \$1,000 and integral multiples of \$1,000. The Notes will mature on July 1, 2011.

Interest on these Notes will accrue at the rate of 8 ¹/₄% per annum and will be payable semi-annually in arrears on January 1 and July 1, commencing on January 1, 2004.

Domino's will make each interest payment to the Holders of record of these Notes on the immediately preceding December 15 and June 15.

Interest on these Notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Methods of receiving payments

If a Holder has given wire transfer instructions to Domino's, Domino's will make all principal, premium and interest and additional interest, if any, payments on those Notes in accordance with those instructions. All other payments on these Notes will be made at the office or agency of the Paying Agent and Registrar within the City and State of New York unless Domino's elects to make interest payments by check mailed to the Holders at their address set forth in the register of Holders.

Paying agent and registrar

The Trustee will initially act as Paying Agent and Registrar. Domino's may change the Paying Agent or Registrar without prior notice to the Holders of the Notes, and Domino's or any of its Subsidiaries may act as Paying Agent or Registrar.

Transfer and exchange

A Holder may transfer or exchange Notes in accordance with the indenture. The Registrar and the trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and Domino's may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. Domino's is not required to transfer or exchange any Note selected for redemption. Also, Domino's is not required to transfer or exchange any Note for a period of 15 days before the mailing of a notice of redemption.

The registered Holder of a Note will be treated as the owner of it for all purposes. Only registered Holders will have rights under the indenture.

Subsidiary Guarantees

The Guarantors will jointly and severally guarantee, on a senior subordinated basis, the obligations of Domino's under the Notes. Each Subsidiary Guarantee will be subordinated to the prior payment in full in cash or Cash Equivalents (other than cash equivalents of the type referred to in clauses (3) and (4) of the definition of Cash Equivalents and foreign currencies) of all Guarantor Senior Debt of that Guarantor. The subordination provisions applicable to the Subsidiary Guarantees will be substantially similar to the subordination provisions applicable to the Notes as set forth below under "Subordination." The obligations of each Guarantor under its Subsidiary Guarantee will be limited as necessary to seek to prevent that Subsidiary Guarantee from constituting (after giving effect to all Guarantor Senior Debt of the respective Guarantor) a fraudulent conveyance under applicable law. See "Risk factors—If the issuance of the Notes or the subsidiary guarantees is deemed to be a fraudulent conveyance, the Notes and the subsidiary guarantees may be subordinated to all of our other debts and those of our subsidiaries."

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than Domino's or another Guarantor, unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

(a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under the Indenture and its Subsidiary Guarantee pursuant to a supplemental indenture satisfactory to the trustee; or

(b) the Net Proceeds of such sale or other disposition are applied in accordance with the applicable provisions of the indenture.

The Subsidiary Guarantee of a Guarantor will be released:

(1) in connection with any sale or other disposition of all or substantially all of the assets of that Guarantor (including by way of merger or consolidation), if the disposition is to

[Table of Contents](#)

Domino's or another Guarantor or if Domino's applies the Net Proceeds of that sale or other disposition in accordance with the applicable provisions of the indenture;

(2) in connection with any sale of all of the capital stock of a Guarantor, if Domino's applies the Net Proceeds of that sale in accordance with the applicable provisions of the Indenture;

(3) if Domino's designates any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary; or

(4) upon the release or discharge of all guarantees of such Guarantor, and all pledges of property or assets of such Guarantor securing, all other Indebtedness of Domino's and the other Guarantors.

See "Repurchase at the option of holders—Asset Sales."

Subordination

The payment of principal, premium, interest, additional interest, if any, and any other Obligations on, or relating to, these Notes will be subordinated to the prior payment in full in cash or Cash Equivalents (other than cash equivalents of the type referred to in clauses (3) and (4) of the definition of Cash Equivalents and foreign currencies) of all Senior Debt of Domino's.

The holders of Senior Debt will be entitled to receive payment in full in cash or Cash Equivalents (other than cash equivalents of the type referred to in clauses (3) and (4) of the definition of Cash Equivalents and foreign currencies) of all Obligations due in respect of Senior Debt (including interest after the commencement of any bankruptcy or other like proceeding at the rate specified in the applicable Senior Debt, whether or not such interest is an allowable claim) before the Holders of Notes will be entitled to receive any payment or distribution of any kind or character with respect to any Obligations on, or relating to, the Notes (except that Holders of Notes may receive and retain Permitted Junior Securities and payments made from the trust described under "Legal Defeasance and Covenant Defeasance" so long as the deposit of amounts therein satisfied the relevant conditions specified in the indenture at the time of such deposit), in the event of any distribution to creditors of Domino's:

(1) in a liquidation or dissolution of Domino's;

(2) in a bankruptcy, reorganization, insolvency, receivership or similar proceeding relating to Domino's or its property;

(3) in an assignment for the benefit of creditors; or

(4) in any marshalling of the assets and liabilities of Domino's.

Domino's also may not make any payment or distribution of any kind or character with respect to any Obligations on, or with respect to, the Notes or acquire any of the Notes for cash or property or otherwise (except in Permitted Junior Securities or from the trust described under "Legal Defeasance and Covenant Defeasance") if:

(1) a payment default on Designated Senior Debt occurs and is continuing; or

(2) any other default occurs and is continuing on Designated Senior Debt that permits holders of such Designated Senior Debt to accelerate its maturity and the trustee receives a notice of such default (a "Payment Blockage Notice") from the holders or the Representative of any Designated Senior Debt.

[Table of Contents](#)

Payments on the Notes may and shall be resumed:

- (1) in the case of a payment default, upon the date on which such default is cured or waived; and
- (2) in case of a nonpayment default, the earlier of the date on which all nonpayment defaults are cured or waived (so long as no other event of default exists), 179 days after the date the applicable Payment Blockage Notice is received or the Trustee receives notice from the Representative for such Designated Senior Debt rescinding the Payment Blockage Notice, unless the maturity of any Designated Senior Debt has been accelerated.

No new Payment Blockage Notice may be delivered unless and until 360 days have elapsed since the effectiveness of the immediately prior Payment Blockage Notice.

No nonpayment default that existed or was continuing on the date of delivery of any Payment Blockage Notice to the trustee shall be, or be made, the basis for a subsequent Payment Blockage Notice unless such default shall have been cured or waived for a period of not less than 90 consecutive days (it being acknowledged that any action after the date of delivery of such initial Payment Blockage Notice, or any breach of any financial covenants for a period commencing after the date of delivery of such initial Payment Blockage Notice, that, in either case, would give rise to a default pursuant to any provisions under which a default previously existed or was continuing shall constitute a new default for this purpose).

Domino's must promptly notify holders of Senior Debt or their Representative if payment of the Notes is accelerated because of an Event of Default; *provided* that any failure to give such notice shall have no effect whatsoever on the subordination provisions described herein.

As a result of the subordination provisions described above, in the event of a bankruptcy, liquidation or reorganization of Domino's, Holders of these Notes may recover less ratably than creditors of Domino's who are holders of Senior Debt. See "Risk factors—Your right to receive payments on the Notes is junior to our existing indebtedness and the existing senior indebtedness of our subsidiary guarantors and all of our and their future senior indebtedness."

Optional redemption

Before July 1, 2006, Domino's may on any one or more occasions redeem up to 40% of the aggregate principal amount of Notes issued under the indenture at a redemption price of 108.25% of the principal amount of the Notes, plus accrued and unpaid interest and additional interest thereon, if any, to the redemption date, with the net cash proceeds of one or more Equity Offerings; *provided* that:

- (1) at least 60% of the aggregate principal amount of Notes issued under the indenture remains outstanding immediately after the occurrence of such redemption (excluding Notes held by the Company and its Subsidiaries); and
- (2) the redemption must occur within 120 days of the date of the closing of the Equity Offering.

Before July 1, 2007, Domino's may also redeem these Notes, as a whole but not in part, upon the occurrence of a Change of Control, upon not less than 30 nor more than 60 days' prior notice (but in no event may any such redemption occur more than 90 days after the occurrence of such

[Table of Contents](#)

Change of Control), at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest and additional interest thereon, if any, to, the date of redemption (the "Redemption Date").

Except pursuant to the preceding paragraphs, the Notes will not be redeemable at the option of Domino's prior to July 1, 2007.

On or after July 1, 2007, Domino's may redeem all or a part of these Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest and additional interest thereon, if any, to the applicable redemption date, if redeemed during the twelve-month period beginning on July 1 of the years indicated below:

Year	Percentage
2007	104.125%
2008	102.063%
2009 and thereafter	100.000%

Mandatory redemption

Domino's is not required to make mandatory redemption or sinking fund payments with respect to the Notes.

Repurchase at the option of holders

Change of Control

If a Change of Control occurs, each Holder of Notes will have the right to require Domino's to repurchase all or any part (equal to \$1,000 or an integral multiple of \$1,000) of that Holder's Notes pursuant to the Change of Control Offer. In the Change of Control Offer, Domino's will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of Notes repurchased plus accrued and unpaid interest and additional interest thereon, if any, to the date of purchase (the "Change of Control Payment"). Within 30 days following any Change of Control, Domino's will mail a notice to each Holder and the trustee describing the transaction or transactions that constitute the Change of Control and offering to repurchase Notes on the purchase date specified in such notice (which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed, other than as required by law (the "Change of Control Payment Date")), pursuant to the procedures required by the Indenture and described in such notice. Domino's will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the indenture, Domino's will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of such conflict. Domino's will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

Table of Contents

Prior to the mailing of the notice referred to above, but in any event within 30 days following any Change of Control, Domino's covenants to:

(1) repay in full all Obligations, and terminate all commitments, under the Senior Credit Facilities and all other Senior Debt the terms of which require repayment upon a Change of Control or offer to repay in full all Obligations, and terminate all commitments, under the Senior Credit Facilities and all other such Senior Debt and to repay the Indebtedness owed to (and terminate the commitments of) each lender which has accepted such offer; or

(2) obtain the requisite consents under the Senior Credit Facilities and all other such Senior Debt to permit the repurchase of the Notes as provided below.

Domino's shall first comply with the covenant in the immediately preceding sentence before it shall be required to repurchase Notes or send the notice pursuant to the provisions described herein. The failure of Domino's to comply with the covenant described in the immediately preceding paragraph (and any failure to send the notice referred to in the second preceding paragraph as a result of a prohibition described in the first sentence of this paragraph) may (with notice and lapse of time) constitute an Event of Default described in clause (3) but shall not constitute an Event of Default described in clause (2), under "Events of Default" below.

On the Change of Control Payment Date, Domino's will, to the extent lawful:

(1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes so tendered; and

(3) deliver or cause to be delivered to the trustee the Notes so accepted together with an Officers' Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by Domino's.

The Paying Agent will promptly mail to each Holder of Notes so tendered the Change of Control Payment for such Notes, and the trustee will promptly authenticate and deliver (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount of \$1,000 or an integral multiple of \$1,000.

The provisions described above that require Domino's to make a Change of Control Offer following a Change of Control will be applicable regardless of whether or not any other provisions of the indenture are applicable. Except as described above with respect to a Change of Control, the indenture does not contain provisions that permit the Holders of the Notes to require that Domino's repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

Domino's outstanding Senior Debt currently prohibits Domino's from purchasing the Notes (subject to limited exceptions), and also provides that certain change of control events with respect to Domino's would constitute a default under the agreements governing the Senior Debt. Any future credit agreements or other agreements relating to Senior Debt to which Domino's becomes a party may contain similar restrictions and provisions. In the event a Change of Control occurs at a time when Domino's is prohibited from purchasing Notes, Domino's could seek the consent of its senior lenders to the purchase of Notes or could attempt to refinance the

[Table of Contents](#)

borrowings that contain such prohibition. If Domino's does not obtain such a consent or repay such borrowings, Domino's will remain prohibited from purchasing Notes. In such case, Domino's failure to purchase tendered Notes would constitute an Event of Default under the Indenture which would, in turn, constitute a default under such Senior Debt. In such circumstances, the subordination provisions in the indenture would likely restrict payments to the Holders of Notes.

Domino's will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by Domino's and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of "all or substantially all" of the assets of Domino's and its Restricted Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of Notes to require Domino's to repurchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Company and its Restricted Subsidiaries taken as a whole to another Person or group may be uncertain.

If a Change of Control does occur, Domino's may not have the financial resources at the time of such Change of Control to make any required repurchases of the Notes.

Asset Sales

Domino's will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) Domino's (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets or Equity Interests issued or sold or otherwise disposed of;
- (2) in the event of an Asset Sale involving assets having a fair market value in excess of \$5.0 million (or in excess of \$10.0 million in the case of the sale of Domino's stores), such fair market value is determined by the Board of Directors of Domino's and evidenced by a resolution of the Board of Directors set forth in an Officers' Certificate delivered to the Trustee; and
- (3) at least 75% of the consideration therefor received by Domino's or such Restricted Subsidiary is in the form of cash or Cash Equivalents. For purposes of this provision, each of the following shall be deemed to be cash:
 - (a) any liabilities, as shown on Domino's or such Restricted Subsidiary's most recent balance sheet, of Domino's or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary novation agreement that releases Domino's or such Restricted Subsidiary from further liability;

[Table of Contents](#)

(b) any securities, notes or other obligations received by Domino's or any such Restricted Subsidiary from such transferee that are contemporaneously, subject to ordinary settlement periods, converted by Domino's or such Restricted Subsidiary into cash (to the extent of the cash received in that conversion); and

(c) any Designated Noncash Consideration received by Domino's or any of its Restricted Subsidiaries in such Asset Sale having an aggregate fair market value, taken together with all other Designated Noncash Consideration received since the date of the Indenture pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of \$40 million and 10% of Total Assets at the time of the receipt of such Designated Noncash Consideration (with the fair market value of each item of Designated Noncash Consideration being measured at the time received and without giving effect to subsequent changes in value).

Within 365 days after the receipt of any Net Proceeds from an Asset Sale, Domino's may apply such Net Proceeds at its option:

- (1) to repay Senior Debt or Guarantor Senior Debt (and to correspondingly reduce commitments if the Senior Debt or Guarantor Senior Debt repaid is revolving credit borrowings);
- (2) to acquire all or substantially all of the assets of, or a majority of the Voting Stock of, another Permitted Business;
- (3) to make a capital expenditure; and/or
- (4) to acquire assets that are used or useable in a Permitted Business.

Pending the final application of any such Net Proceeds, Domino's may temporarily reduce revolving credit borrowings or otherwise invest such Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in the preceding paragraph will constitute Excess Proceeds. When the aggregate amount of Excess Proceeds exceeds \$15.0 million, Domino's will make an Asset Sale Offer to all Holders of Notes and all holders of other Indebtedness that is pari passu with the Notes containing provisions similar to those set forth in the Indenture with respect to offers to purchase or redeem with the proceeds of sales of assets to purchase the maximum principal amount of Notes and such other pari passu Indebtedness that may be purchased out of the Excess Proceeds. The offer price in any Asset Sale Offer will be equal to 100% of the principal amount plus accrued and unpaid interest and additional interest, if any, to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and such other pari passu Indebtedness tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the trustee shall select the Notes and such other pari passu Indebtedness to be purchased on a pro rata basis. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero.

Selection and notice

If less than all of the Notes are to be redeemed at any time, the trustee will select Notes for redemption as follows:

- (1) if the Notes are listed, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or

[Table of Contents](#)

(2) if the Notes are not so listed, on a pro rata basis, by lot or by such method as the trustee shall deem fair and appropriate.

No Notes of \$1,000 or less shall be redeemed in part. Notices of redemption shall be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the indenture. Notices of redemption may not be conditional.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount of the Note to be redeemed. A new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the Holder of the Note upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

Certain covenants

Restricted Payments

Domino's will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of Domino's Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving Domino's or any of its Restricted Subsidiaries) or to the direct or indirect holders of Domino's Equity Interests in their capacity as such (other than dividends or distributions payable in Equity Interests (other than Disqualified Stock) of Domino's);

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving Domino's) any Equity Interests of Domino's or any direct or indirect parent of Domino's (other than any such Equity Interests owned by Domino's or any Restricted Subsidiary of Domino's);

(3) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Indebtedness that is subordinated to the Notes or the Subsidiary Guarantees, except a payment of interest or principal at the Stated Maturity of the Notes; or

(4) make any Restricted Investment (all such payments and other actions set forth in these clauses (1) through (4) being collectively referred to as "Restricted Payments"),

unless, at the time of and after giving effect to such Restricted Payment:

(1) no Default or Event of Default shall have occurred and be continuing or would occur as a consequence of such Restricted Payment; and

(2) Domino's would, at the time of such Restricted Payment and after giving pro forma effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption "— Incurrence of Indebtedness and issuance of preferred stock;" and

Table of Contents

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by Domino's and its Restricted Subsidiaries after December 29, 2002 (excluding Restricted Payments permitted by clauses (3), (4), (6), (7), (8), (9) and (11) of the next succeeding paragraph), is less than the sum, without duplication, of

(a) 50% of the Consolidated Net Income of Domino's for the period (taken as one accounting period) from the beginning of the first fiscal quarter commencing after December 29, 2002 to the end of Domino's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit), plus

(b) 100% of the aggregate net cash proceeds received by Domino's (other than from a Restricted Subsidiary) since December 29, 2002 as a contribution to its common equity capital or from the issue or sale of Equity Interests of Domino's (other than Disqualified Stock) or from the issue or sale of convertible or exchangeable Disqualified Stock or convertible or exchangeable debt securities of Domino's that have been converted into or exchanged for such Equity Interests (other than Equity Interests (or Disqualified Stock or debt securities) sold to a Subsidiary of Domino's), plus

(c) to the extent that any Restricted Investment that was made after December 29, 2002 is sold for cash or otherwise liquidated or repaid for cash, the lesser of the cash return of capital with respect to such Restricted Investment (less the cost of disposition, if any) and the initial amount of such Restricted Investment.

The preceding provisions will not prohibit:

(1) the payment of any dividend within 60 days after the date of declaration of such dividend, if at said date of declaration such payment would have complied with the provisions of the indenture;

2) if no Default or Event of Default shall have occurred and be continuing or would occur as a consequence of such dividend or payment, following the consummation of an Initial Public Offering, the payment of dividends on the common stock of Domino's or the payment to any direct or indirect parent corporation of Domino's for the purpose of funding the payment of dividends by such direct or indirect parent corporation on its common stock, in each case in an amount of up to 6% per annum of the net cash proceeds received by Domino's or contributed to Domino's in an Initial Public Offering or any subsequent public offering of Qualified Capital Stock by any direct or indirect parent corporation of Domino's or by Domino's;

(3) the redemption, repurchase, retirement, defeasance or other acquisition of any subordinated Indebtedness of Domino's or any Guarantor or of any Equity Interests of Domino's or any Restricted Subsidiary in exchange for, or out of the net cash proceeds of the substantially concurrent sale (other than to a Subsidiary of Domino's) of, Equity Interests of Domino's (other than Disqualified Stock); *provided* that the amount of any such net cash proceeds that are utilized for any such redemption, repurchase, retirement, defeasance or other acquisition shall be excluded from clause (3)(b) of the preceding paragraph;

(4) the defeasance, redemption, repurchase or other acquisition of subordinated Indebtedness of Domino's or any Guarantor with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness;

(5) payments to any direct or indirect parent corporation of Domino's for the purpose of permitting, and in an amount equal to the amount required to permit, such direct or indirect parent corporation of Domino's to redeem or repurchase such direct or indirect

parent corporation of Domino's common equity or options in respect of such common equity, in each case in connection with the repurchase provisions of employee, director or Franchisee stock option or stock purchase agreements or other agreements to compensate management employees or directors; *provided* that all such redemptions or repurchases pursuant to this clause (5) shall not exceed \$25.0 million in the aggregate since the date of the Indenture (which amount shall be increased (A) by the amount of any net cash proceeds received from the sale since the date of the Indenture of Equity Interests (other than Disqualified Stock) to members of Domino's management team, directors and Franchisees that have not otherwise been applied to the payment of Restricted Payments pursuant to the terms of clause (3)(b) of the preceding paragraph and (B) by the cash proceeds of any "key-man" life insurance policies that are used to make such redemptions or repurchases); and *provided, further*, that the cancellation of Indebtedness owing to Domino's from members of management of Domino's or any of its Restricted Subsidiaries in connection with such a repurchase of Capital Stock of any direct or indirect parent corporation of Domino's will not be deemed to constitute a Restricted Payment under the indenture;

(6) the making of distributions, loans or advances to any direct or indirect parent corporation of Domino's in an amount not to exceed \$1.5 million per annum (\$5.0 million per annum upon the consummation of an Initial Public Offering) in order to permit such direct or indirect parent corporation of Domino's to pay the ordinary operating expenses of such direct or indirect parent corporation of Domino's (including, without limitation, directors' fees, indemnification obligations, professional fees and expenses);

(7) payments to any direct or indirect parent corporation of Domino's in respect of federal income taxes for the tax periods for which a federal consolidated return is filed by such direct or indirect parent corporation of Domino's for a consolidated group of which such direct or indirect parent corporation of Domino's is the parent and Domino's and its Subsidiaries are members, in an amount not to exceed the hypothetical federal income taxes that Domino's would have paid if Domino's and its Restricted Subsidiaries filed a separate consolidated return with Domino's as the parent, taking into account carryovers and carrybacks of tax attributes (including net operating losses) that would have been allowed if such separate consolidated return had been filed, state income tax for the tax periods for which a state combined, consolidated or unitary return is filed by such direct or indirect parent corporation of Domino's for a combined, consolidated or unitary group of which such direct or indirect parent corporation of Domino's is the parent and Domino's and its Subsidiaries are members, in an amount not to exceed the hypothetical state income taxes that Domino's would have paid if Domino's and its Restricted Subsidiaries had filed a separate combined, consolidated or unitary return taking into account carryovers and carrybacks of tax attributes (including net operating losses) that would have been allowed if such separate combined return had been filed and capital stock, net worth, or other similar taxes (but for the avoidance of doubt, excluding any taxes based on net or gross income) payable by such direct or indirect parent corporation of Domino's based on or attributable to its investment in or ownership of Domino's and its Restricted Subsidiaries; *provided, however*, that in no event shall any such tax payment pursuant to this clause (7) exceed the amount of federal (or state, as the case may be) income tax that is, at the time Domino's makes such tax payments, actually due and payable by such direct or indirect parent corporation of Domino's to the relevant taxing authorities or to become due and payable within 30 days of such payment by Domino's; *provided, further*, that for purposes of this clause (7), payments made by an Unrestricted Subsidiary to a Restricted Subsidiary or Domino's which are in turn distributed by such Restricted Subsidiary or Domino's to any direct or indirect parent corporation of Domino's shall be disregarded;

[Table of Contents](#)

(8) if no Default or Event of Default shall have occurred and be continuing or would occur as a consequence of such dividend, the declaration and payment of dividends to holders of any class or series of Designated Preferred Stock (other than Disqualified Stock) of Domino's or any Restricted Subsidiary issued after the date of the indenture; *provided* that, at the time of such issuance, Domino's, after giving effect to such issuance on a pro forma basis, would have had a Fixed Charge Coverage Ratio of at least 2.0 to 1.0 for the most recent Four-Quarter Period;

(9) distributions to Parent and other payments made by Domino's in connection with the Refinancing;

(10) the repurchase, redemption or other acquisition or retirement for value of subordinated Indebtedness with Excess Proceeds to the extent such Excess Proceeds are permitted to be used for general corporate purposes under the covenant entitled "Asset Sales";

(11) the repurchase of Capital Stock of Domino's upon the surrender of such Capital Stock in satisfaction of all or a portion of the exercise price of a stock option granted under any stock option plan established by Domino's for the benefit of its directors, employees or consultants; *provided* that no payment in cash or other property is made by Domino's in connection therewith; and

(12) if no Default or Event of Default shall have occurred and be continuing or would occur as a consequence of such Restricted Payment and Domino's would be permitted to incur at least \$1.00 of additional Indebtedness (other than Permitted Debt) in compliance with the covenant described below under the caption "—Incurrence of Indebtedness and issuance of preferred stock," other Restricted Payments in an aggregate amount not to exceed \$40.0 million since the date of the indenture.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by Domino's or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. The fair market value of any assets or securities that are required to be valued by this covenant shall be determined by the Board of Directors whose resolution with respect thereto shall be delivered to the trustee. The Board of Directors' determination must be based upon an opinion or appraisal issued by an accounting, appraisal or investment banking firm of national standing if the fair market value exceeds \$15.0 million. Not later than the date of making any Restricted Payment, Domino's shall deliver to the trustee an Officers' Certificate stating that such Restricted Payment is permitted and setting forth the basis upon which the calculations required by this "Restricted Payments" covenant were computed, together with a copy of any fairness opinion or appraisal required by the indenture.

Incurrence of Indebtedness and issuance of preferred stock

Domino's will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, "incur") any Indebtedness (including Acquired Debt), and Domino's will not issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; *provided, however*, that Domino's and any Guarantor may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, and any Guarantor may issue preferred stock, if in each case the Fixed Charge Coverage Ratio for

[Table of Contents](#)

Domino's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or preferred stock is issued would have been at least 2.0 to 1.0, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom and as otherwise provided in accordance with the provisions contained in the definition of "Fixed Charge Coverage Ratio"), as if the additional Indebtedness had been incurred, or the Disqualified Stock or preferred stock had been issued, as the case may be, at the beginning of such four-quarter period.

The first paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, "Permitted Debt"):

(1) the incurrence by Domino's and any Guarantor of Indebtedness pursuant to the Senior Credit Facilities and/or the incurrence by a Securitization Entity of Indebtedness pursuant to a Permitted Securitization Transaction in an aggregate principal amount at any time outstanding (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Company and its Subsidiaries thereunder, provided, that letters of credit constituting Standard Securitization Undertakings will be excluded for purposes of this clause (1)) not to exceed \$735.0 million less the aggregate amount of all Net Proceeds of Asset Sales applied by Domino's or any of its Restricted Subsidiaries to permanently repay Indebtedness under the Senior Credit Facilities pursuant to the covenant described above under the caption "*—Asset Sales*"; *provided* that the amount of Indebtedness permitted to be incurred pursuant to the Senior Credit Facilities and pursuant to Permitted Securitization Transactions in accordance with this clause (1) shall be in addition to any Indebtedness permitted to be incurred pursuant to the Senior Credit Facilities in reliance on, and in accordance with, clauses (4) and (15) below and in addition to any Indebtedness permitted to be incurred pursuant to Permitted Securitization Transactions in reliance on, and in accordance with, clause (15) below;

(2) the incurrence by Domino's and its Restricted Subsidiaries of the Existing Indebtedness;

(3) the incurrence by Domino's and the Guarantors of Indebtedness represented by the Notes issued on the date of the indenture, the Subsidiary Guarantees of such Notes, the Exchange Notes issued in exchange for such Notes (or in exchange for any additional Notes issued in accordance with the terms of the Indenture) and the Subsidiary Guarantees of such Exchange Notes;

(4) the incurrence by Domino's or any of its Restricted Subsidiaries of Indebtedness, including Capital Lease Obligations, to finance the purchase, lease or improvement of property (real or personal) or equipment, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, within 180 days after such purchase, lease or improvement in an aggregate principal amount outstanding (which amount may, but need not, be incurred in whole or in part under the Senior Credit Facilities) not to exceed the greater of (a) \$50.0 million or (b) 10.0% of Total Assets at the time of any incurrence of such Indebtedness, including any Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred pursuant to this clause (4);

(5) the incurrence by Domino's or any of its Restricted Subsidiaries of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to refund, refinance or replace, Indebtedness (other than intercompany Indebtedness) that was permitted by the Indenture to be incurred under the first paragraph of this covenant or clauses (2), (3), (4) or (15) of this paragraph;

[Table of Contents](#)

(6) the incurrence by Domino's or any of its Restricted Subsidiaries of intercompany Indebtedness between or among Domino's and any of its Restricted Subsidiaries; *provided, however*, that:

(a) if Domino's or any Guarantor is the obligor on such Indebtedness and the obligee is not Domino's or any Guarantor, such Indebtedness must be expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes, in the case of Domino's, or the Subsidiary Guarantee of such Guarantor, in the case of a Guarantor; and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than Domino's or a Restricted Subsidiary of Domino's and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either Domino's or a Restricted Subsidiary of Domino's; shall be deemed, in each case, to constitute an incurrence of such Indebtedness by Domino's or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the incurrence by Domino's or any of its Restricted Subsidiaries of Hedging Obligations that are incurred (a) for the purpose of fixing or hedging interest rate risk with respect to any floating or fixed rate Indebtedness that is permitted by the terms of the Indenture to be outstanding or fixing or hedging the value of foreign currencies purchased or received by Domino's in the ordinary course of business or (b) under Commodity Hedging Agreements;

(8) the guarantee by Domino's or any of the Guarantors of Indebtedness of Domino's, a Guarantor or a Foreign Subsidiary that was permitted to be incurred by another provision of this covenant;

(9) the incurrence of Indebtedness and/or the issuance of preferred stock by Foreign Subsidiaries of Domino's, which together with the aggregate principal amount of Indebtedness incurred pursuant to this clause (9) and the aggregate liquidation value of all preferred stock issued pursuant to this clause (9), does not exceed \$40.0 million at any one time outstanding;

(10) the accrual of interest, accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, and the payment of dividends on Disqualified Stock in the form of additional shares of the same class of Disqualified Stock; *provided*, in each such case, that the amount of such interest, accretion, amortization or dividend is included in Fixed Charges of Domino's as accrued;

(11) Indebtedness incurred by Domino's or any of its Restricted Subsidiaries constituting reimbursement obligations with respect to letters of credit issued in the ordinary course of business including, without limitation, in respect of workers' compensation claims or self insurance, or other Indebtedness with respect to reimbursement type obligations regarding workers' compensation claims;

(12) Indebtedness arising from agreements of Domino's or a Restricted Subsidiary of Domino's providing for indemnification, adjustment of purchase price, earn out or other similar obligations, in each case, incurred or assumed in connection with the disposition of any business, assets or a Restricted Subsidiary of Domino's, other than guarantees of Indebtedness incurred by any Person acquiring all or any portion of such business, assets or Restricted Subsidiary for the purpose of financing such acquisition; *provided* that the maximum assumable liability in respect of all such Indebtedness shall at no time exceed the gross proceeds actually received by Domino's and its Restricted Subsidiaries in connection with such disposition;

[Table of Contents](#)

(13) obligations in respect of performance and surety bonds and completion guarantees provided by Domino's or any Restricted Subsidiary of Domino's in the ordinary course of business;

(14) Indebtedness supported by one or more letters of credit incurred under the Senior Credit Facilities in accordance with clause (1); *provided* the amount of Indebtedness permitted to be incurred under this clause (14) relating to any such letter of credit shall not exceed the amount of the letter of credit provided for therein; *provided, further* upon any reduction, cancellation or termination of the applicable letter of credit, there shall be deemed to be an incurrence of Indebtedness under the Indenture equal to the excess of the amount of such Indebtedness outstanding immediately after such reduction, cancellation or termination over the remaining stated amount, if any, of such letter of credit or the stated amount of any letter of credit issued in replacement of such letter of credit; and

(15) the incurrence by Domino's or any of its Restricted Subsidiaries of additional Indebtedness, and/or the issuance by any Guarantor of preferred stock, in an aggregate principal amount (or accreted value, as applicable) or aggregate liquidation value, as applicable, at any time outstanding (which amount may, but need not, be incurred in whole or in part under the Senior Credit Facilities), including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any Indebtedness incurred or preferred stock issued pursuant to this clause (15), not to exceed \$50.0 million at any one time outstanding.

For purposes of determining compliance with this "Incurrence of Indebtedness and issuance of preferred stock" covenant, in the event that an item of proposed Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (15) above, or is entitled to be incurred pursuant to the first paragraph of this covenant, Domino's will be permitted to classify such item of Indebtedness on the date of its incurrence, or later reclassify all or a portion of such item of Indebtedness, in any manner that complies with this covenant. All borrowings outstanding on the date of the Indenture under the Senior Credit Facilities will be deemed to have been borrowed pursuant to clause (1) of the definition of Permitted Debt.

No senior subordinated debt

Domino's will not incur, create, issue, assume, guarantee or otherwise become liable for any Indebtedness that is subordinate or junior in right of payment to any Indebtedness of Domino's and senior in any respect in right of payment to the Notes. No Guarantor will incur, create, issue, assume, guarantee or otherwise become liable for any Indebtedness that is subordinate or junior in right of payment to any Indebtedness of such Guarantor and senior in any respect in right of payment to such Guarantor's Subsidiary Guarantee. For purposes of the foregoing, no Indebtedness will be deemed to be contractually subordinated in right of payment or junior in respect to any other Indebtedness of the Company or a Guarantor solely by virtue of being unsecured or by virtue of the fact that the holders of secured Indebtedness have entered into intercreditor agreements giving one or more of such holders priority over the other holders in the collateral held by them.

Liens

Domino's will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or suffer to exist any Lien of any kind securing Indebtedness, or

[Table of Contents](#)

trade payables on any asset now owned or hereafter acquired, except Permitted Liens, unless all payments due under the Indenture and the Notes are secured on an equal and ratable basis with the Indebtedness so secured until such time as such is no longer secured by a Lien; *provided* that if such Indebtedness is by its terms expressly subordinated to the Notes or any Subsidiary Guarantee, the Lien securing such Indebtedness shall be subordinate and junior to the Lien securing the Notes and the Subsidiary Guarantees with the same relative priority as such subordinate or junior Indebtedness shall have with respect to the Notes and the Subsidiary Guarantees.

Dividend and other payment restrictions affecting Subsidiaries

Domino's will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock to Domino's or any of Domino's Restricted Subsidiaries, or with respect to any other interest or participation in, or measured by, its profits, or pay any indebtedness owed to the Company or any of Domino's Restricted Subsidiaries;

(2) make loans or advances to Domino's or any of Domino's Restricted Subsidiaries; or

(3) transfer any of its properties or assets to Domino's or any of Domino's Restricted Subsidiaries.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

(1) Existing Indebtedness as in effect on the date of the indenture;

(2) the indenture, the Notes and the Subsidiary Guarantees;

(3) the Senior Credit Facilities;

(4) applicable law;

(5) any instrument governing Indebtedness or Capital Stock of a Person acquired by Domino's or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired, *provided* that, in the case of Indebtedness, such Indebtedness was permitted by the terms of the indenture to be incurred;

(6) non-assignment provisions in leases, licenses or similar agreements entered into in the ordinary course of business and consistent with past practices;

(7) purchase money obligations for property acquired in the ordinary course of business that impose restrictions on the property so acquired of the nature described in clause (3) of the preceding paragraph;

(8) asset sale agreements and stock sale agreements, including any agreement for the sale or other disposition of a Restricted Subsidiary that restricts distributions by such Restricted Subsidiary pending its sale or other disposition;

Table of Contents

(9) Permitted Refinancing Indebtedness, *provided* that the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, in the good faith judgment of the Board of Directors of Domino's, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced;

(10) restrictions on the transfer of assets subject to any Lien permitted under the indenture imposed by the holder of such Lien;

(11) Liens securing Indebtedness otherwise permitted to be incurred pursuant to the provisions of the covenant described above under the caption "—Liens" that limit the right of Domino's or any of its Restricted Subsidiaries to dispose of the assets subject to such Lien;

(12) provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other similar agreements entered into in the ordinary course of business;

(13) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business;

(14) any agreement or instrument governing Indebtedness or preferred stock (whether or not outstanding) of Foreign Subsidiaries of Domino's that was permitted by the Indenture to be incurred;

(15) Indebtedness incurred after the Issue Date in accordance with the terms of the indenture; *provided* that the restrictions contained in the agreements governing such new Indebtedness are, in the good faith judgment of the Board of Directors of Domino's, not materially less favorable, taken as a whole, to the Holders of the Notes than those contained in the agreements governing Indebtedness on the Issue Date;

(16) any agreement or instrument placing contractual restrictions applicable only to a Securitization Entity effected in connection with, or Liens on receivables or related assets which are the subject of, a Permitted Securitization Transaction; and

(17) any encumbrances or restrictions imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (1) through (16) above; *provided* that such amendments, modifications restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of the Board of Directors of Domino's, not materially more restrictive with respect to such dividend and other payment restrictions than those contained in the dividend or other payment restrictions prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

Merger, consolidation, or sale of assets

Domino's may not, directly or indirectly:

(1) consolidate or merge with or into another Person (whether or not Domino's is the surviving corporation); or

(2) sell, assign, transfer, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to another Person; unless:

(1) either: (a) Domino's is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than Domino's) or to which such sale, assignment, transfer, conveyance or other disposition shall have been made is a corporation

[Table of Contents](#)

organized or existing under the laws of the United States, any state of the United States or the District of Columbia;

(2) the Person formed by or surviving any such consolidation or merger (if other than Domino's) or the Person to which such sale, assignment, transfer, conveyance or other disposition shall have been made assumes all the obligations of Domino's under the Notes, the Indenture and the Registration Rights Agreement pursuant to agreements reasonably satisfactory to the trustee;

(3) immediately after such transaction no Default or Event of Default exists; and

(4) Domino's or the Person formed by or surviving any such consolidation or merger (if other than Domino's) will, on the date of such transaction after giving pro forma effect thereto and any related financing transactions as if the same had occurred at the beginning of the applicable four-quarter period, be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption "—Incurrence of Indebtedness and issuance of preferred stock."

In addition, Domino's may not, directly or indirectly, lease all or substantially all of its properties or assets, in one or more related transactions, to any other Person. This "Merger, consolidation, or sale of assets" covenant will not apply to a sale, lease, assignment, transfer, conveyance or other disposition of assets (including by way of consolidation or merger) between or among Domino's and any of its Wholly Owned Restricted Subsidiaries.

Transactions with Affiliates

Domino's will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate (each, an "Affiliate Transaction"), unless:

(1) such Affiliate Transaction is on terms that are no less favorable to Domino's or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by Domino's or such Restricted Subsidiary with an unrelated Person; and

(2) Domino's delivers to the trustee:

(a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$10.0 million, a resolution of the Board of Directors set forth in an Officers' Certificate certifying that such Affiliate Transaction complies with this covenant and that such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and

(b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$15.0 million, an opinion as to the fairness to the Holders of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of national standing.

The following items shall not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

(1) reasonable fees and compensation paid to and indemnity provided on behalf of, officers, directors, employees or consultants of Domino's or any Subsidiary as determined in good faith by the Board of Directors of Domino's or senior management;

Table of Contents

(2) transactions between or among Domino's and/or its Restricted Subsidiaries;

(3) any agreement or instrument as in effect as of the date of the indenture or any amendment or replacement thereto or any transaction contemplated thereby (including pursuant to any amendment or replacement thereto) so long as any such amendment or replacement agreement or instrument is, in the good faith judgment of the Board of Directors of Domino's, not more disadvantageous to the Holders of Notes in any material respect than the original agreement or instrument as in effect on the date of the Indenture;

(4) the payment of customary management, consulting and advisory fees and related expenses to the Principals and their Affiliates made pursuant to any financial advisory, financing, underwriting or placement agreement or in respect of other investment banking activities, including, without limitation, in connection with acquisitions or divestitures which are approved by the Board of Directors of Domino's or such Restricted Subsidiary in good faith;

(5) payments or loans to employees or consultants that are approved by the Board of Directors of Domino's in good faith;

(6) the existence of, or the performance by Domino's or any of its Restricted Subsidiaries of its obligations under the terms of, any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the date of the indenture and any similar agreements which it may enter into thereafter; *provided, however*, that the existence of, or the performance by Domino's or any of its Restricted Subsidiaries of obligations under, any future amendment to any such existing agreement or under any similar agreement entered into after the date of the indenture shall only be permitted by this clause (6) to the extent that the terms of any such amendment or new agreement are not disadvantageous to the Holders of Notes in any material respect;

(7) transactions with customers, clients, suppliers, joint venture partners or purchasers or sellers of goods or services, in each case in the ordinary course of business (including, without limitation, pursuant to joint venture agreements) and otherwise in compliance with the terms of the Indenture which are fair to Domino's or its Restricted Subsidiaries, in the reasonable determination of the Board of Directors of Domino's or the senior management of Domino's, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party;

(8) sales of Capital Stock (other than Disqualified Stock) to Affiliates of Domino's otherwise permitted by the indenture and the granting of registration rights in connection therewith;

(9) Restricted Payments and Permitted Investments that are permitted by the indenture; and

(10) transactions effected as part of a Permitted Securitization Transaction.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, all outstanding Investments owned by Domino's and its Restricted Subsidiaries in the Subsidiary so designated will be deemed to be an Investment made as of the time of such designation and will reduce the amount available for Restricted Payments under the first paragraph of the covenant described above under the caption "—Restricted Payments"

[Table of Contents](#)

or Permitted Investments, as determined in good faith by the Board of Directors of Domino's. All such outstanding Investments will be valued at their fair market value at the time of such designation. That designation will only be permitted if such Restricted Payment would be permitted at that time and if such Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Board of Directors may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if the redesignation would not cause a Default.

Limitations on issuances of Guarantees of Indebtedness

Domino's will not permit any Restricted Subsidiary that is not a Guarantor, directly or indirectly, to Guarantee or pledge any assets to secure the payment of any other Indebtedness of Domino's or any Guarantor (other than such Restricted Subsidiary) unless such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture providing for the Guarantee of the payment of the Notes by such Subsidiary, which Guarantee shall be senior to or pari passu with such Restricted Subsidiary's Guarantee of or pledge to secure such other Indebtedness, unless such other Indebtedness is Senior Debt or Guarantor Senior Debt, in which case the Guarantee of the Notes shall be subordinated to the Guarantee of such Senior Debt or Guarantor Senior Debt to the same extent as the Notes are subordinated to such Senior Debt.

Notwithstanding the preceding paragraph, any Subsidiary Guarantee of the Notes will provide by its terms that it will be automatically and unconditionally released and discharged under the circumstances described above under the caption "Subsidiary Guarantees." The form of the Subsidiary Guarantee will be attached as an exhibit to the Indenture.

Business activities

Domino's will not, and will not permit any Restricted Subsidiary (other than a Securitization Entity) to, engage in any business other than Permitted Businesses.

Reports

Whether or not required by the Commission, so long as any Notes are outstanding, Domino's will furnish to the Holders of Notes and the trustee, within the time periods specified in the Commission's rules and regulations:

(1) all quarterly and annual financial information that would be required to be contained in a filing with the Commission on Forms 10-Q and 10-K if Domino's were required to file such Forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" and, with respect to the annual information only, a report on the annual financial statements by Domino's certified independent accountants; and

(2) all current reports that would be required to be filed with the Commission on Form 8-K if Domino's were required to file such reports.

If Domino's has designated any of its Subsidiaries as Unrestricted Subsidiaries, then, to the extent permitted by applicable law, the quarterly and annual financial information required by the preceding paragraph shall include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in management's discussion and analysis of

[Table of Contents](#)

financial condition and results of operations, of the financial condition and results of operations of Domino's and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of Domino's.

In addition, whether or not required by the Commission, Domino's will file a copy of all of the information and reports referred to in clauses (1) and (2) above with the trustee and the Commission for public availability within the time periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to securities analysts and prospective investors upon request. Moreover, Domino's has agreed, and any Guarantor will agree, that, for so long as any Notes remain outstanding, it will furnish to the Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d) (4) under the Securities Act.

Events of Default

Each of the following is an Event of Default:

- (1) default for 30 days in the payment when due of interest on, or additional interest with respect to, the Notes, whether or not prohibited by the subordination provisions of the indenture;
- (2) default in payment when due of the principal of or premium, if any, on the Notes, whether or not prohibited by the subordination provisions of the indenture;
- (3) failure by Domino's or any of its Restricted Subsidiaries for 30 days after specified notice from the trustee or the Holders of at least 25% of the outstanding principal amount of the Notes to comply with any of the other agreements in the indenture or the Notes;
- (4) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by Domino's or any of its Restricted Subsidiaries (or the payment of which is guaranteed by Domino's or any of its Restricted Subsidiaries) whether such Indebtedness or guarantee now exists, or is created after the date of the indenture, if that default:
 - (a) is caused by a failure to pay principal at the final stated maturity of such Indebtedness (giving effect to any applicable grace periods and any extensions of such grace periods) (a "Payment Default"); or
 - (b) results in the acceleration of such Indebtedness prior to its express maturity, and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated aggregates \$20.0 million or more;
- (5) failure by Domino's or any of its Restricted Subsidiaries to pay final judgments aggregating in excess of \$20.0 million (excluding amounts covered by an enforceable insurance policy issued by an insurer with a Best's rating of at least B+, as to which the insurer has acknowledged liability), which judgments are not paid, discharged or stayed for a period of 60 consecutive days after such judgments become final and non-appealable; and
- (6) certain events of bankruptcy or insolvency with respect to Domino's or any of its Significant Restricted Subsidiaries.

Table of Contents

In the case of an Event of Default arising from certain events of bankruptcy or insolvency with respect to Domino's, all outstanding Notes will become due and payable immediately without further action or notice. If any other Event of Default specified in the indenture occurs and is continuing, the trustee or the Holders of at least 25% in principal amount of outstanding Notes may declare the principal of and accrued interest on the Notes to be due and payable by notice in writing to Domino's and the trustee specifying the respective Event of Default and that such notice is a "notice of acceleration" (the "Acceleration Notice"), and the same:

(1) shall become immediately due and payable; or

(2) if there are any amounts outstanding under the Senior Credit Facilities, shall become immediately due and payable upon the first to occur of an acceleration under the Senior Credit Facilities or five Business Days after receipt by Domino's and the Representative under the Senior Credit Facilities of such Acceleration Notice

but only if such Event of Default is then continuing.

Holders of the Notes may not enforce the indenture or the Notes except as provided in the indenture. Subject to certain limitations, Holders of a majority in principal amount of the then outstanding Notes may direct the trustee in its exercise of any trust or power. The trustee may withhold from Holders of the Notes notice of any continuing Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest) if it determines that withholding notice is in their interest.

The Holders of a majority in aggregate principal amount of the Notes then outstanding by notice to the trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under the indenture (including rescinding any acceleration of the payment of the Notes) except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes.

In the case of any Event of Default occurring by reason of any willful action or inaction taken or not taken by or on behalf of Domino's with the intention of avoiding payment of the premium that Domino's would have had to pay if Domino's then had elected to redeem the Notes pursuant to the optional redemption provisions of the indenture, an equivalent premium shall also become and be immediately due and payable to the extent permitted by law upon the acceleration of the Notes. If an Event of Default occurs prior to July 1, 2007, by reason of any willful action (or inaction) taken (or not taken) by or on behalf of the Company with the intention of avoiding the prohibition on redemption of the Notes prior to July 1, 2007, then the premium specified in the indenture shall also become immediately due and payable to the extent permitted by law upon the acceleration of the Notes.

Domino's is required to deliver to the trustee annually a statement regarding compliance with the indenture. Upon becoming aware of any Default or Event of Default, Domino's is required to deliver to the trustee a statement specifying such Default or Event of Default.

No personal liability of directors, officers, employees and stockholders

No director, officer, employee, incorporator or stockholder of the Company, any direct or indirect parent corporation of Domino's or any Guarantor, as such, shall have any liability for any obligations of Domino's or the Guarantors under the Notes, the indenture, the Subsidiary

[Table of Contents](#)

Guarantees or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. The waiver may not be effective to waive liabilities under the federal securities laws.

Legal Defeasance and Covenant Defeasance

Domino's may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes and all obligations of the Guarantors discharged with respect to their Subsidiary Guarantees ("Legal Defeasance") except for:

- (1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, premium, if any, and interest and additional interest, if any, on such Notes when such payments are due from the trust referred to below;
- (2) the obligations of Domino's with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the trustee, and Domino's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the indenture.

In addition, Domino's may, at its option and at any time, elect to have the obligations of Domino's and the Guarantors released with respect to certain covenants that are described in the Indenture ("Covenant Defeasance") and thereafter any omission to comply with those covenants shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (including non-payment of other indebtedness, bankruptcy, receivership, rehabilitation and insolvency events described under "Events of Default" and the limitations contained in clauses (3) and (4) of "Merger, consolidation, or Sale of Assets") will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) Domino's must irrevocably deposit with the trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination of such cash in U.S. dollars and non-callable Government Securities, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest and additional interest, if any, on the outstanding Notes on the stated maturity or on the applicable redemption date, as the case may be, and Domino's must specify whether the Notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, Domino's shall have delivered to the trustee an Opinion of Counsel reasonably acceptable to the trustee confirming that (a) Domino's has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the date of the indenture, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

[Table of Contents](#)

(3) in the case of Covenant Defeasance, Domino's shall have delivered to the trustee an Opinion of Counsel reasonably acceptable to the trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing either: (a) on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit); or (b) insofar as Events of Default from bankruptcy or insolvency events are concerned, at any time in the period ending on the 91st day after the date of deposit;

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under the Senior Credit Facilities or any other material agreement or instrument (other than the Indenture) to which Domino's or any of its Subsidiaries is a party or by which Domino's or any of its Subsidiaries is bound;

(6) Domino's must have delivered to the trustee an Opinion of Counsel reasonably acceptable to the trustee to the effect that after the 91st day following the deposit, the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally;

(7) Domino's must deliver to the trustee an Officers' Certificate stating that the deposit was not made by Domino's with the intent of defeating, hindering, delaying or defrauding creditors of Domino's or others; and

(8) Domino's must deliver to the trustee an Officers' Certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Amendment, supplement and waiver

Furthermore, in calculating Fixed Charges for purposes of determining the denominator (but not the numerator) of this Fixed Charge Coverage Ratio:

- (2) if interest on any Indebtedness actually incurred on the Transaction Date may optionally be determined at an interest rate based upon a factor of a prime or similar rate, a eurocurrency interbank offered rate, or other rates, then the interest rate in effect on the Transaction Date will be deemed to have been in effect during the Four-Quarter Period; and

Exchange offer and registration rights agreement

We and our subsidiary guarantors have entered into a registration rights agreement with the initial purchasers of the outstanding notes. In that agreement, we agreed for the benefit of the holders of the outstanding notes that we will use our reasonable best efforts to file with the Commission and cause to become effective a registration statement relating to an offer to exchange the outstanding notes for exchange notes with terms identical to the outstanding notes (except that the exchange notes will not be subject to restrictions on transfer or to any increase in annual interest rate as described below).

When the Commission declares the exchange offer registration statement effective, we will offer the exchange notes in return for the outstanding notes. The exchange offer will remain open for at least 20 business days after the date we mail notice of the exchange offer to noteholders. For each outstanding note surrendered to us under the exchange offer, the noteholder will receive an exchange note of equal principal amount. Interest on each exchange note will accrue from the last interest payment date on which interest was paid on the outstanding notes or, if no interest has been paid on the outstanding notes, from the closing date of the offering of outstanding notes.

If applicable interpretations of the staff of the Commission do not permit us to effect the exchange offer, we will use our reasonable best efforts to cause to become effective a shelf registration statement relating to resales of the outstanding notes and to keep that shelf registration statement effective until the expiration of the time period referred to in Rule 144(k) under the Securities Act, or such shorter period that will terminate when all outstanding notes covered by the shelf registration statement have been sold. We will, in the event of such a shelf registration, provide to each noteholder copies of the prospectus that is a part of the shelf registration statement, notify each noteholder when the shelf registration statement has become effective and take certain other actions to permit resales of the outstanding notes. A noteholder that sells outstanding notes under the shelf registration statement generally will be required to be named as a selling security holder in the related prospectus and to deliver a prospectus to purchasers, will be subject to certain of the civil liability provisions under the Securities Act in connection with those sales and will be bound by the provisions of the registration rights agreement that are applicable to such a noteholder (including certain indemnification obligations).

If the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) on or before the date that is 210 days after the closing date (the "Target Registration Date"), the annual interest rate borne by the outstanding notes will be increased 0.25% per annum, with respect to the first 90 days after the Target Registration Date, and, if the exchange offer is not completed (or, if required, the shelf registration statement is not declared effective) prior to the end of such 90-day period, by an additional 0.25% per annum for each subsequent 90-day period during which the registration default continues, up to a maximum amount of 1.0% per annum, in each case until the exchange offer is completed or, if required, the shelf registration statement is declared effective.

If we effect the exchange offer, we will be entitled to close the exchange offer 20 business days after its commencement, *provided* that we have accepted all outstanding notes validly surrendered in accordance with the terms of the exchange offer. Outstanding notes not tendered in the exchange offer shall bear interest at 8 ¹/₄% per annum and be subject to all the terms and conditions specified in the indenture, including transfer restrictions.

This summary of the provisions of the registration rights agreement may not contain all of the information that is important to you and is subject to, and is qualified in its entirety by reference to, all the provisions of the registration rights agreement, a copy of which is filed as an exhibit to the registration statement of which this prospectus is a part.

The exchange offer

Purpose and effect of the exchange offer

In connection with the sale by us of the outstanding notes on June 25, 2003, we and the subsidiary guarantors entered into a registration rights agreement, dated June 25, 2003, with the initial purchasers of the outstanding notes, which requires that we file a registration statement under the Securities Act with respect to the outstanding notes and, upon the effectiveness of that registration statement, offer to the holders of the outstanding notes the opportunity to exchange their outstanding notes for a like principal amount of Notes. The registration rights agreement further provides that we must use our reasonable best efforts to cause the registration statement with respect to the exchange offer to be declared effective and to consummate the exchange offer within 210 days of the issue date of the outstanding notes.

Except as described below, upon the completion of the exchange offer, our obligations with respect to the registration of the outstanding notes will terminate. A copy of the registration rights agreement is incorporated herein by reference as an exhibit to the registration statement of which this prospectus is a part, and this summary of the material provisions of the registration rights agreement may not contain all of the information that is important to you and is qualified in its entirety by reference to the complete registration rights agreement. As a result of the timely effectiveness of the registration statement of which this prospectus is a part, we will not have to pay certain additional interest on the outstanding notes as provided in the registration rights agreement. Following the completion of the exchange offer, holders of outstanding notes not tendered will not have any further registration rights other than as set forth in the paragraphs below, and those outstanding notes will continue to be subject to certain restrictions on transfer. Accordingly, the liquidity of the market for the outstanding notes could be adversely affected upon consummation of the exchange offer.

In order to participate in the exchange offer, a holder must represent to us, among other things, that:

- any Notes to be received by the holder will be acquired in the ordinary course of business;
- the holder has no arrangement or understanding with any person to participate in the distribution (within the meaning of the Securities Act) of the Notes in violation of the provisions of the Securities Act;
- the holder is not an “affiliate” (within the meaning of Rule 405 under Securities Act) of Domino’s; and
- if the holder is a broker-dealer that will receive Notes for its own account in exchange for outstanding notes that were acquired as a result of market-making or other trading activities, then the holder will deliver a prospectus in connection with any resale of such Notes.

Under limited circumstances specified in the registration rights agreement, we may be required to file a “shelf” registration statement for a continuous offering in connection with the outstanding notes pursuant to Rule 415 under the Securities Act.

Based on an interpretation by the SEC’s staff set forth in no-action letters issued to third parties unrelated to us, we believe that, with the exceptions set forth below, Notes issued in the exchange offer may be offered for resale, resold and otherwise transferred by the holder of

[Table of Contents](#)

Notes without compliance with the registration and prospectus delivery requirements of the Securities Act, unless the holder:

- acquired the Notes other than in the ordinary course of the holder's business;
- has an arrangement with any person to engage in a distribution of Notes;
- is an "affiliate" of Domino's within the meaning of Rule 405 under the Securities Act; or
- is a broker-dealer who purchased outstanding notes directly from us for resale under Rule 144A or Regulation S or any other available exemption under the Securities Act.

Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the Notes cannot rely on this interpretation by the SEC's staff and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction. Each broker-dealer that receives Notes for its own account in exchange for outstanding notes, where such outstanding notes were acquired by such broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such Notes. See "Plan of distribution." Broker-dealers who acquired outstanding notes directly from us and not as a result of market-making or other trading activities may not rely on the SEC staff's interpretations discussed above or participate in the exchange offer and must comply with the prospectus delivery requirements of the Securities Act in order to sell the outstanding notes.

Terms of the exchange offer

The exchange offer will remain in effect for a limited time. Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, we will accept any and all outstanding notes validly tendered and not withdrawn prior to 5:00 p.m., New York City time, on _____, 2003 or such date and time to which we extend the offer. We will issue \$1,000 in principal amount of Notes in exchange for each \$1,000 principal amount of outstanding notes accepted in the exchange offer. Holders may tender some or all of their outstanding notes pursuant to the exchange offer. However, outstanding notes may be tendered only in integral multiples of \$1,000 in principal amount.

The Notes will evidence the same debt as the outstanding notes and will be issued under the terms of, and entitled to the benefits of, the indenture relating to the outstanding notes.

As of the date of this prospectus, outstanding notes representing \$403 million in aggregate principal amount at maturity were outstanding and there was one registered holder, a nominee of The Depository Trust Company, or DTC. This prospectus, together with the letter of transmittal, is being sent to the registered holder and to others believed to have beneficial interests in the outstanding notes. We intend to conduct the exchange offer in accordance with the applicable requirements of the Securities Exchange Act of 1934 and the rules and regulations of the SEC promulgated under the Exchange Act.

We will be deemed to have accepted validly tendered outstanding notes when, as, and if we have given oral notice, promptly confirmed in writing, or written notice thereof to BNY Midwest Trust Company, the exchange agent. The exchange agent will act as agent for the tendering holders for the purpose of receiving the Notes from us and delivering the Notes to such holders. If any tendered outstanding notes are not accepted for exchange because of an invalid tender, the occurrence of certain other events set forth under the heading "—Conditions to the

[Table of Contents](#)

exchange offer” or otherwise, certificates for any such unaccepted outstanding notes will be returned, without expense, to the tendering holder of those outstanding notes promptly after the expiration date unless the exchange offer is extended.

Holders who tender outstanding notes in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of outstanding notes in the exchange offer. We will pay all charges and expenses, other than certain taxes applicable to the exchange offer. See “—Fees and expenses.”

We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement, the applicable requirements of the Securities Act and the Exchange Act and the rules and regulations of the SEC. Outstanding notes that are not tendered for exchange in the exchange offer will remain outstanding and continue to accrue interest and will be entitled to the rights and benefits such holders have under the indenture relating to the outstanding notes and the registration rights agreement.

Subject to the terms of the registration rights agreement, we expressly reserve the right to amend or terminate the exchange offer, and to not accept for exchange any outstanding notes not previously accepted for exchange, upon the occurrence of any of the conditions specified below under the caption “—Conditions to the Exchange Offer.” We will satisfy or waive all conditions to the exchange offer described below under the caption “—Conditions to the exchange offer,” other than those regarding necessary governmental approvals, prior to the expiration of the exchange offer.

Expiration date; extensions; amendments

The expiration date shall be 5:00 p.m., New York City time, on _____, 2003, unless we, in our sole discretion, extend the exchange offer, in which case the expiration date shall be the latest date and time to which the exchange offer is extended. In order to extend the exchange offer, we will notify the exchange agent and each registered holder of any extension by oral notice, promptly confirmed in writing, or written notice prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. We reserve the right, in our sole discretion:

- to delay accepting any outstanding notes, to extend the exchange offer or, if any of the conditions set forth under “—Conditions to the exchange offer” shall not have been satisfied, to terminate the exchange offer, by giving oral or written notice of that delay, extension or termination to the exchange agent; or
- to amend the terms of the exchange offer in any manner.

Notwithstanding the foregoing, we will not delay payment for outstanding notes validly tendered to us in the exchange offer subsequent to expiration of the exchange offer other than in anticipation of receiving necessary governmental approval. In the event that we make a fundamental change to the terms of the exchange offer, we will file a post-effective amendment to the registration statement of which this prospectus is a part. We are generally required to extend the offering period for any material change, including the waiver of a material condition, so at least five business days remain in the exchange offer after the material change.

Without limiting the manner in which we may choose to make public announcements of any delay in acceptance, extension, termination or amendment of the exchange offer, we shall have

no obligation to publish, advertise, or otherwise communicate any such public announcement, other than by making a timely release to a financial news service.

Procedures for tendering outstanding notes

Only a holder of outstanding notes may tender such outstanding notes in the exchange offer. To tender in the exchange offer, a holder must:

- complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal; have the signature on the letter of transmittal guaranteed if the letter of transmittal so requires; and mail or deliver such letter of transmittal or facsimile to the exchange agent prior to the expiration date; or
- comply with DTC's Automated Tender Offer Program, or ATOP, procedures described below.

In addition, either:

- the exchange agent must receive outstanding notes along with the letter of transmittal; or
- the exchange agent must receive, prior to the expiration date, a timely confirmation of book-entry transfer of such outstanding notes into the exchange agent's account at DTC according to the procedure for book-entry transfer described below or a properly transmitted agent's message; or
- the holder must comply with the guaranteed delivery procedures described below.

To be tendered effectively, the exchange agent must receive any physical delivery of the letter of transmittal and other required documents at the address set forth below under "—Exchange agent" prior to the expiration date.

The tender by a holder that is not withdrawn prior to the expiration date will constitute an agreement between such holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal.

The method of delivery of outstanding notes, the letter of transmittal and all other required documents to the exchange agent is at the holder's election and risk. Rather than mail these items, we recommend that holders use an overnight or hand delivery service. In all cases, holders should allow sufficient time to assure delivery to the exchange agent before the expiration date. Holders should not send the letter of transmittal or outstanding notes to us. Holders may request their respective brokers, dealers, commercial banks, trust companies or other nominees to effect the above transactions for them.

Any beneficial owner whose outstanding notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact the registered holder promptly and instruct it to tender on the owner's behalf. If such beneficial owner wishes to tender on its own behalf, it must, prior to completing and executing the letter of transmittal and delivering its outstanding notes, either:

- make appropriate arrangements to register ownership of the outstanding notes in such owner's name; or
- obtain a properly completed bond power from the registered holder of outstanding notes.

[Table of Contents](#)

The transfer of registered ownership may take considerable time and may not be completed prior to the expiration date.

Signatures on a letter of transmittal or a notice of withdrawal described below must be guaranteed by a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States or another "eligible guarantor institution" within the meaning of Rule 17Ad-15 under the Exchange Act, unless the outstanding notes tendered pursuant thereto are tendered:

- by a registered holder who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal; or
- for the account of an eligible guarantor institution.

If a letter of transmittal is signed by a person other than the registered holder of the outstanding notes listed on the outstanding notes, such outstanding notes must be endorsed or accompanied by a properly completed bond power. The bond power must be signed by the registered holder as the registered holder's name appears on the outstanding notes and an eligible institution must guarantee the signature on the bond power.

If a letter of transmittal or any outstanding note or bond power is signed by a trustee, executor, administrator, guardian, attorney-in-fact, officer of a corporation or other person acting in a fiduciary or representative capacity, such person should so indicate when signing. Unless waived by us, such person should also submit evidence satisfactory to us of such person's authority to deliver the letter of transmittal.

DTC has confirmed that any financial institution that is a participant in DTC's system may use DTC's ATOP procedures to tender. Participants in the program may, instead of physically completing and signing the letter of transmittal and delivering it to the exchange agent, transmit their acceptance of the exchange offer electronically. They may do so by causing DTC to transfer the outstanding notes to the exchange agent in accordance with its procedures for transfer. DTC will then send an agent's message to the exchange agent. The term "agent's message" means a message transmitted by DTC, received by the exchange agent and forming part of the book-entry confirmation, to the effect that:

- DTC has received an express acknowledgment from a participant in its Automated Tender Offer Program that is tendering outstanding notes that are the subject of such book-entry confirmation;
- such participant has received and agrees to be bound by the terms of the letter of transmittal, or, in the case of an agent's message relating to guaranteed delivery, that such participant has received and agrees to be bound by the notice of guaranteed delivery; and
- the agreement may be enforced against such participant.

We will determine in our sole discretion all questions as to the validity, form, eligibility, including time of receipt, acceptance of tendered outstanding notes and withdrawal of tendered outstanding notes. Our determination will be final and binding. We reserve the absolute right to reject any outstanding notes not properly tendered or any outstanding notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the

[Table of Contents](#)

right to waive any defects, irregularities or conditions of tender as to particular outstanding notes. To the extent that we waive any of the conditions to the exchange offer described under the heading “—Conditions to the exchange offer,” such waiver will be effective for all holders of outstanding notes that have been validly tendered and have not been validly withdrawn prior to the expiration date of the exchange offer. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of outstanding notes must be cured within such time as we shall determine. Although we intend to notify holders of defects or irregularities with respect to tenders of outstanding notes, neither we, the exchange agent nor any other person will incur any liability for failure to give such notification. Tendere of outstanding notes will not be deemed made until such defects or irregularities have been cured or waived. Any outstanding notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned to the exchange agent without cost to the tendering holder, unless otherwise provided in the letter of transmittal, as soon as practicable following the expiration date.

In all cases, we will issue exchange notes for outstanding notes that we have accepted for exchange under the exchange offer only after the exchange agent timely receives:

- outstanding notes or a timely book-entry confirmation of such outstanding notes into the exchange agent's account at DTC; and
- a properly completed and duly executed letter of transmittal and all other required documents or a properly transmitted agent's message.

By signing a letter of transmittal, each tendering holder of outstanding notes will represent to us that, among other things:

- any exchange notes that the holder receives will be acquired in the ordinary course of its business;
- the holder has no arrangement or understanding with any person or entity to participate in the distribution of the exchange notes;
- if the holder is not a broker-dealer, that it is not engaged in and does not intend to engage in the distribution of the exchange notes;
- if the holder is a broker-dealer that will receive exchange notes for its own account in exchange for outstanding notes that were acquired as a result of market-making or other trading activities, that it will deliver a prospectus, as required by law, in connection with any resale of such exchange notes; and
- the holder is not an “affiliate,” as defined in Rule 405 of the Securities Act, of Domino's or, if the holder is an affiliate, it will comply with any applicable registration and prospectus delivery requirements of the Securities Act.

Book-entry transfer

The exchange agent will make a request to establish an account with respect to the outstanding notes at the book-entry transfer facility for purposes of the exchange offer within two business days after the date of this prospectus, and any financial institution that is a participant in the book-entry transfer facility's systems may make book-entry delivery of outstanding notes being

[Table of Contents](#)

tendered by causing the book-entry transfer facility to transfer such outstanding notes into the exchange agent's account at the book-entry transfer facility in accordance with that book-entry transfer facility's procedures for transfer. However, although delivery of outstanding notes may be effected through book-entry transfer at the book-entry transfer facility, the letter of transmittal or copy of the letter of transmittal, with any required signature guarantees and any other required documents, must, in any case other than as set forth in the following paragraph, be transmitted to and received by the exchange agent at the address set forth under the heading "—Exchange agent" on or prior to the expiration date or the guaranteed delivery procedures described below must be complied with.

DTC's ATOP is the only method of processing exchange offers through DTC. To accept the exchange offer through ATOP, participants in DTC must send electronic instructions to DTC through DTC's communication system instead of sending a signed, hard copy letter of transmittal. DTC is obligated to communicate those electronic instructions to the exchange agent. To tender outstanding notes through ATOP, the electronic instructions sent to DTC and transmitted by DTC to the exchange agent must contain language by which the participant acknowledges its receipt of and agrees to be bound by the letter of transmittal.

Guaranteed delivery procedures

If a registered holder of the outstanding notes desires to tender outstanding notes and the outstanding notes are not immediately available, or time will not permit that holder's outstanding notes or other required documents to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, a tender may be effected if:

- the tender is made through an eligible institution;
- prior to the expiration date, the exchange agent receives from that eligible institution a properly completed and duly executed letter of transmittal or a facsimile of a duly executed letter of transmittal and notice of guaranteed delivery, substantially in the form provided by us, by fax transmission, mail or hand delivery, setting forth the name and address of the holder of outstanding notes and the amount of outstanding notes tendered and stating that the tender is being made by guaranteed delivery and guaranteeing that within three New York Stock Exchange, or NYSE, trading days after the date of execution of the notice of guaranteed delivery, the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, will be deposited by the eligible institution with the exchange agent; and
- the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, are received by the exchange agent within three NYSE trading days after the date of execution of the notice of guaranteed delivery.

Withdrawal rights

Tenders of outstanding notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

For a withdrawal of a tender of outstanding notes to be effective, a written, or for DTC participants electronic ATOP transmission, notice of withdrawal must be received by the exchange agent at its address set forth under the heading "—Exchange agent" prior to 5:00 p.m., New York City time, on the expiration date. Any such notice of withdrawal must:

[Table of Contents](#)

- specify the name of the person having deposited the outstanding notes to be withdrawn, whom we refer to as the depositor;
- identify the outstanding notes to be withdrawn, including the certificate number or numbers and principal amount of such outstanding notes;
- be signed by the holder in the same manner as the original signature on the letter of transmittal by which such outstanding notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee register the transfer of such outstanding notes into the name of the person withdrawing the tender; and
- specify the name in which any such outstanding notes are to be registered, if different from that of the depositor.

All questions as to the validity, form, eligibility and time of receipt of such notices will be determined by us, which determination shall be final and binding on all parties. Any outstanding notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any outstanding notes that have been tendered for exchange but that are not exchanged for any reason will be returned to the holder of those outstanding notes without cost to that holder promptly after withdrawal, rejection of tender, or termination of the exchange offer. Properly withdrawn outstanding notes may be retendered by following one of the procedures under the heading “—Procedures for tendering outstanding notes” at any time on or prior to the expiration date.

Conditions to the exchange offer

Notwithstanding any other provision of the exchange offer, we will not be required to accept for exchange, or to issue Notes in exchange for, any outstanding notes and may terminate or amend the exchange offer if at any time before the acceptance of those outstanding notes for exchange or the exchange of the Notes for those outstanding notes, we determine that the exchange offer violates any applicable law or applicable interpretation of the Staff of the SEC, which includes the position of the Staff of the SEC enunciated in the Exxon Capital Holdings Corp. (available April 13, 1989), Morgan Stanley & Co. Incorporated (available June 5, 1991) and Shearman & Sterling (available July 2, 1993) no-action letters.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any such condition or may be waived by us in whole or in part at any time and from time to time in our sole discretion. The failure by us at any time to exercise any of the foregoing rights shall not be deemed a waiver of any of those rights and each of those rights shall be deemed an ongoing right which may be asserted at any time and from time to time. To the extent that we waive any of the conditions to the exchange offer described in this section, such waiver will be effective for all holders of outstanding notes that have been validly tendered and have not been validly withdrawn prior to the expiration date of the exchange offer. We will satisfy or waive all of such conditions, other than those regarding necessary governmental approvals, prior to the expiration of the exchange offer.

In addition, we will not accept for exchange any outstanding notes tendered, and no Notes will be issued in exchange for those outstanding notes, if at such time any stop order shall be threatened or in effect with respect to the registration statement of which this prospectus constitutes a part. We are required to use reasonable best efforts to obtain the withdrawal of any stop order at the earliest possible time.

Consequences of failure to exchange

Holders of outstanding notes who do not exchange their outstanding notes for exchange notes under the exchange offer will remain subject to the restrictions on transfer of such outstanding notes:

- as set forth in the legend printed on the outstanding notes as a consequence of the issuance of the outstanding notes pursuant to the exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws; and
- otherwise set forth in the offering memorandum distributed in connection with the private offering of the outstanding notes.

In general, you may not offer or sell the outstanding notes unless they are registered under the Securities Act, or if the offer or sale is exempt from registration under the Securities Act and applicable state securities laws. Except as required by the registration rights agreement, we do not intend to register resales of the outstanding notes under the Securities Act. Based on interpretations of the SEC staff, exchange notes issued pursuant to the exchange offer may be offered for resale, resold or otherwise transferred by their holders, other than any such holder that is our "affiliate" within the meaning of Rule 405 under the Securities Act, without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that the holders acquired the exchange notes in the ordinary course of the holders' business and the holders have no arrangement or understanding with respect to the distribution of the exchange notes to be acquired in the exchange offer. Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the exchange notes:

- could not rely on the applicable interpretations of the SEC; and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction.

Accounting treatment

We will record the exchange notes in our accounting records at the same carrying value as the outstanding notes, as reflected in our accounting records on the date of exchange. Accordingly, we will not recognize any gain or loss for accounting purposes in connection with the exchange offer. We will record the expenses of the exchange offer as incurred.

Exchange agent

All executed letters of transmittal should be directed to the exchange agent. BNY Midwest Trust Company has been appointed as exchange agent for the exchange offer. Questions, requests for assistance and requests for additional copies of this prospectus or of the letter of transmittal should be directed to the exchange agent addressed as follows:

[Table of Contents](#)

Originals of all documents sent by facsimile should be sent promptly by registered or certified mail, by hand or by overnight delivery service.

Fees and expenses

We will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. The principal solicitation is being made by mail; however, additional solicitations may be made in person or by telephone by our officers and employees. The cash expenses to be incurred in connection with the exchange offer will be paid by us and will include accounting, legal, printing and related fees and expenses.

Transfer taxes

Holders who tender their outstanding notes for exchange will not be obligated to pay any transfer taxes in connection with that tender or exchange, except that holders who instruct us to register Notes in the name of, or request that outstanding notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be responsible for the payment of any applicable transfer tax on those outstanding notes.

Other

Participation in the exchange offer is voluntary, and you should carefully consider whether to accept. You are urged to consult your financial and tax advisors in making your own decision on what action to take.

We may from time to time in the future seek to acquire untendered outstanding notes in open market or privately negotiated transactions, through subsequent exchange offers or otherwise. We have no present plans to acquire any outstanding notes that are not tendered in the exchange offer or to file a registration statement to permit resales of any untendered outstanding notes.

Book-entry settlement and clearance

The global notes

The Notes will initially be issued in the form of one or more registered notes in global form, without interest coupons, which are called the global notes.

Upon issuance, each of the global notes will be deposited with the trustee as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC, which are called DTC participants, or persons who hold interests through DTC participants. We expect that under procedures established by DTC:

- upon deposit of each global note with DTC's custodian, DTC will credit portions of the principal amount of the global note to the accounts of the DTC participants designated by the initial purchasers; and
- ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other owners of beneficial interests in the global note).

Beneficial interests in the global notes may not be exchanged for Notes in physical, certificated form except in the limited circumstances described below.

Book-entry procedures for the global notes

All interests in the global notes will be subject to the operations and procedures of DTC. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of DTC are controlled by DTC and may be changed at any time. We are not responsible for those operations or procedures.

DTC has advised us that it is:

- a limited purpose trust company organized under the laws of the State of New York;
- a "banking organization" within the meaning of the New York State Banking Law;
- a member of the Federal Reserve System;
- a "clearing corporation" within the meaning of the Uniform Commercial Code; and
- a "clearing agency" registered under Section 17A of the Securities Exchange Act of 1934.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions-between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers, including the initial purchasers; banks and trust companies; clearing corporations and other organizations. Indirect access to DTC's system is also available to others such as banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

[Table of Contents](#)

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the Notes represented by that global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a global note:

- will not be entitled to have Notes represented by the global note registered in their names;
- will not receive or be entitled to receive physical, certificated Notes; and
- will not be considered the owners or holders of the Notes under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the Trustee under the indenture.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights of a holder of Notes under the indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor owns its interest).

Payments of principal, premium (if any) and interest with respect to the Notes represented by a global note will be made by the trustee to DTC's nominee as the registered holder of the global note. Neither we nor the trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds.

Certificated notes

Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the related Notes only if:

- DTC notifies us at any time that it is unwilling or unable to continue as depository for the global notes and a successor depository is not appointed within 90 days;
- DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depository is not appointed within 90 days;
- we, at our option, notify the trustee in writing that we elect to cause the issuance of certificated notes; or
- certain other events provided in the indenture should occur.

Material United States federal income tax considerations

In general

The following is a summary of the material U.S. federal income tax (and, with respect to non-U.S. holders, estate tax) consequences to you of the ownership and disposition of the Notes. It:

- is based on the Internal Revenue Code of 1986, as amended (the “Code”), administrative pronouncements, judicial decisions and final, temporary and proposed U.S. Treasury Department regulations all of which are subject to change (possibly with retroactive effect) or to different interpretations;
- does not address the tax consequences to you if you purchase the Notes after their original issuance.
- assumes that you hold the Notes as capital assets within the meaning of Section 1221 of the Code (that is, for investment purposes);
- does not discuss all of the tax consequences that may be relevant to you in light of your particular circumstances (such as the application of the alternative minimum tax) or that may be relevant to you because you are subject to special rules, such as rules applicable to financial institutions, tax-exempt entities, holders whose “functional currency” is not the U.S. dollar, insurance companies, dealers in securities or foreign currencies, persons holding the Notes as part of a hedge, straddle, “constructive sale,” “conversion” or other integrated transaction, or former U.S. citizens or long-term residents subject to taxation as expatriates under Section 877 of the Code;
- does not discuss the effect of any state, local or foreign laws;
- does not discuss tax consequences to an owner of Notes held through a partnership or other pass-through entity; and
- assumes that:
 - the Notes are properly characterized as debt for U.S. federal income tax purposes;
 - the Notes are not convertible;
 - the Notes cannot be integrated with any other financial instrument;
 - a substantial amount of the Notes will be issued for money; and
 - the Notes are not high yield debt obligations, are not payable in our stock or the stock of a party related to us, and do not constitute corporate acquisition indebtedness.

This discussion only represents our attempt to describe certain federal income tax consequences that may apply to you based on current United States federal tax law. The Internal Revenue Service (“IRS”) or any court may disagree with the statements made in this discussion. **You are urged to consult your own tax advisor regarding the application of U.S. federal income tax laws to your particular situation and the consequences of federal estate and gift tax laws, state, local and foreign laws and tax treaties.**

As used in this section, a U.S. holder of a Note means a beneficial owner of a Note that is, for U.S. federal income tax purposes:

- a citizen or resident of the United States;

[Table of Contents](#)

- a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) a valid election is in place to treat the trust as a U.S. person.

As used in this section, a non-U.S. holder means a beneficial owner of a Note that is not a U.S. holder.

Tax consequences to U.S. holders

This section applies to you if you are a U.S. holder.

Exchange of outstanding notes

The exchange of outstanding notes for the freely tradeable Notes in the exchange offer will not constitute a taxable event to holders. Consequently, you will not recognize gain or loss upon receipt of a Note, the holding period of the Note will include the holding period of the outstanding note exchanged therefor and your basis in the Note will be the same as the adjusted tax basis of the outstanding note exchanged for the Note immediately before the exchange.

Payments of stated interest

The payment of stated interest will be taxed as ordinary interest income. In general, you must report interest on the Notes in accordance with your accounting method. If you are a cash method taxpayer, which is the case for most individuals, you must report interest on the Notes in your income when you receive it. If you are an accrual method taxpayer, you must report interest on the Notes in your income as it accrues.

Original issue discount

The outstanding notes were issued at a 0.722% discount to the face value of the outstanding notes. For federal income tax purposes, the excess of the stated redemption price at maturity (the "face value") of a debt instrument over its issue price constitutes original issue discount ("OID"). In general, federal income tax regulations relating to OID (the "OID Rules") require OID to be included in income as interest under the constant yield method over the term of the debt instrument, in advance of receiving the cash attributable to such amount, regardless of the holder's method of accounting. However, if the amount of the OID is de minimis (i.e., less than 0.25% times the number of complete years to maturity (which is eight in the case of the Notes)), then the OID shall be treated as zero for purposes of the OID Rules and, therefore, no amount of OID is required to be included in income in advance of receiving the cash attributable to such amount under such OID Rules. We expect the discount on the Notes to be de minimis under the OID Rules and, therefore, the amount of the OID on the Notes will be treated as zero under the OID Rules. Please consult your tax adviser regarding your treatment of discounts on the Notes.

Registration default and redemption and repurchase rights

As described elsewhere in this prospectus, we will pay additional interest on the Notes if a registration statement for freely tradeable exchange notes does not become effective within the required time period. In addition, as described elsewhere in this prospectus, we may under specified circumstances be required to repurchase the Notes. Based on our current expectations, the chance that we will pay such additional interest or be required to repurchase or redeem the Notes is remote. Accordingly, we intend to take the position that these contingent payments do not, as of the issue date, cause the Notes to have OID and do not affect the yield to maturity or the maturity date of the Notes. You may not take a contrary position unless you disclose your contrary position in the proper manner to the IRS.

We have the option to repurchase the Notes under specified circumstances at a premium to the issue price. If we were to exercise this option, the yield on the Notes would be greater than it would otherwise be. Thus, under special rules governing this type of unconditional option, for tax purposes, we will be deemed not to exercise this option, and the possibility of this redemption premium will not affect the amount of interest income you recognize in advance of any such redemption premium.

You should consult your tax adviser with respect to the contingent payments and optional redemption rights described above. If, contrary to our expectations, we pay such additional interest or repurchase or redeem the Notes, or if the IRS takes the position that certain of the payments described were not remote as of the issue date, the amount and timing of interest income you must include in taxable income may have to be redetermined.

Sale, exchange or retirement of the Notes

On the sale, exchange (other than in the exchange offer) or retirement of the Notes:

- You will have taxable gain or loss equal to the difference between the amount received by you (other than amounts representing accrued and unpaid interest) and your adjusted tax basis in the Notes. Your tax basis is the cost of the Notes to you, decreased by any principal payments you receive with respect to the Notes.
- Your gain or loss will generally be a capital gain or loss and will be a long-term capital gain or loss if you held the Notes for more than one year. The deductibility of capital losses is subject to limitation.
- If you sell the Notes between interest payment dates, a portion of the amount you receive will reflect interest that has accrued on the Notes but has not yet been paid by the sale date. That amount is treated as ordinary interest income and not as sale proceeds.
- You should not have taxable gain or loss on the exchange of outstanding notes for exchange notes. Instead, your basis in the outstanding notes should carry over to the exchange notes received and the holding period of the exchange notes should include the holding period of the outstanding notes surrendered.

Information reporting and backup withholding

Under the tax rules concerning information reporting and backup withholding to the IRS:

- If you hold the Notes through a broker or other securities intermediary, the intermediary must provide information to the IRS and to you on IRS Form 1099 concerning interest and retirement proceeds on the Notes, unless an exemption applies.

[Table of Contents](#)

- Similarly, unless an exemption applies, you must provide the intermediary or us with your taxpayer identification number for use in reporting information to the IRS. If you are an individual, this is generally your social security number. You may also be required to comply with other IRS requirements concerning information reporting, including a certification that you are not subject to backup withholding and that you are a U.S. person.
- If you are subject to these requirements but do not comply, the intermediary must withhold a percentage of all amounts payable to you on the Notes, including principal payments. Under current law, this percentage is 28% through 2010, and 31% thereafter. This is called backup withholding. Backup withholding may also apply if we are notified by the IRS that such withholding is required or that the taxpayer identification number you provided is incorrect.
- Backup withholding is not an additional tax. You may use the withheld amounts, if any, as a credit against your federal income tax liability provided that the required procedures are followed.
- All individuals are subject to these requirements. Some non-individual holders, including all corporations, tax-exempt organizations and individual retirement accounts, are exempt from these requirements.

Tax consequences to non-U.S. holders

This section applies to you if you are a non-U.S. holder.

Interest

Subject to the discussion below concerning effectively connected income and backup withholding, payments of interest on the Notes by us or any paying agent to you will not be subject to U.S. federal withholding tax, provided that either:

- pursuant to the “portfolio interest” exception:
 - you do not own, actually or constructively, 10% or more of the combined voting power of all classes of our stock entitled to vote,
 - you are not a controlled foreign corporation (within the meaning of the Code) that is related, directly or indirectly, to us,
 - you are not a bank receiving interest on the Notes on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of your trade or business,
 - you certify to us or our paying agent on IRS Form W-8BEN (or appropriate substitute form) under penalties of perjury, that you are not a U.S. person, provided that if you hold the Notes through a financial institution or other agent acting on your behalf, you will be required to provide appropriate documentation to the agent and your agent will then be required to provide certification to us or our paying agent, either directly or through other intermediaries; or
- you are otherwise entitled to the benefits of an income tax treaty under which such interest is exempt from U.S. federal withholding tax, and you or your agent provides to us a properly executed IRS Form W-8BEN (or an appropriate substitute form evidencing eligibility for the exemption).

Payments of interest on the Notes that do not meet the above-described requirements will be subject to a U.S. federal income tax of 30% (or such lower rate provided by an applicable income

[Table of Contents](#)

tax treaty if you establish that you qualify to receive the benefits of such treaty) collected by means of withholding. However, if you have purchased a Note with bond premium please see your own tax advisor regarding the application of the bond premium rules.

Sale, exchange or retirement of the Notes

Subject to the discussion below concerning effectively connected income and backup withholding, you will not be subject to U.S. federal income tax on any gain realized on the sale, exchange or retirement of the Notes unless you are an individual, you are present in the United States for at least 183 days during the year in which you dispose of the Notes, and other conditions are satisfied. Notwithstanding this, the exchange of outstanding notes for Notes will not be a taxable sale or exchange. For additional information regarding the exchange, see “—Tax consequences to U.S. holders—Sale, exchange or retirement of the Notes.”

Effectively connected income

The preceding discussion assumes that the interest and gain received by you is not effectively connected with the conduct by you of a trade or business in the United States. If you are engaged in a trade or business in the United States and your investment in a Note is effectively connected with such trade or business:

- You will be exempt from the 30% withholding tax on interest (provided a certification requirement, generally on IRS Form W-8ECI, is met) and will instead generally be subject to regular U.S. federal income tax on any interest and gain with respect to the Notes in the same manner as if you were a U.S. holder.
- If you are a foreign corporation, you may also be subject to an additional branch profits tax of 30% or such lower rate provided by an applicable income tax treaty if you establish that you qualify to receive the benefits of such treaty.
- If you are eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax only if it is also attributable to a permanent establishment maintained by you in the United States.

U.S. federal estate tax

A Note held or beneficially owned by an individual who, for estate tax purposes, is not a citizen or resident of the United States at the time of death will not be includable in the decedent's gross estate for U.S. estate tax purposes, provided that (i) such holder or beneficial owner did not at the time of death actually or constructively own 10% or more of the combined voting power of all of our classes of stock entitled to vote, and (ii) at the time of death, payments with respect to such Note would not have been effectively connected with the conduct by such holder of a trade or business in the United States. In addition, the U.S. estate tax may not apply with respect to such Note under the terms of an applicable estate tax treaty.

Information reporting and backup withholding

U.S. rules concerning information reporting and backup withholding applicable to non-U.S. holders are as follows:

- Interest payments you receive will be automatically exempt from the usual backup withholding rules if such payments are subject to the 30% withholding tax on interest or if

[Table of Contents](#)

they are exempt from that tax by application of a tax treaty or the “portfolio interest” exception. The exemption does not apply if the withholding agent or an intermediary knows or has reason to know that you should be subject to the usual information reporting or backup withholding rules. In addition, information reporting may still apply to payments of interest (on Form 1042-S) even if certification is provided and the interest is exempt from the 30% withholding tax.

- Sale proceeds you receive on a sale of your Notes through a broker may be subject to information reporting and/or backup withholding if you are not eligible for an exemption, or do not provide the certification described above. In particular, information reporting and backup withholding may apply if you use the U.S. office of a broker, and information reporting (but generally not backup withholding) may apply if you use the foreign office of a broker that has certain connections to the United States.
- Copies of the information returns reporting such interest and withholding may be made available to the tax authorities in the country in which a non-U.S. holder is a resident under the provisions of an applicable income tax treaty or agreement.
- Backup withholding is not an additional tax. You may use the withheld amount, if any, as a credit against your federal income tax liability, provided that the required procedures are followed.

We suggest that you consult your tax advisor concerning the application of information reporting and backup withholding rules.

Plan of distribution

Each broker-dealer that receives Notes for its own account in the exchange offer must acknowledge that it will deliver a prospectus together with any resale of those Notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer for the resale of Notes received in exchange for outstanding notes where those outstanding notes were acquired as a result of market-making or other trading activities. We have agreed that for a period of up to 180 days after the expiration date of the exchange offer, we will make this prospectus, as amended or supplemented, available to any broker-dealer that requests it in the letter of transmittal for use in any such resale.

We will not receive any proceeds from any sale of Notes by broker-dealers or any other persons. Notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the Notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such Notes. Any broker-dealer that resells Notes that were received by it for its own account pursuant to the exchange offer and any broker-dealer that participates in a distribution of such Notes may be deemed to be an “underwriter” within the meaning of the Securities Act and any profit on any such resale of Notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act.

For a period of 180 days from the date on which the exchange offer is consummated, or such shorter period as will terminate when all outstanding notes acquired by broker-dealers for their own accounts as a result of market-making or other trading activities have been exchanged for exchange notes and such exchange notes have been resold by such broker-dealers, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in any letter of transmittal. We have agreed to pay all expenses incident to our performance of, or compliance with, the registration rights agreement and will indemnify the holders of outstanding notes, including any broker-dealers, and specified parties related to such holders, against specified types of liabilities, including liabilities under the Securities Act.

If you are an affiliate of Domino's or are engaged in, or intend to engage in, or have an agreement or understanding to participate in, a distribution of the exchange notes, you cannot rely on the applicable interpretations of the SEC and you must comply with the registration requirements of the Securities Act in connection with any resale transaction involving the Notes.

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements

(1) Description of business and summary of significant accounting policies

Principles of consolidation

The accompanying consolidated financial statements include the accounts of Domino's, Inc. (Domino's), a Delaware corporation, and its subsidiaries (collectively, the Company). All significant intercompany accounts and transactions have been eliminated. Domino's is a wholly-owned subsidiary of TISM, Inc. (the Parent). The Parent is the surviving entity from a leveraged recapitalization in December 1998 (the Recapitalization).

Description of business

The Company is primarily engaged in the following business activities: (1) retail sales through Company-owned Domino's Pizza stores, (2) sales of food, equipment and supplies to Company-owned and franchised Domino's Pizza stores through Company-owned distribution centers, and (3) receipt of royalties and fees from domestic and international Domino's Pizza franchisees.

Fiscal year

The Company's fiscal year ends on the Sunday closest to December 31. The 2000 fiscal year ended December 31, 2000; the 2001 fiscal year ended December 30, 2001; and the 2002 fiscal year ended December 29, 2002. Each of these fiscal years consists of fifty-two weeks.

Cash and cash equivalents

Cash equivalents consist of highly liquid investments with maturities of three months or less at the date of purchase. These investments are carried at cost, which approximates fair value.

Inventories

Inventories are valued at the lower of cost (on a first-in, first-out basis) or market.

Inventories at December 30, 2001 and December 29, 2002 are comprised of the following:

(Dollars in thousands)	2001	2002
Food	\$ 15,479	\$ 16,123
Equipment and supplies	6,609	5,709
Inventories	\$ 22,088	\$ 21,832

Notes receivable

During the normal course of business, the Company may provide financing to franchisees (i) to stimulate franchise store growth, (ii) to finance the sale of Company-owned stores to franchisees, (iii) to facilitate new equipment rollouts, or (iv) to otherwise assist a franchisee. Substantially all

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

of the related notes receivable require monthly payments of principal and interest, or monthly payments of interest only, generally ranging from 10% to 12%, with balloon payments of the remaining principal due one to ten years from the original issuance date. Related interest income is included in revenues. Such notes are generally secured by the related assets or business. The carrying amounts of these notes approximate fair value.

Property, plant and equipment

Additions to property, plant and equipment are recorded at cost. Repair and maintenance costs are expensed as incurred. Depreciation for financial reporting purposes is provided using the straight-line method over the estimated useful lives of the related assets. Estimated useful lives are generally as follows (in years):

Buildings	20
Leasehold and other improvements	10
Equipment	3–12

Depreciation expense was approximately \$14.1 million, \$16.0 million and \$19.5 million in 2000, 2001 and 2002, respectively.

Impairments of long-lived assets

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company evaluates the potential impairment of long-lived assets based on various analyses including the projection of undiscounted cash flows, whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the carrying amount of a long-lived asset exceeds the amount of the expected future undiscounted cash flows, an impairment loss is recognized and the asset is written down to its estimated fair value. No impairment losses of long-lived assets have been recognized in 2000, 2001 or 2002.

Investments in marketable securities

Investments in marketable securities include investments in various funds made by eligible individuals as part of our deferred compensation plan (Note 5). These investments are stated at aggregate fair value, are restricted and have been placed in a rabbi trust whereby the amounts are irrevocably set aside to fund the Company's obligations under the deferred compensation plan.

Deferred financing costs

Deferred financing costs include debt issuance costs primarily incurred by the Company as part of the Recapitalization. Amortization is provided using the effective interest rate method over the terms of the respective debt instruments to which the costs relate and is included in interest expense.

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

In connection with the consummation of the 2002 Agreement (Note 2), the Company expensed financing costs of approximately \$4.5 million. Amortization of deferred financing costs, including the aforementioned \$4.5 million, was approximately \$6.6 million, \$6.0 million and \$10.0 million in 2000, 2001 and 2002, respectively.

Goodwill

Goodwill, primarily arising from franchise store acquisitions, was amortized using the straight-line method over periods not exceeding ten years for fiscal years prior to 2002. Amortization expense was approximately \$2.3 million and \$2.0 million in 2000 and 2001, respectively. The Company adopted SFAS No. 142, "Goodwill and Other Intangibles", effective December 31, 2001 and, accordingly, ceased amortizing goodwill. In addition, the Company performed the required transition impairment test and determined that no impairment adjustment was required as of the date of adoption. The Company also performed its annual impairment test at December 29, 2002 and determined that no impairment adjustment was required.

SFAS No. 142 requires prospective application and does not permit restatement of prior period financial statements. Had this Statement been applied in prior years, net income would have been approximately \$26.7 million and \$38.1 million in 2000 and 2001, respectively.

During 2002, the Company recorded approximately \$14.6 million of goodwill in connection with the acquisition of the Arizona Stores (Note 9). This goodwill is expected to be deductible for tax purposes.

Capitalized software

Capitalized software is recorded at cost and includes purchased, internally developed and externally developed software used in the Company's operations. Amortization for financial reporting purposes is provided using the straight-line method over the estimated useful lives of the software, which range from two to seven years. During 2002, the Company expensed approximately \$5.3 million of certain capitalized software costs, which is included in general and administrative expense as a loss on disposal of assets. Amortization expense was approximately \$5.9 million, \$9.4 million and \$8.5 million in 2000, 2001 and 2002, respectively.

Other assets

Other assets primarily include deposits, investments in international franchisees, covenants not-to-compete and other intangibles primarily arising from franchise acquisitions, and, at December 30, 2001, assets relating to the fair value of derivatives. Amortization expense of covenants not-to-compete is provided using the straight-line method or an accelerated method (Note 7) and was approximately \$11.2 million, \$5.5 million and \$185,000 in 2000, 2001 and 2002, respectively. Amortization of certain other intangible assets is provided using the straight-line method and was approximately \$94,000 in 2000 and 2001, respectively, and \$42,000 in 2002.

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

Insurance reserves

The Company's health insurance program provides coverage for life, medical, dental and accidental death and dismemberment (AD&D) claims. Self-insurance limitations for medical per a covered individual's lifetime are \$2.0 million in 2000, 2001 and 2002. The AD&D and life insurance components of the health insurance program are fully insured by the Company through third-party insurance carriers.

In December 1998, the Company entered into a guaranteed cost, combined casualty insurance program that is effective for the period from December 1998 to December 2001. This program covers insurance claims on a first dollar basis for workers' compensation, general liability and owned and non-owned automobile liabilities. Total insurance limits under this program are \$106.0 million per occurrence for general liability and owned and non-owned automobile liabilities and up to the applicable statutory limits for workers' compensation.

The Company is partially self-insured for workers' compensation, general liability and owned and non-owned automobile liabilities for certain periods prior to December 1998 and for periods after December 2001. The Company is generally responsible for up to \$1.0 million per occurrence under these retention programs for workers' compensation and general liability. The Company is also generally responsible for between \$500,000 and \$3.0 million per occurrence under these retention programs for owned and non-owned automobile liabilities. Total insurance limits under these retention programs vary depending on the year covered and range up to \$108.0 million per occurrence for general liability and owned and non-owned automobile liabilities and up to the applicable statutory limits for workers' compensation.

Insurance reserves, other than health insurance reserves, are determined using actuarial estimates from an independent third party. These estimates are based on historical information along with certain assumptions about future events. Changes in assumptions for such factors as medical costs and legal actions, as well as changes in actual experience, could cause these estimates to change in the near term. In management's opinion, the insurance reserves at December 29, 2002 are sufficient to cover related losses.

Other accrued liabilities

Current and long-term other accrued liabilities primarily include accruals for sales, income and other taxes, legal matters, marketing and advertising expenses, store operating expenses, deferred gains on store sales, liabilities relating to the fair value of derivatives, deferred compensation liabilities and, at December 30, 2001, a consulting fee payable to our former majority stockholder (Note 7). Gains on store sales that are financed by the Company with a note receivable are deferred and are recognized in income as the related note receivable payments are received.

Foreign currency translation

The Company's foreign entities use their local currency or the U.S. dollar as the functional currency, in accordance with the provisions of SFAS No. 52, "Foreign Currency Translation."

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

Where the functional currency is the local currency, the Company translates net assets into U.S. dollars at yearend exchange rates, while income and expense accounts are translated at average annual exchange rates. Currency translation adjustments are included in accumulated other comprehensive loss and other foreign currency transaction gains and losses are included in determining net income.

Revenue recognition

Domestic Company-owned store revenues are comprised of retail sales through Company-owned stores located in the contiguous U.S. and are recognized when the items are delivered to or carried out by customers.

Domestic franchise revenues are primarily comprised of royalties and, to a lesser extent, fees and other income from franchisees with operations in the contiguous U.S. Royalty revenues are recognized when the items are delivered to or carried out by franchise customers.

Domestic distribution revenues are primarily comprised of sales of food, equipment and supplies to franchised stores located in the contiguous U.S. Revenues from the sales of food are recognized upon delivery of the food to franchisees while revenues from the sales of equipment and supplies are recognized upon shipment of the related products to franchisees.

International revenues are primarily comprised of sales of food, and royalties and fees from foreign, Alaskan and Hawaiian franchisees and are recognized consistently with the policies applied for revenues generated in the contiguous U.S.

Advertising

Advertising costs are expensed as incurred. Advertising expense, which relates primarily to Company-owned stores, was approximately \$38.1 million, \$35.3 million and \$36.0 million during 2000, 2001 and 2002, respectively.

Domestic Stores (Note 8) are required to contribute a certain percentage of sales to the Domino's National Advertising Fund, Inc. (DNAF), a not-for-profit subsidiary that administers the Domino's Pizza system's national and local advertising activities. Included in advertising expense was national advertising contributions from Company-owned stores to DNAF of approximately \$11.3 million, \$10.9 million and \$11.3 million in 2000, 2001 and 2002, respectively. DNAF also received national advertising contributions from franchisees of approximately \$68.1 million, \$73.6 million and \$76.5 million during 2000, 2001 and 2002, respectively. Franchisee contributions and offsetting expenses are presented net in the accompanying statements of income.

Derivative instruments

During 1999, the Company entered into two interest rate swap agreements (the 1999 Swap Agreements) to effectively convert the variable Eurodollar component of the effective interest rate on a portion of the Company's debt under the 1998 Agreement (Note 2) to a fixed rate of

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

5.12% beginning in January 1999 and continuing through December 2001, in an effort to reduce the impact of interest rate changes on income. The total notional amount under the 1999 Swap Agreements was initially \$179.0 million and decreased over time to a total notional amount of \$167.0 million in December 2001. The 1999 Swap Agreements expired on December 31, 2001.

On January 1, 2001, the Company adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", and two related Statements which require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value. Adoption of these Statements resulted in the recognition of an approximately \$2.7 million derivative asset relating to the fair value of the 1999 Swap Agreements which the Company designated as cash flow hedges.

During 2001 and 2002, the Company entered into several interest rate agreements to effectively convert the variable Eurodollar component of the effective interest rate on a portion of the Company's debt under the 1998 Agreement and the 2002 Agreement to various fixed rates, in an effort to reduce the impact of interest rate changes on income. The Company has designated all of these agreements as cash flow hedges. The Company has determined that no ineffectiveness exists related to these derivatives. Related gains and losses upon settlement of these derivatives are recorded in interest expense. These agreements are summarized as follows:

Derivative	Total Notional Amount	Term	Rate
Interest Rate Collar	\$70.0 million	June 2001—June 2003	3.86%—Floor 6.00%—Ceiling
Interest Rate Swap	\$70.0 million	June 2001—June 2004	4.90%
Interest Rate Swap	\$35.0 million	September 2001—September 2003	3.645%
Interest Rate Swap	\$35.0 million	September 2001—September 2004	3.69%
Interest Rate Swap	\$75.0 million	August 2002—June 2005	3.25%

At December 29, 2002, the fair value of all of the Company's derivative instruments is a net liability of approximately \$7.9 million, of which \$6.0 million is included in current other accrued liabilities and \$1.9 million is included in long-term other accrued liabilities.

New accounting pronouncements

In April 2002, the Financial Accounting Standards Board (FASB) issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13 and Technical Corrections", which, among other things, eliminates the requirement to report certain extinguishments of debt as extraordinary items. As a result, gains and losses from extinguishment of debt should be classified as extraordinary items only if they meet the criteria of Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations—Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." The Company adopted SFAS No. 145 effective December 31, 2001. Accordingly, the gain on extinguishment of debt of approximately \$181,000 (net of tax provision

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

of approximately \$111,000) in 2000 and loss on extinguishment of debt of approximately \$327,000 (net of tax benefit of approximately \$207,000) in 2001, both previously recorded as extraordinary, have been reclassified in the accompanying statements of income.

In November 2002, the FASB issued FASB Interpretation No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (FIN 45). FIN 45 clarifies the requirements of SFAS No. 5 "Accounting for Contingencies", relating to a guarantor's accounting for, and disclosure of, the issuance of certain types of guarantees. The interpretation's guidance is required to be followed beginning in fiscal 2003 and is not expected to have a material effect on the Company's results of operations or financial condition.

Supplemental disclosures of cash flow information

The Company paid interest of approximately \$69.9 million, \$60.6 million and \$51.8 million during 2000, 2001 and 2002, respectively. Cash paid for income taxes was approximately \$8.7 million, \$11.4 million and \$24.0 million in 2000, 2001 and 2002, respectively.

The Company financed the sale of certain Company-owned stores to franchisees with notes totaling approximately \$5.6 million, \$7.0 million and \$811,000 in 2000, 2001 and 2002, respectively, including \$4.4 million of notes to a former minority Parent stockholder in 2000 and \$450,000 of notes to a former minority Parent stockholder in 2002.

During 2001, the Company distributed approximately \$1.8 million of accounts receivable to the Parent.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain amounts from fiscal 2000 and 2001 have been reclassified to conform to the fiscal 2002 presentation.

(2) Financing arrangements

At December 30, 2001 and December 29, 2002, long-term debt consisted of the following:

(Dollars in thousands)	2001	2002
2002 Agreement—Term Loan	\$ —	\$ 363,175
1998 Agreement—Term Loan A	139,114	—

Less—current portion	43,157	2,843
	<u>\$ 611,532</u>	<u>\$ 599,180</u>

On December 21, 1998, Domino's and a subsidiary entered into a credit agreement (the 1998 Agreement) with a consortium of banks primarily to finance a portion of the Recapitalization, to repay existing indebtedness under a previous credit agreement and to provide available borrowings for use in the normal course of business. The 1998 Agreement consisted of a \$100 million revolving credit facility and three term loans (Term Loan A, Term Loan B and Term Loan C, respectively) totaling \$445 million in aggregate initial borrowings.

Effective July 29, 2002, the Company entered into a new credit agreement (the 2002 Agreement) with a consortium of banks and used the proceeds to repay borrowings outstanding under the 1998 Agreement. The 2002 Agreement contains more favorable interest rate margins and improved flexibility as compared to the 1998 Agreement. The 2002 Agreement provides the following credit facilities: a term loan (the Term Loan) and a revolving credit facility (the Revolver). The aggregate borrowings available under the 2002 Agreement are \$465 million.

The 2002 Agreement provides borrowings of \$365 million under the Term Loan. The Term Loan was initially fully borrowed. Borrowings under the Term Loan bear interest, payable at least quarterly, at either (i) the higher of (a) the specified bank's prime rate (4.25% at December 29, 2002) and (b) 0.50% above the Federal Reserve reported overnight funds rate, each plus an applicable margin of between 1.25% to 1.50%, or (ii) the Eurodollar rate (1.80% at December 29, 2002) plus an applicable margin of between 2.25% to 2.50%, with margins determined based upon the Company's ratio of indebtedness to earnings before interest, taxes, depreciation and amortization (EBITDA) (Note 8), as defined. At December 29, 2002, the Company's effective borrowing rate was 4.30% for the Term Loan. As of December 29, 2002, all borrowings under the Term Loan were under a Eurodollar contract with an interest period of 90 days. The 2002 Agreement requires Term Loan principal payments of \$3.65 million per year during the first five years of the agreement with equal quarterly payments totaling \$346.75 million in the final year of the agreement. The final scheduled principal payment on the outstanding borrowings under the Term Loan is due in June 2008.

Domino's, Inc. and Subsidiaries

Notes to consolidated financial statements — (continued)

The 2002 Agreement also provides for borrowings of up to \$100 million under the Revolver, of which up to \$60 million is available for letter of credit advances. Borrowings under the Revolver (excluding letters of credit) bear interest, payable at least quarterly, at either (i) the higher of (a) the specified bank's prime rate and (b) 0.50% above the Federal Reserve reported overnight funds rate, each plus an applicable margin of between 0.50% to 1.50%, or (ii) the Eurodollar rate plus an applicable margin of between 1.50% to 2.50%, with margins determined based upon the Company's ratio of indebtedness to EBITDA, as defined. The Company also pays a commitment fee on the unused portion of the Revolver ranging from 0.375% to 0.50%, determined based upon the Company's ratio of indebtedness to EBITDA, as defined. At December 29, 2002, the commitment fee for such unused borrowings is 0.50%. The fee for letter of credit amounts outstanding ranges from 1.50% to 2.50%. At December 29, 2002, the fee for letter of credit amounts outstanding is 2.50%. At December 29, 2002, there is \$82.1 million in available borrowings under the Revolver, with \$17.9 million of letters of credit outstanding. The Revolver expires in June 2007.

The borrowings under the 2002 Agreement are guaranteed by the Parent, are jointly and severally guaranteed by each of Domino's domestic subsidiaries, and are secured by substantially all of the assets of the Company.

The 2002 Agreement contains certain financial and non-financial covenants that, among other restrictions, require the maintenance of certain financial ratios related to interest coverage and leverage, as defined in the 2002 Agreement. At December 29, 2002, the Company is in compliance with its covenants. The 2002 Agreement also restricts the Company's ability to pay dividends on or redeem or purchase the Company's capital stock, incur additional indebtedness, make investments, use assets as security in other transactions and sell certain assets or merge with or into other companies.

On December 21, 1998, the Company issued \$275 million of 10³/₈% Senior Subordinated Notes due 2009 (the Notes) requiring semi-annual interest payments, which began July 15, 1999. Before January 15, 2004, the Company may, at a price above par, redeem all, but not part, of the Notes if a change in control occurs, as defined in the Notes. Beginning January 15, 2004, the Company may redeem some or all of the Notes at fixed redemption prices, ranging from 105.19% of par in 2004 to 100% of par in 2007 through maturity. In the event of a change in control, as defined, the Company will be obligated to repurchase Notes tendered at the option of the holders at a fixed price. The Notes are guaranteed by certain Domino's subsidiaries (non-guarantor subsidiaries do not represent a significant amount of revenues and assets) and are subordinated in right of payment to all existing and future senior debt of the Company.

The indenture related to the Notes restricts the Company and certain subsidiaries from, among other restrictions, paying dividends or redeeming equity interests, with certain specified exceptions, unless a minimum fixed charge coverage ratio is met and, in any event, such payments are limited to 50% of the Company's cumulative net income from January 4, 1999 to the payment date plus the net proceeds from any capital contributions or the sale of equity interests.

As of December 29, 2002, management estimates the fair value of the Notes to be approximately \$259.3 million. The carrying amounts of the Company's other debt approximate fair value.

In 2000, the Company amended the 1998 Agreement whereby an amount not to exceed \$30.0 million was made available for the early retirement of Notes at the Company's option. With the execution of the 2002 Agreement, an additional amount not to exceed \$30.0 million was made available for the early retirement of Notes at the Company's option. In 2000, 2001 and 2002, the Company retired \$10.0 million, \$6.0 million and \$20.6 million, respectively, of the Notes through open market transactions using funds generated from operations. These items include approximately \$583,000, \$317,000 and \$944,000 in deferred financing cost amortization expense in 2000, 2001 and 2002, respectively, and \$207,000 in 1998 Agreement amendment fees in 2000. As of December 29, 2002, the Company had \$23.0 million remaining under the 2002 Agreement for future Notes repurchases.

At December 29, 2002 an affiliate of a stockholder of the Parent had Term Loan holdings of \$42.9 million and Notes holdings of \$16.5 million. Interest expense to this affiliate related to the 1998 Agreement, the 2002 Agreement and the Notes was approximately \$3.4 million, \$3.8 million, and \$2.0 million in 2000, 2001 and 2002, respectively.

Legal proceedings and related matters

The Company is a party to lawsuits, revenue agent reviews by taxing authorities and legal proceedings, of which the majority involve workers' compensation, employment practices liability, general liability, and automobile and franchisee claims arising in the ordinary course of business. In management's opinion, these matters, individually and in the aggregate, will not have a significant adverse effect on the financial condition of the Company, and the established reserves adequately provide for the estimated resolution of such claims.

As of December 29, 2002, the classification of net deferred income taxes is summarized as follows:

(Dollars in thousands)	Current	Long-term	Total
Deferred tax assets	\$ 6,809	\$69,142	\$75,951
Deferred tax liabilities	—	(8,855)	(8,855)
Net deferred income taxes	\$ 6,809	\$60,287	\$67,096

Realization of the Company's deferred tax assets is dependent upon many factors, including, but not limited to, the Company's ability to generate sufficient taxable income. Although realization of the Company's net deferred tax assets is not assured, management believes it is more likely than not that the net deferred tax assets will be realized. On an ongoing basis, management will assess whether it remains more likely than not that the net deferred tax assets will be realized. As of December 29, 2002, the Company has approximately \$4.5 million of foreign loss carryovers expiring from 2004 through 2007 for which a valuation allowance has been provided.

(5) Employee benefits

The Company has a retirement savings plan which qualifies under Internal Revenue Code Section 401(k). All employees of the Company who have completed 1,000 hours of service and are at least 21 years of age are eligible to participate in the plan. The plan requires the Company to match 50% of the first 6% of employee contributions per participant. These matching contributions vest immediately. The charges to operations for Company contributions to the plan were \$2.2 million, \$2.3 million and \$2.4 million for 2000, 2001 and 2002, respectively.

The Company has established a nonqualified deferred compensation plan available for the members of the Company's leadership team and certain other key employees. Under this plan, the participants may defer up to 40% of their annual compensation. The participants direct the investment of their deferred compensation within several investment funds. The Company is not required to contribute and has not contributed to this plan during 2000, 2001 and 2002.

(6) Financial instruments with off-balance sheet risk

The Company is a party to letters of credit with off-balance sheet risk. The Company's exposure to credit loss for letters of credit and financial guarantees is represented by the contractual amounts of these instruments. The Company uses the same credit policies in making conditional obligations as it does for on-balance sheet instruments. Total conditional commitments under letters of credit as of December 29, 2002 are \$17.9 million. At December 30, 2001, \$2.5 million of letters of credit were included in current other accrued liabilities.

(7) Related party transactions

Leases

The Company leases its corporate headquarters under an operating lease agreement with a partnership owned by our former majority Parent stockholder. Total lease expense related to this lease was \$4.4 million, \$4.5 million and \$4.6 million for 2000, 2001 and 2002, respectively.

At December 29, 2002, aggregate future minimum lease commitments under this lease are as follows:

(Dollars in thousands)

	<hr/> \$ 54,637 <hr/>

Distributions

During the normal course of business, the Company may make discretionary distributions to the Parent.

During 2001, the Company distributed approximately \$2.7 million to the Parent, which used the proceeds to satisfy Recapitalization-related obligations to our former majority Parent stockholder and certain members of his family.

During 2002, the Company distributed approximately \$9.9 million to the Parent, which primarily used the proceeds to repurchase Parent stock.

Consulting agreement

As part of the Recapitalization, the Company entered into a \$5.5 million, ten-year consulting agreement with our former majority Parent stockholder. The Company paid \$500,000 in each of 2000 and 2001 under this agreement. During 2002, the Company and our former majority Parent stockholder mutually agreed to terminate the consulting agreement. The Company paid \$2.9 million to our former majority Parent stockholder to effect such termination.

Covenant not-to-compete

As part of the Recapitalization, the Parent entered into a covenant not-to-compete with our former majority Parent stockholder. The Parent contributed this asset to the Company in 1998. Amortization expense for this covenant not-to-compete was provided using an accelerated

method over a three-year period and was approximately \$10.9 million and \$5.3 million in 2000 and 2001, respectively. As of December 30, 2001, this asset was fully amortized.

Management agreement and consulting services

As part of the Recapitalization, the Parent and its subsidiaries (collectively, the Group) entered into a management agreement with an affiliate of a stockholder of the Parent to provide the Group with certain management services. The Company is committed to pay an amount not to exceed \$2.0 million per year on an ongoing basis for management services as defined in the management agreement. The Company incurred and paid \$2.0 million for management services in each of 2000, 2001 and 2002, respectively. These amounts are included in general and administrative expense. Furthermore, the Group must allow the affiliate to participate in the negotiation and consummation of future senior financing for any acquisition or similar transaction and pay the affiliate a fee, as defined in the management agreement.

Stockholder indemnification of legal settlement

In 2000, the Company settled a lawsuit that was outstanding at January 2, 2000 in which the Company agreed to pay the plaintiffs \$5.0 million for a full release of all related claims. This amount was recorded in general and administrative expense in 1999. The Company also recorded a related \$1.8 million benefit for income taxes. Additionally, our former majority Parent stockholder agreed to indemnify the Parent and paid the Parent \$4.0 million and \$521,000 in 2000 and 2002, respectively. The Parent then contributed these amounts to the Company. The Company recorded the \$4.0 million and \$521,000 as capital contributions in 1999 and 2002, respectively. The former majority Parent stockholder has no further obligation to the Company under the related indemnification agreement.

Financing arrangements

As part of the 2002 Agreement, the Company paid approximately \$2.3 million of financing costs to an affiliate of a Parent stockholder. A separate affiliate is counterparty to the \$70.0 million interest rate collar agreement (Note 1).

(8) Segment information

The Company has three reportable segments as determined by management using the "management approach" as defined in SFAS No. 131, "Disclosures About Segments of an Enterprise and Related Information": (1) Domestic Stores, (2) Domestic Distribution, and (3) International. The Company's operations are organized by management on the combined bases of line of business and geography. The Domestic Stores segment includes Company operations with respect to all franchised and Company-owned stores throughout the contiguous United States. The Domestic Distribution segment primarily includes the distribution of food, equipment and supplies to the Domestic Stores segment from the Company's regional distribution centers. The International segment primarily includes Company operations related to

its franchising business in foreign and non-contiguous United States markets and its food distribution business in Canada, France, the Netherlands, Alaska and Hawaii.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its segments and allocates resources to them based on EBITDA.

The tables below summarize the financial information concerning the Company's reportable segments for 2000, 2001 and 2002. Intersegment Revenues are comprised of sales of food, equipment and supplies from the Domestic Distribution segment to the Company-owned stores in the Domestic Stores segment. Intersegment sales prices are market based. The "Other" column as it relates to EBITDA and income from operations information below primarily includes corporate administrative costs. The "Other" column as it relates to capital expenditures primarily includes capitalized software and certain equipment and leasehold improvements. All amounts presented below are in thousands.

The following financial statement schedule of Domino's, Inc. and subsidiaries is included in Part II of the Registration Statement:

Consolidated Valuation and Qualifying Accounts	S-1

All other schedules for which provision is made in the applicable accounting regulations of the Commission are not required under the related instructions, are inapplicable or not material, or the information called for thereby is otherwise included in the financial statements and therefore has been omitted.

Item 22. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4, 10(b), 22 or 13 of Form S-4, within one business day of receipt of such request, and to send the incorporated documents by first class mail or equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(c) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

(d) Insofar as indemnification for liabilities arising under Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by

controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(e) The undersigned registrants hereby undertake as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other Items of the applicable form.

(f) The undersigned registrants hereby undertake that every prospectus (i) that is filed pursuant to the immediately preceding paragraph or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act of 1933 and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Ladies and Gentlemen:

We have acted as counsel to Domino's, Inc., a Delaware corporation (the "Company"), and Domino's Pizza International, Inc., a Delaware corporation (the "Delaware Guarantor"), in connection with (i) the proposed issuance by the Company of up to \$403,000,000 aggregate principal amount of its 8¼% Senior Subordinated Notes due 2011 (the "Exchange Notes") registered under the Securities Act of 1933, as amended (the "Securities Act"), in exchange for a like principal amount of the Company's outstanding 8¼% Senior Subordinated Notes due 2011 (the "Original Notes"), which have not been so registered (the "Exchange Offer"), and (ii) the guarantee of the Exchange Notes by each of the Guarantors (as defined below) (the "Guarantees").

The Exchange Notes will be issued under an Indenture dated as of June 25, 2003 (the "Indenture") by and among the Company and Domino's Pizza, LLC, Domino's Franchise Holding Co., Domino's Pizza International Payroll Services, Inc., Domino's Pizza-Government Services Division, Inc., Domino's Pizza PMC, Inc., Domino's Pizza NS Co. and the Delaware Guarantor (collectively, the "Guarantors") and BNY Midwest Trust Company, as indenture trustee. The terms of the Guarantees are contained in the Indenture, and the Guarantees will be issued pursuant to the Indenture. This opinion is furnished in accordance with the requirements of Item 601(b)(5) of Regulation S-K under the Securities Act.

We have examined and relied upon the information set forth in the Registration Statement on Form S-4, as amended (the "Registration Statement"), filed by the Company and the Guarantors with the Securities and Exchange Commission (the "Commission") relating to the Exchange Offer and the Guarantees and such other records, agreements, certificates and documents that we have deemed necessary as a basis for the opinions expressed herein. As to questions of fact not independently verified by us, we have relied upon certificates of public officials and officers of the Company and the Delaware Guarantor.

We are members of the Bar of the State of New York and we do not express any opinion herein concerning any laws other than the federal laws of the United States of America, the laws of the State of New York and the corporate laws of the State of Delaware.

Based upon the foregoing and subject to the additional qualifications set forth below, we are of the opinion that:

1. The Exchange Notes have been duly authorized by all requisite corporate action of the Company and, when executed and authenticated in the manner provided for in the Indenture and delivered against surrender and cancellation of a like aggregate principal amount of Original Notes in accordance with the terms of the Exchange Offer, the Exchange Notes will (subject to the qualifications in the penultimate paragraph set forth below) constitute legal, valid and binding obligations of the Company entitled to the benefits of the Indenture and enforceable against the Company in accordance with their terms.
2. The Guarantee by the Delaware Guarantor has been duly authorized by all requisite corporate action of the Delaware Guarantor and, upon the due issuance of the Exchange Notes in accordance with the terms of the Indenture and the Exchange Offer, such Exchange Notes shall be entitled to the benefits of the Guarantee by the Delaware Guarantor, which will (subject to the qualifications in the penultimate paragraph set forth below) constitute a legal, valid and binding obligation of the Delaware Guarantor, enforceable against the Delaware Guarantor in accordance with its terms.

We express no opinion as to whether the Delaware Guarantor may guarantee or otherwise become liable for indebtedness incurred by the Company, including, without limitation, indebtedness evidenced by the Exchange Notes, except to the extent the Delaware Guarantor may be determined to have benefited from the incurrence of such indebtedness by the Company, or as to whether such benefit may be measured other than by the extent to which the proceeds of the indebtedness incurred by the Company are directly or indirectly made available to the Delaware Guarantor for its corporate purposes.

Our opinion that the Exchange Notes and the Guarantee by the Delaware Guarantor constitute the legal, valid and binding obligation of the Company and the Delaware Guarantor, respectively, enforceable against the Company and the Delaware Guarantor, respectively, in accordance with their respective terms, is subject to, and we express no opinion with respect to, (i) bankruptcy, insolvency, reorganization, receivership, liquidation, fraudulent conveyance, moratorium or similar laws of general application affecting the rights and remedies of creditors and secured parties, and (ii) general principles of equity. In addition, we express no opinion as to (i) the applicability of Section 548 of the Bankruptcy Code or any other fraudulent conveyance

provision, (ii) the extent to which broadly worded waivers may be enforced, or (iii) the extent to which provisions providing for conclusive presumptions or determinations, non-effectiveness of oral modifications, arbitration, submission to jurisdiction, waiver of or consent to service of process and venue or waiver of offset or defenses will be enforced.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to this firm under the caption "Legal matters" in the prospectus included therein. In giving this consent we do not thereby admit that we are included in the category of persons whose consent is required under Section 7 of the Securities Act or the rules and regulations of the Commission.

Very truly yours,

Gentlemen:

In connection with the registration under the Securities Act of 1933, as amended (the "Act"), of \$403,000,000 aggregate principal amount of the 8¼% Senior Subordinated Notes due 2011 (the "Exchange Notes") of Domino's, Inc. (the "Company") to be issued in exchange for the Company's outstanding unregistered 8¼% Senior Subordinated Notes due 2011 pursuant to (a) the Indenture dated as of June 25, 2003 (the "Indenture") by and among the Company, Domino's Franchise Holding Co., a Michigan corporation and a subsidiary of the Company ("Franchise"), Domino's Pizza PMC, Inc., a Michigan corporation and a subsidiary of the Company ("PMC"), Domino's Pizza LLC, a Michigan limited liability company and a subsidiary of the Company ("Pizza" and collectively with Franchise and PMC the "Michigan Subsidiary Guarantors"), the Company's other subsidiaries listed on the signature pages of the Indenture (the Michigan Subsidiary Guarantors and such other subsidiaries, the "Subsidiary Guarantors"), and BNY Midwest Trust Company, as trustee (the "Trustee"), and (b) the Registration Rights Agreement dated as of June 25, 2003 (the "Registration Rights Agreement") by and among the Company, the Subsidiary Guarantors, and J.P. Morgan Securities Inc., Banc of America Securities LLC, Banc One Capital Markets, Inc., Bear, Stearns & Co. Inc., Citigroup Global Markets Inc., Credit Suisse First Boston LLC, Goldman, Sachs & Co., and Lehman Brothers Inc., we, as special Michigan counsel to the Michigan Subsidiary Guarantors and at their request, have examined such corporate and limited liability company records, certificates, and other documents, and considered such questions of law, as we have considered necessary or appropriate for the purposes of this opinion.

Based on that examination, it is our opinion that:

1. The guaranty of the Exchange Notes by each of the Michigan Subsidiary Guarantors (the "Guaranty") has been duly authorized by each Michigan Subsidiary Guarantor.

2. We note that New York law has been selected as the law governing the Guaranty. Assuming, however, for purposes of this opinion, that Michigan law is the governing law or is otherwise relevant in determining validity or enforceability, when the Securities and Exchange Commission (the "Commission") declares the Company's registration statement on Form S-4, as amended, relating to the Exchange Notes (the "Registration Statement") effective, the Guaranty has been duly executed and delivered, and the Exchange Notes have been duly executed, authenticated, issued, and delivered in accordance with the terms of the Registration Rights Agreement and the Indenture, the Guaranty will constitute the valid and legally binding obligation of each Michigan Subsidiary Guarantor enforceable against each such Michigan Subsidiary Guarantor in accordance with its terms, subject to bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium, and similar laws relating to or affecting creditors' rights, to general equity principles, and to Section 345 of the Michigan Business Corporation Act (as to the effect of which we express no opinion). To the extent the choice of New York law as the governing law of the Guaranty would be an effective choice of law under principles of Section 187 of the *Restatement of Law, Conflicts of Law 2d*, such choice is an effective choice of law under the laws of the State of Michigan.

The foregoing opinion is limited to the laws of the State of Michigan, and we express no opinion as to the effect of the laws of any other jurisdiction.

With your approval, we have relied as to certain matters on information obtained from public officials and other sources believed by us to be responsible, and we have assumed (i) the due authorization, execution, and delivery of each of the Indenture and the Registration Rights Agreement by each party thereto other than the Michigan Subsidiary Guarantors, (ii) the due authorization, execution, and delivery of the Exchange Notes by the Company, (iii) that the Exchange Notes will conform to the specimens thereof examined by us, (iv) that the Trustee's certificates of authentication of the Exchange Notes will be manually signed by one of the Trustee's authorized officers, and (v) that the signatures on all documents examined by us are genuine and each copy of a manually signed document provided to us conforms to the manually signed original, assumptions which we have not independently verified.

Re: Registration Statement on Form S-4 (File Nos. 333-107774-01 and 333-107774-03).

Ladies and Gentlemen:

We have acted as special Texas counsel to Domino's Pizza—Government Services Division, Inc., a Texas corporation (the "Guarantor"), in connection with (i) the proposed issuance by Domino's, Inc., a Delaware corporation (the "Company"), of up to \$403,000,000 aggregate principal amount of its new 8¹/₄% Senior Subordinated Notes due 2011 (the "Exchange Notes") to be registered under the Securities Act of 1933, as amended (the "Act"), in exchange for a like principal amount of the Company's outstanding 8¹/₄% Senior Subordinated Notes due 2011 (the "Exchange Offer") and (ii) the guarantee of the Exchange Notes by each of the Subsidiary Guarantors (as defined below) (the "Guarantees") will be governed by, and will be issued pursuant to, the Indenture, dated as of June 25, 2003 (the "Indenture"), among the Company, the Guarantor and the other guarantors party thereto (such other guarantors and the Guarantor collectively, the "Subsidiary Guarantors") and BNY Midwest Trust, as trustee.

We have examined and relied upon the information set forth in the Registration Statement on Form S-4 (File Nos. 333-107774-01 and 333-107774-03) (the "Registration Statement") filed by the Company and the Subsidiary Guarantors with the Securities and Exchange Commission relating to the Exchange Offer and the Guarantees and such other documents and corporate records as we have deemed necessary or appropriate for purposes of this opinion. In addition, we have relied as to certain matters on information obtained from public officials, officers of the Guarantor and other sources believed by us to be responsible. As to questions of fact material to this opinion letter, we have, where relevant facts were not independently verified or established, relied solely upon certificates by officers of the Guarantor.

In the course of our examination, we have assumed the legal capacity of all natural persons, the genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photostatic copies and the authenticity of the originals of such latter documents. In making our examination of documents executed by parties other than the Guarantor, we have assumed that such parties had the power and authority to enter into and perform all obligations thereunder and have also assumed the due authorization, execution and delivery by such parties of such documents and the enforceability of such documents on such parties.

We express no opinion as to the laws of any jurisdiction other than those of the State of Texas and the Federal laws of the United States of America, and we assume no responsibility as to the applicability or the effect of the laws of any other jurisdiction. We call your attention to the fact that each of the Indenture and the Guarantees provides that it is to be governed by the laws of the State of New York. For purposes of this opinion, we have assumed with your permission that the laws of the State of New York are identical to the laws of the State of Texas. Accordingly, the opinions expressed herein are given as if the domestic substantive laws of the State of Texas govern the Indenture and the Guarantee without regard to the fact that the Indenture and the Guarantee provide that the laws of New York shall govern those instruments. Also, we have assumed that the Guarantee by the Guarantor reasonably may be expected to benefit, directly or indirectly, the Guarantor, and that no provisions in the Guarantee will violate public policy.

Based on the foregoing, and subject to the qualifications and limitations stated in this opinion letter, we are of the opinion that:

1. the Guarantee by the Guarantor has been duly authorized by all necessary corporate action on the part of the Guarantor; and
2. when the Registration Statement has become effective under the Act, the Exchange Notes have been duly executed and authenticated in accordance with the Indenture, the Guarantees have been endorsed on the Exchange Notes and executed as contemplated in the Indenture, and the Exchange Notes have been issued and sold as contemplated in the Registration Statement, the Guarantee by the Guarantor will be enforceable against the Guarantor, subject to bankruptcy, insolvency, fraudulent transfer, reorganization, receivership, moratorium and other similar laws of general applicability relating to or affecting creditors' rights and remedies and to the effect of general principles of equity whether applied by a court of law or equity.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the caption "Legal Matters" contained in the Prospectus included therein. In giving such consent, we do not thereby admit that we are in the category of persons whose consent is required under Section 7 of the Act.

This opinion letter has been furnished at your request and is to be used only in connection with the Guarantee while the Registration Statement is effective under the Act. This opinion letter may not be furnished, reproduced, distributed, disclosed to or relied upon by anyone or quoted from or referred to except as set forth in the preceding paragraph or with our prior written consent. This opinion letter is limited to the matters stated herein and no opinion may be implied or inferred beyond the matters expressly stated.

Re: Indenture dated as of June 25, 2003 among Domino's, Inc., a Delaware corporation, the Guarantors signatories thereto and BNY Midwest Trust Company, an Illinois trust company, as trustee

Ladies and Gentlemen:

We have been asked to render the opinions expressed herein in connection with that certain Indenture (including all Exhibits thereto, the "Indenture") dated as of June 25, 2003 among Domino's, Inc. ("Parent"), a Delaware corporation, the Guarantors signatories thereto (including but not limited to Domino's Pizza International Payroll Services, Inc. ("Florida Sub"), a Florida corporation), and BNY Midwest Trust Company, an Illinois trust company, as trustee (the "Trustee").

Each term appearing in this letter in capitalized form shall have the same meaning, if any, as is ascribed to such term in or pursuant to the Indenture, unless this letter or the context in which such term is used clearly indicates otherwise.

We have examined, among other things, the following agreements, instruments and documents, in each case as now in effect:

- The Indenture;
- Articles of Incorporation of Florida Sub;
- Bylaws of Florida Sub;
- Certain records of corporate proceedings of Florida Sub;

- Registration on Form S-4 (the "Registration Statement"), Registration No. 333-107774-04, as filed with the U.S. Securities and Exchange Commission by Parent pursuant to the Securities Act of 1933 (the "1933 Act");
- Other agreements, instruments, documents and records that we have deemed necessary or relevant for purposes of issuing the opinions hereinafter expressed.

As to factual matters that relate to, or that we have considered in rendering, the following opinions, we have relied, with your approval, upon representations, warranties, and other factual statements included in the Indenture and in other documents and instruments signed by Parent and/or Florida Sub in connection with the indenture, and upon information provided orally or in writing by, or made publicly available by, Parent, Florida Sub, their representatives, and public agencies and officials. We also have engaged in such investigations of law as we have deemed necessary to render the opinions expressed in this letter.

Based upon the foregoing, subject to the further assumptions, limitations, qualifications, conditions and exceptions set forth in this letter, and with due regard to such legal considerations as we deem relevant, we are of the opinion that:

1. The Subsidiary Guarantee of the Exchange Notes given by Florida Sub has been duly authorized by all necessary corporate action on the part of Florida Sub; and
2. When (i) the Registration Statement has become effective under the 1933 Act, (ii) the Exchange Notes have been duly executed and authenticated in accordance with the Indenture, (iii) the Subsidiary Guarantee of Florida Sub has been endorsed on the Exchange Notes and executed as contemplated in the Indenture, and (iv) the Exchange Notes have been issued and sold as contemplated in the Registration Statement, then the Subsidiary Guarantee of the Exchange Notes given by Florida Sub will be a legal, valid and binding obligation of, and enforceable against, Florida Sub.

* * *

We are qualified to practice law only in the State of Florida and we do not purport to be experts in the law of any state other than Florida. We express no opinion as to matters which may be governed by the substantive laws of any jurisdiction other than Florida or the laws of the United States of America. For purposes of rendering the opinions in this letter, we have assumed with your consent that the laws of other States governing the agreements and other documents referred to in this letter are identical to the laws of Florida in all respects material to the opinions set forth in this letter.

Our opinion to the effect that any agreement is legal, valid, binding and enforceable against a person, or that the execution, delivery or performance of an agreement will not result in a breach

or other violation of applicable law or any order, writ, injunction or decree, means that: (a) the agreement constitutes an effective contract under applicable substantive law (which as previously noted, we have assumed for purposes hereof to be identical to the substantive law of Florida), (b) the agreement is not rendered invalid because of a specific statutory prohibition or public policy and is not subject in its entirety to a contractual defense, and (c) subject to the last sentence of this paragraph, one or more remedies are available to the other party or parties to such agreement upon material default under the agreement. Such opinion does not mean that: (a) any particular remedy is available upon a material default, or (b) every provision of the agreement will be upheld or enforced in any or each circumstance by a court. Furthermore, the validity, legality and binding effect of the agreement may be limited or otherwise affected by (a) bankruptcy, insolvency, reorganization, receivership, moratorium, fraudulent conveyance or other similar statutes, rules, regulations or other laws affecting the enforcement of creditors' rights and remedies generally, (b) the fact that rights to indemnity or contribution may be limited by applicable law or the policies underlying such law, and (c) the unavailability of, or limitation on the availability of, a particular right or remedy (whether in a proceeding in equity or at law) because of an equitable principle or a requirement as to commercial reasonableness, conscionability or good faith.

Except as specifically stated otherwise in this letter, we express no opinion regarding the applicability, meaning, construction or interpretation (including any effect on, or implication for, the Indenture and the transactions contemplated thereby) of any of the following: (i) federal and state securities laws and regulations; (ii) Federal Reserve Board margin regulations; (iii) pension and employee benefit laws and regulations; (iv) federal and state antitrust and unfair competition laws and regulations; (v) fiduciary duty requirements; (vi) local laws; (vii) federal and state laws and regulations concerning the priority or enforcement of liens or security interests; or (viii) fraudulent transfer laws.

For purposes of this letter, we have assumed, with your approval, the following: (1) the legal capacity of each natural person; (2) the legal existence of all parties other than Florida Sub; (3) the power and authority of each person, other than any person acting on behalf of Florida Sub, to execute, deliver and perform each document executed and delivered and to do each other act done or to be done by such person; (4) the authorization, execution and delivery by each person, other than any person acting on behalf of Florida Sub, of each document executed and delivered or to be executed and delivered by such person; (5) the legality, validity, binding effect and enforceability as to each person, other than any person acting on behalf of Florida Sub, of each document executed and delivered or to be executed and delivered and of each other act done or to be done by such person; (6) except as otherwise expressly opined upon herein, the payment of all required taxes and fees imposed upon the execution, filing or recording of documents; (7) that there have been no undisclosed modifications of any provision of any document reviewed by us in connection with the rendering of any opinion and no undisclosed prior waiver of any right or remedy contained in any document; (8) the genuineness of each signature, (9) the completeness of each document submitted to us, the authenticity of each document reviewed by us as an original, the conformity to the original of each document reviewed by us as a copy, and the authenticity of the original of each document reviewed by us

as a copy; (10) the truthfulness of each statement as to all factual matters otherwise not known to us to be untruthful contained in any document; (11) the accuracy of all written information provided by or available from governmental agencies or representatives, both as of the date stated therein and as of the date of this letter; (12) that all persons have acted in good faith, without notice of adverse claims, and have complied with all material laws applicable to each of them; (13) that all documents and transactions comply with all tests of good faith, fairness and conscionability required by law; (14) that routine procedural matters such as service of process or qualification to do business in the relevant jurisdictions will be satisfied by the parties seeking to enforce the any obligation or avail itself of any remedy; (15) that all statutes, judicial and administrative decisions and rules and regulations of governmental agencies constituting the law for which we are assuming responsibility are published, in each case in a manner generally available to lawyers practicing in our judicial circuit; (16) that no action, discretionary or otherwise, that might result in a violation of law will be taken in the future by or on behalf of any party; (17) that there are no other agreements or understandings among the parties to the Indenture and the matters contemplated thereby that would modify the terms thereof or the respective rights or obligations of the parties; (18) that there has been no mutual mistake of fact and there exists no fraud or duress as between the parties; and (19) the constitutionality and validity of all relevant laws, regulations and agency actions unless a reported case has otherwise held or widespread concern has been expressed by commentators as reflected in materials which lawyers routinely consult.

The opinions expressed above are as of the date of this letter only, and we specifically disclaim any obligation to update such opinions or to advise you of any change in factual matters in the future, regardless of the nature of any future developments or our knowledge thereof. We express no opinion on the likelihood or effect of any future occurrence, including the future conduct of any party. No opinions other than those specifically set forth above are to be implied, and we specifically disclaim any opinions by inference or implication.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the caption "Legal Matters" contained in the Prospectus included therein. In giving such consent, we do not thereby admit that we are in the category of persons whose consent is required under Section 7 of the Act.

This opinion letter has been furnished at your request and is to be used only in connection with the Subsidiary Guarantee of the Exchange Notes while the Registration Statement is effective under the 1933 Act. This opinion letter may not be furnished, reproduced, distributed, disclosed to or relied upon anyone or quoted from or referred to except as set forth in the preceding paragraph or with our prior written consent. In connection with the opinions set out below, we have examined originals or copies, certified or otherwise identified to our satisfaction, of the following:

We have also examined originals or copies, certified or otherwise identified to our satisfaction, of such other documents, corporate records, certificates of public officials and other instruments as we have deemed necessary or advisable for purposes of this opinion.

In stating our opinions, we have assumed:

Montréal | Ottawa | Toronto | Hamilton | Waterloo Region | Calgary | Vancouver | Moscow |

- c. the completeness and accuracy of all statements of fact set forth in the Officer's Certificate;

- e. that the Indenture and Guarantee are governed by the laws of the Province of Ontario.

The opinions hereinafter expressed are limited to the laws of the Province of Ontario as of the date of this opinion letter and we express no opinion as to the laws of any other jurisdiction. Based upon the foregoing, we are of the opinion that when issued in accordance with the terms of the indenture, the Guarantee will constitute a valid and binding obligation of the Guarantor enforceable against the Guarantor in accordance with its terms.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the caption "Legal Matters" contained in the prospectus included therein.

Yours truly,

Ladies and Gentlemen:

We are acting as Nova Scotia counsel for Domino's Pizza NS Co., (the "**Guarantor**"), a company with unlimited liability incorporated and organized under the laws of the Province of Nova Scotia, in connection with (i) the proposed issuance by Domino's, Inc., a Delaware corporation ("**Domino's US**") of up to \$403,000,000 aggregate principal amount of its new 8 1/4% Senior Subordinated Notes due 2011 (the "**Exchange Notes**") registered with the Securities and Exchange Commission of the United States of America under the Securities Act of 1933 of the United States of America, as amended (the "**Securities Act**"), in exchange for a like principal amount of the outstanding 8 1/4% Senior Subordinated Notes due 2011 of Domino's US (the "**Original Notes**"), which have not been so registered (the "**Exchange Offer**"), and (ii) the guarantees of the Exchange Notes given by Domino's Pizza LLC, Domino's Pizza International, Inc., Domino's Pizza International Payroll Services, Inc., Domino's Pizza PMC, Inc., Domino's Franchise Holding Co., Domino's Pizza—Government Services Division, Inc. and the Guarantor (collectively, with the Guarantor, the "**Subsidiary Guarantors**") pursuant to a Notation of Subsidiary Guarantee (the "**Guarantee**") and an Indenture, dated as of June 25, 2003 (the "**Indenture**") by and among Domino's U.S., the Subsidiary Guarantors and BNY Midwest Trust Company, as indenture trustee.

In connection with the opinions set out below, we have examined originals or copies, certified or otherwise identified to our satisfaction, of the following:

1. the Registration Statement on Form S-4 (the "**Registration Statement**") filed by Domino's US and the Subsidiary Guarantors with the Securities and Exchange Commission relating to the Exchange Offer and the Guarantees;

1. the Indenture;
1. the Guarantee;
1. a certificate of status (the "**Certificate of Status**") pertaining to the Guarantor issued on behalf of the Registrar of Joint Stock Companies for the Province of Nova Scotia, dated September 18, 2003;
1. the corporate records of the Guarantor contained in the minute book of the Guarantor; and
1. a certificate of an officer of the Guarantor dated the date hereof, a copy of which is delivered to you herewith (the "**Officer's Certificate**").

We have also examined originals or copies, certified or otherwise identified to our satisfaction, of such other documents, corporate records, certificates of public officials and other instruments as we have deemed necessary or advisable for purposes of this opinion.

In stating our opinions, we have assumed:

- a. the genuineness of all signatures, the authenticity of all documents submitted to us as originals and the conformity to original documents of all documents submitted to us as notarial, certified, telecopies, conformed or reproduction copies thereof and the authenticity of the originals of such documents;
- a. the completeness and accuracy of all statements of fact set forth in official public records and certificates and other documents supplied by public officials;
- a. the completeness and accuracy of all statements of fact set forth in the Officer's Certificate; and
- a. that the Indenture and the Guarantee have been physically delivered by the Guarantor to the other parties thereto or their lawful representatives and that no such delivery was subject to any condition or escrow which has not been satisfied.

The opinions hereinafter expressed are limited to the laws of the Province of Nova Scotia as of the date of this opinion letter and we express no opinion as to the laws of any other jurisdiction.

Based upon the foregoing, we are of the opinion that:

- (1) The Guarantor is duly incorporated and validly existing under the laws of the Province of Nova Scotia.
- (2) The Guarantor has the corporate capacity to execute and deliver the Indenture and the Guarantee and to perform its obligations thereunder.
- (3) The Guarantor has taken all necessary corporate action to authorize the execution and delivery of the Indenture and the Guarantee and, to the extent that such matters are governed by the laws of the Province of Nova Scotia, the Indenture and the Guarantee have been duly executed and delivered by the Guarantor.

- (4) None of the authorization, execution, issue or delivery of the Indenture or the Guarantee or the performance by the Guarantor of its obligations thereunder results in a breach of any of the terms, conditions or provisions of the memorandum of association or articles of association of the Guarantor or of any statute or regulation of the Province of Nova Scotia, or federal statute or regulation in force therein, applicable to the Guarantor.
- (5) No approval, authorization, consent, permit or other action by, or filing with, any governmental body or authority, or any regulatory agency, body or tribunal having jurisdiction in the Province of Nova Scotia is required with respect to the execution, delivery and performance by the Guarantor of the Guarantee or the Indenture or in order to give effect to, continue, perfect, preserve or protect the validity or enforceability of any of the Guarantee or the Indenture against the Guarantor.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our firm under the caption "Legal Matters" contained in the Prospectus included therein. We also hereby consent to Gowling Lafleur Henderson LLP relying upon this opinion in providing any opinion to be delivered by them in respect of the foregoing matters.

PLEASE READ THE ACCOMPANYING INSTRUCTIONS CAREFULLY

Ladies and Gentlemen:

Upon the terms and subject to the conditions of the Exchange Offer, the undersigned hereby tenders to the Company the principal amount of the Outstanding Notes indicated above. Subject to, and effective upon, the acceptance for exchange of all or any portion of the Outstanding Notes tendered herewith in accordance with the terms and conditions of the Exchange Offer (including, if the Exchange Offer is extended or amended, the terms and conditions of any such extension or amendment), the undersigned hereby exchanges, assigns and transfers to, or upon the order of, the Company all right, title and interest in and to such Outstanding Notes as are being tendered herewith. The undersigned hereby irrevocably constitutes and appoints the Exchange Agent as its true and lawful agent and attorney-in-fact of the undersigned (with full knowledge that the Exchange Agent also acts as the agent of the Company in connection with the Exchange Offer) to cause the Outstanding Notes to be assigned, transferred and exchanged.

The undersigned represents and warrants that it has full power and authority to tender, exchange, assign and transfer the Outstanding Notes and to acquire Exchange Notes issuable upon the exchange of such tendered Outstanding Notes, and that, when the same are accepted for exchange, the Company will acquire good and unencumbered title to the tendered Outstanding Notes, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim. The undersigned also warrants that it will, upon request, execute and deliver any additional documents deemed by the Exchange Agent or the Company to be necessary or desirable to complete the exchange, assignment and transfer of the tendered Outstanding Notes or transfer ownership of such Outstanding Notes on the account books maintained by the book-entry transfer facility. The undersigned further agrees that acceptance of any and all validly tendered Outstanding Notes by the Company and the issuance of Exchange Notes in exchange therefor shall constitute performance in full by the Company of its obligations under the Registration Rights Agreement dated June 25, 2003, among the Company, Domino's Pizza, LLC, Domino's Pizza PMC, Inc., Domino's Franchise Holding Co., Domino's Pizza International Payroll Services, Inc., Domino's Pizza International, Inc., Domino's Pizza - Government Services Division, Inc., Domino's Pizza NS Co. and J.P. Morgan Securities Inc., Banc of America Securities LLC, Banc One Capital Markets, Inc., Bear, Stearns & Co. Inc., Citigroup Global Markets Inc., Credit Suisse First Boston LLC, Goldman, Sachs & Co. and Lehman Brothers Inc. (the "Registration Rights Agreement"), and that the Company shall have no further obligations or liabilities thereunder except as provided in Section 5(g) of such agreement. The undersigned will comply with its obligations under the Registration Rights Agreement. The undersigned has read and agrees to all of the terms of the Exchange Offer.

The Exchange Offer is subject to certain conditions as set forth in the Prospectus under the caption "The exchange offer—Conditions to the exchange offer." The undersigned recognizes that as a result of these conditions (which may be waived, in whole or in part, by the Company), as more particularly set forth in the Prospectus, the Company may not be required to exchange any of the Outstanding Notes tendered hereby and, in such event, the Outstanding Notes not exchanged will be returned to the undersigned at the address shown above, promptly following the expiration or termination of the Exchange Offer. In addition, the Company may amend the Exchange Offer at any time prior to the Expiration Date if any of the conditions set forth under "The exchange offers—Conditions to the exchange offer" occur.

The undersigned understands that tenders of Outstanding Notes pursuant to any one of the procedures described in the Prospectus and in the instructions attached hereto will, upon the Company's acceptance for exchange of such tendered Outstanding Notes, constitute a binding agreement between the undersigned and the Company upon the terms and subject to the conditions of the Exchange Offer. The undersigned recognizes that, under circumstances set forth in the Prospectus, the Company may not be required to accept for exchange any of the Outstanding Notes.

By tendering shares of Outstanding Notes and executing this Letter of Transmittal, the undersigned represents that Exchange Notes acquired in the exchange will be obtained in the ordinary course of business of the undersigned, that the undersigned has no arrangement or understanding with any person to participate in a distribution (within the meaning of the Securities Act) of such Exchange Notes, that the undersigned is not an "affiliate" of the Company within the meaning of Rule 405 under the Securities Act and that if the undersigned or the person receiving such Exchange Notes, whether or not such person is the undersigned, is not a broker-dealer, the undersigned represents that it is not engaged in, and does not intend to engage in, a distribution of Exchange Notes. If the undersigned or the person receiving such Exchange Notes, whether or not such person is the undersigned, is a broker-dealer that will receive Exchange Notes for its own account in exchange for Outstanding Notes that were acquired as a result of market-making activities or other trading activities, it acknowledges that it will deliver a prospectus in connection with any resale of such Exchange Notes; however, by so acknowledging and by delivering a prospectus, the undersigned will not be deemed to admit that it is an "underwriter" within the meaning of the

Securities Act. If the undersigned is a person in the United Kingdom, the undersigned represents that its ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business.

Any holder of Outstanding Notes using the Exchange Offer to participate in a distribution of the Exchange Notes (i) cannot rely on the position of the staff of the Securities and Exchange Commission enunciated in its interpretive letter with respect to Exxon Capital Holdings Corporation (available April 13, 1989) or similar interpretive letters and (ii) must comply with the registration and prospectus requirements of the Securities Act in connection with a secondary resale transaction.

All authority herein conferred or agreed to be conferred shall survive the death or incapacity of the undersigned and every obligation of the undersigned hereunder shall be binding upon the heirs, personal representatives, successors and assigns of the undersigned. Tendered Outstanding Notes may be withdrawn at any time prior to the Expiration Date in accordance with the terms of this Letter of Transmittal. Except as stated in the Prospectus, this tender is irrevocable.

Certificates for all Exchange Notes delivered in exchange for tendered Outstanding Notes and any Outstanding Notes delivered herewith but not exchanged, and registered in the name of the undersigned, shall be delivered to the undersigned at the address shown below the signature of the undersigned.

The undersigned, by completing the box entitled "Description of Outstanding Notes Tendered Herewith" above and signing this letter, will be deemed to have tendered the Outstanding Notes as set forth in such box.

FORMING PART OF THE TERMS AND CONDITIONS OF THE EXCHANGE OFFER

1. *Delivery of this Letter of Transmittal and Certificates; Guaranteed Delivery Procedures.*

A holder of Outstanding Notes may tender the same by (i) properly completing and signing this Letter of Transmittal or a facsimile hereof (all references in the Prospectus to the Letter of Transmittal shall be deemed to include a facsimile thereof) and delivering the same, together with the certificate or certificates, if applicable, representing the Outstanding Notes being tendered and any required signature guarantees and any other documents required by this Letter of Transmittal, to the Exchange Agent at its address set forth above on or prior to the Expiration Date, or (ii) complying with the procedure for book-entry transfer described below, or (iii) complying with the guaranteed delivery procedures described below.

Holders of Outstanding Notes may tender Outstanding Notes by book-entry transfer by crediting the Outstanding Notes to the Exchange Agent's account at DTC in accordance with DTC's Automated Tender Offer Program ("ATOP") and by complying with applicable ATOP procedures with respect to the Exchange Offer. DTC participants that are accepting the Exchange Offer should transmit their acceptance to DTC, which will edit and verify the acceptance and execute a book-entry delivery to the Exchange Agent's account at DTC. DTC will then send a computer-generated message (an "Agent's Message") to the Exchange Agent for its acceptance in which the holder of the Outstanding Notes acknowledges and agrees to be bound by the terms of, and makes the representations and warranties contained in, this Letter of Transmittal, the DTC participant confirms on behalf of itself and the beneficial owners of such Outstanding Notes all provisions of this Letter of Transmittal (including any representations and warranties) applicable to it and such beneficial owner as fully as if it had completed the information required herein and executed and transmitted this Letter of Transmittal to the Exchange Agent. Delivery of the Agent's Message by DTC will satisfy the terms of the Exchange Offer as to execution and delivery of a Letter of Transmittal by the participant identified in the Agent's Message. DTC participants may also accept the Exchange Offer by submitting a Notice of Guaranteed Delivery through ATOP.

The method of delivery of this Letter of Transmittal, the Outstanding Notes and any other required documents is at the election and risk of the holder, and except as otherwise provided below, the delivery will be deemed made only when actually received or confirmed by the Exchange Agent. If such delivery is by mail, it is suggested that registered mail with return receipt requested, properly insured, be used. In all cases sufficient time should be allowed to permit timely delivery. No Outstanding Notes or Letters of Transmittal should be sent to the Company.

Holders whose Outstanding Notes are not immediately available or who cannot deliver their Outstanding Notes and all other required documents to the Exchange Agent on or prior to the Expiration Date or comply with book-entry transfer procedures on a timely basis must tender their Outstanding Notes pursuant to the guaranteed delivery procedure set forth in the Prospectus. Pursuant to such procedure: (i) such tender must be made by or through an Eligible Guarantor Institution (as defined below); (ii) prior to the Expiration Date, the Exchange Agent must have received from such Eligible Guarantor Institution a letter, telegram or facsimile transmission (receipt confirmed by telephone and an original delivered by guaranteed overnight courier) setting forth the name and address of the tendering holder, the names in which such Outstanding Notes are registered, and, if applicable, the certificate numbers of the Outstanding Notes to be tendered; and (iii) all tendered Outstanding Notes (or a confirmation of any book-entry transfer of such Outstanding Notes into the Exchange Agent's account at a book-entry transfer facility) as well as this Letter of Transmittal and all other documents required by this Letter of Transmittal, must be received by the Exchange Agent within three New York Stock Exchange trading days after the date of execution of such letter, telegram or facsimile transmission, all as provided in the Prospectus.

No alternative, conditional, irregular or contingent tenders will be accepted. All tendering holders, by execution of this Letter of Transmittal (or facsimile thereof), shall waive any right to receive notice of the acceptance of the Outstanding Notes for exchange.

2. *Partial Tenders; Withdrawals.*

If less than the entire principal amount of Outstanding Notes evidenced by a submitted certificate is tendered, the tendering holder must fill in the aggregate principal amount of Outstanding Notes tendered in the box entitled "Description of Outstanding Notes Tendered Herewith." A newly issued certificate for the Outstanding Notes submitted but not tendered will be sent to such holder as soon as practicable after the Expiration Date. All Outstanding Notes delivered to the Exchange Agent will be deemed to have been tendered unless otherwise clearly indicated.

If not yet accepted, a tender pursuant to the Exchange Offer may be withdrawn prior to the Expiration Date.

To be effective with respect to the tender of Outstanding Notes, a written notice of withdrawal must: (i) be received by the Exchange Agent at the address for the Exchange Agent set forth above before the Company notifies the Exchange Agent that it has accepted the tender of Outstanding Notes pursuant to the Exchange Offer; (ii) specify the name of the person who tendered the Outstanding Notes to be withdrawn; (iii) identify the Outstanding Notes to be withdrawn (including the principal amount of such Outstanding Notes, or, if applicable, the certificate numbers shown on the particular certificates evidencing such Outstanding Notes and the principal amount of Outstanding Notes represented by such certificates); (iv) include a statement that such holder is withdrawing its election to have such Outstanding Notes exchanged; and (v) be signed by the holder in the same manner as the original signature on this Letter of Transmittal (including any required signature guarantee). The Exchange Agent will return the properly withdrawn Outstanding Notes promptly following receipt of notice of withdrawal. If Outstanding Notes have been tendered pursuant to the procedure for book-entry transfer, any notice of withdrawal must specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn Outstanding Notes or otherwise comply with the book-entry transfer facility's procedures. All questions as to the validity of notices of withdrawals, including time of receipt, will be determined by the Company, and such determination will be final and binding on all parties.

Any Outstanding Notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the Exchange Offer. Any Outstanding Notes which have been tendered for exchange but which are not exchanged for any reason will be returned to the holder thereof without cost to such holder (or, in the case of Outstanding Notes tendered by book-entry transfer into the Exchange Agent's account at the book entry transfer facility pursuant to the book-entry transfer procedures described above, such Outstanding Notes will be credited to an account with such book-entry transfer facility specified by the holder) as soon as practicable after withdrawal, rejection of tender or termination of the Exchange Offer. Properly withdrawn Outstanding Notes may be retendered by following one of the procedures described under the caption "The exchange offer—Procedures for tendering outstanding notes" in the Prospectus at any time prior to the Expiration Date.

3. *Signature on this Letter of Transmittal; Written Instruments and Endorsements; Guarantee of Signatures.*

If this Letter of Transmittal is signed by the registered holder(s) of the Outstanding Notes tendered hereby, the signature must correspond with the name(s) as written on the face of the certificates without alteration, enlargement or any change whatsoever. If any of the Outstanding Notes tendered hereby are owned of record by two or more joint owners, all such owners must sign this Letter of Transmittal.

If a number of Outstanding Notes registered in different names are tendered, it will be necessary to complete, sign and submit as many separate copies of this Letter of Transmittal as there are different registrations of Outstanding Notes.

When this Letter of Transmittal is signed by the registered holder or holders (which term, for the purposes described herein, shall include the book-entry transfer facility whose name appears on a security listing as the owner of the Outstanding Notes) of Outstanding Notes listed and tendered hereby, no endorsements of certificates or separate written instruments of transfer or exchange are required.

If this Letter of Transmittal is signed by a person other than the registered holder or holders of the Outstanding Notes listed, such Outstanding Notes must be endorsed or accompanied by separate written instruments of transfer or exchange in form satisfactory to the Company and duly executed by the registered holder, in either case signed exactly as the name or names of the registered holder or holders appear(s) on the Outstanding Notes.

If this Letter of Transmittal, any certificates or separate written instruments of transfer or exchange are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing, and, unless waived by the Company, proper evidence satisfactory to the Company of their authority so to act must be submitted.

Endorsements on certificates or signatures on separate written instruments of transfer or exchange required by this Instruction 3 must be guaranteed by an Eligible Guarantor Institution.

Signatures on this Letter of Transmittal must be guaranteed by an Eligible Guarantor Institution, unless Outstanding Notes are tendered: (i) by a holder who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on this Letter of Transmittal; or (ii) for the account of an Eligible Guarantor Institution (as defined below). In the event that the signatures in this Letter of Transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, such guarantees must be by an eligible guarantor institution which is a member of a firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States or another "eligible guarantor institution" within the meaning of Rule 17Ad-15 under the Securities Exchange Act of 1934, as amended (an "Eligible Guarantor Institution"). If Outstanding Notes are registered in the name of a person other than the signer of this Letter of Transmittal, the Outstanding Notes surrendered for exchange must be endorsed by, or be accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as determined by the Company, in its sole discretion, duly executed by the registered holder with the signature thereon guaranteed by an Eligible Guarantor Institution.

4. *Special Issuance and Delivery Instructions.*

Tendering holders should indicate, as applicable, the name and address to which the Exchange Notes or certificates for Outstanding Notes not exchanged are to be issued or sent, if different from the name and address of the person signing this Letter of Transmittal. In the case of issuance in a different name, the tax identification number of the person named must also be indicated. Holders tendering Outstanding Notes by book-entry transfer may request that Outstanding Notes not exchanged be credited to such account maintained at the book-entry transfer facility as such holder may designate.

5. *Transfer Taxes.*

The Company shall pay all transfer taxes, if any, applicable to the transfer and exchange of Outstanding Notes to it or its order pursuant to the Exchange Offer. If a transfer tax is imposed for any reason other than the transfer and exchange of Outstanding Notes to the Company or its order pursuant to the Exchange Offer, the amount of any such transfer taxes (whether imposed on the registered holder or any other person) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exception therefrom is not submitted herewith the amount of such transfer taxes will be billed directly to such tendering holder.

6. *Waiver of Conditions.*

The Company reserves the absolute right to waive, in whole or in part, any of the conditions to the Exchange Offer set forth in the Prospectus.

7. *Mutilated, Lost, Stolen or Destroyed Securities.*

Any holder whose Outstanding Notes have been mutilated, lost, stolen or destroyed, should contact the Exchange Agent at the address indicated below for further instructions.

8. *Substitute Form W-9*

Each holder of Outstanding Notes whose Outstanding Notes are accepted for exchange (or other payee) is generally required to provide a correct taxpayer identification number ("TIN") (e.g., the holder's Social Security or federal employer identification number) and certain other information, on Substitute Form W-9, which is provided under "Important Tax Information" below, and to certify that the holder (or other payee) is not subject to backup withholding. Failure to provide the information on the Substitute Form W-9 may subject the holder (or other payee) to a \$50 penalty imposed by the Internal Revenue Service and 28% federal income tax backup withholding on payments made to the holder. The box in Part 3 of the Substitute Form W-9 may be checked if the holder (or other payee) has not been issued a TIN and has applied for a TIN or intends to apply for a TIN in the near future. If the box in Part 3 is checked and a TIN is not provided by the time any payment is made to the holder, 28% of all such payments will be withheld until a TIN is provided and, if a TIN is not provided within 60 days after the date of the Substitute Form W-9, such withheld amounts will be paid over to the Internal Revenue Service.

9. *Requests for Assistance or Additional Copies.*

Questions relating to the procedure for tendering, as well as requests for additional copies of the Prospectus and this Letter of Transmittal, may be directed to the Exchange Agent at the address and telephone number set forth above. In addition, all questions relating to the Exchange Offer, as well as requests for assistance or additional copies of the Prospectus and this Letter of Transmittal, may be directed to the Exchange Agent at the address and telephone number indicated above.

IMPORTANT TAX INFORMATION

Under U.S. federal income tax law, a holder of Outstanding Notes whose Outstanding Notes are accepted for exchange may be subject to backup withholding unless the holder provides the Exchange Agent, with either (i) such holder's correct taxpayer identification number ("TIN") on Substitute Form W-9 attached hereto, certifying (A) that the TIN provided on Substitute Form W-9 is correct (or that such holder of Outstanding Notes is awaiting a TIN), (B) that the holder of Outstanding Notes is not subject to backup withholding because (x) such holder of Outstanding Notes is exempt from backup withholding, (y) such holder of Outstanding Notes has not been notified by the Internal Revenue Service that he or she is subject to backup withholding as a result of a failure to report all interest or dividends or (z) the Internal Revenue Service has notified the holder of Outstanding Notes that he or she is no longer subject to backup withholding and (C) that the holder of Outstanding Notes is a U.S. person (including a U.S. resident alien); or (ii) an adequate basis for exemption from backup withholding. If such holder of Outstanding Notes is an individual, the TIN is such holder's social security number. If the Exchange Agent is not provided with the correct TIN, the holder of Outstanding Notes may also be subject to certain penalties imposed by the Internal Revenue Service.

Certain holders of Outstanding Notes (including, among others, all corporations and certain foreign individuals) may not be subject to these backup withholding and reporting requirements. However, exempt holders of Outstanding Notes should indicate their exempt status on Substitute Form W-9. For example, a corporation should complete the Substitute Form W-9, providing its TIN and indicating that it is exempt from backup withholding. In order for a foreign individual to qualify as an exempt recipient, the holder must submit a Form W-8BEN, signed under penalties of perjury, attesting to that individual's exempt status. A Form W-8BEN can be obtained from the Exchange Agent. See the enclosed "Guidelines for Certification of Taxpayer Identification Number on Substitute Form W-9" for more instructions.

If backup withholding applies, the Exchange Agent is required to withhold 28% of any payments made to the holder of Outstanding Notes or other payee. Backup withholding is not an additional tax. Rather, the tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund may be obtained from the Internal Revenue Service, provided the required information is furnished.

The box in Part 3 of the Substitute Form W-9 may be checked if the surrendering holder of Outstanding Notes has not been issued a TIN and has applied for a TIN or intends to apply for a TIN in the near future. If the box in Part 3 is checked, the holder of Outstanding Notes or other payee must also complete the Certificate of Awaiting Taxpayer Identification Number below in order to avoid backup withholding. Notwithstanding that the box in Part 3 is checked and the Certificate of Awaiting Taxpayer Identification Number is completed, the Exchange Agent will withhold 28% of all payments made prior to the time a properly certified TIN is provided to the Exchange Agent and, if the Exchange Agent is not provided with a TIN within 60 days after the date of the Substitute Form W-9, such amounts will be paid over to the Internal Revenue Service.

The holder of Outstanding Notes is required to give the Exchange Agent the TIN (e.g., social security number or employer identification number) of the record owner of the Outstanding Notes. If the Outstanding Notes are in more than one name or are not in the name of the actual owner, consult the enclosed "Guidelines for Certification of Taxpayer Identification Number on Substitute Form W-9" for additional guidance on which number to report.

Privacy Act Notice. — Section 6109 requires most recipients of dividend, interest, or other payments to give taxpayer identification numbers to payers who must report the payments to IRS. The IRS uses the numbers for identification purposes and may also provide this information to various government agencies for tax enforcement of litigation purposes. Payers must be given the numbers whether or not recipients are required to file tax returns. Payers must generally withhold 28% of taxable interest, dividends, and certain other payments to a payee who does not furnish a taxpayer identification number to a payer. Certain penalties may also apply.

Penalties

1. **Penalty for Failure to Furnish Taxpayer identification Number.** — If you fail to furnish your taxpayer identification number to a payer, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.
2. **Civil Penalty for False Information With Respect to Withholding.** — If you make a false statement with no reasonable basis which results in no imposition of backup withholding, you are subject to a penalty of \$500.
3. **Criminal Penalty for Falsifying Information.** — Falsifying certifications or affirmations may be subject to criminal penalties including fines and/or imprisonment.
4. **Misuse of Taxpayer Identification Numbers.**— If the requester discloses or uses taxpayer identification numbers in violation of Federal Law, the requester may be subject to civil and criminal penalties.

EXCHANGE AGENT AGREEMENT

BNY Midwest Trust Company
2 North LaSalle Street
Suite 1020
Chicago, Illinois 60602
Attention: Corporate Trust Department

Ladies and Gentlemen:

Domino's Inc, a Delaware corporation (the "Company") proposes to make an offer (the "Exchange Offer") to exchange all of its outstanding 8¼% Senior Subordinated Notes due 2011 (the "Old Securities") for a like principal amount of its 8¼% Senior Subordinated Notes due 2011, which have been registered under the Securities Act of 1933, as amended (the "New Securities"). The terms and conditions of the Exchange Offer as currently contemplated are set forth in a prospectus, dated _____, 2003 (the "Prospectus"), proposed to be distributed to all record holders of the Old Securities. The Old Securities and the New Securities are collectively referred to herein as the "Securities".

The Company hereby appoints BNY Midwest Trust Company to act as exchange agent (the "Exchange Agent") in connection with the Exchange Offer. References hereinafter to "you" shall refer to BNY Midwest Trust Company.

The Exchange Offer is expected to be commenced by the Company on or about _____, 2003. The Letter of Transmittal accompanying the Prospectus (or in the case of book-entry securities, the Automated Tender Offer Program ("ATOP") of the Book-Entry Transfer Facility (as defined below)) is to be used by the holders of the Old Securities to accept the Exchange Offer and contains instructions with respect to the delivery of certificates for Old Securities tendered in connection therewith.

The Exchange Offer shall expire at 5:00 p.m., New York City time, on _____, 2003 or on such subsequent date or time to which the Company may extend the Exchange Offer (the "Expiration Date"). Subject to the terms and conditions set forth in the Prospectus, the Company expressly reserves the right to extend the Exchange Offer from time to time and may extend the Exchange Offer by giving oral (promptly confirmed in writing) or written notice to you no later than 9:00 a.m., New York City time, on the business day following the previously scheduled Expiration Date.

The Company expressly reserves the right to amend or terminate the Exchange Offer, and not to accept for exchange any Old Securities not theretofore accepted for exchange, upon the occurrence of any of the conditions of the Exchange Offer specified in the Prospectus under the caption "The exchange offer—Conditions to the exchange offer." The Company will give oral (promptly confirmed in writing) or written notice of any amendment, termination or non-acceptance to you as promptly as practicable.

In carrying out your duties as Exchange Agent, you are to act in accordance with the following instructions:

1. You will perform such duties and only such duties as are specifically set forth in the section of the Prospectus captioned "The exchange offer" or as specifically set forth herein; provided, however, that in no way will your general duty to act in good faith be discharged by the foregoing.
2. You will establish a book-entry account with respect to the Old Securities at The Depository Trust Company (the "Book-Entry Transfer Facility") for purposes of the Exchange Offer within two business days after the date of the Prospectus, and any financial institution that is a participant in the Book-Entry Transfer Facility's systems may make book-entry delivery of the Old Securities by causing the Book-Entry Transfer Facility to transfer such Old Securities into your account in accordance with the Book-Entry Transfer Facility's procedure for such transfer.
3. You are to examine each of the Letters of Transmittal and certificates for Old Securities (or confirmation of book-entry transfer into your account at the Book-Entry Transfer Facility) and any other documents delivered or mailed to you by or for holders of the Old Securities to ascertain whether: (i) the Letters of Transmittal and any such other documents are duly executed and properly completed in accordance with instructions set forth therein; and (ii) the Old Securities have otherwise been properly tendered. In each case where the Letter of Transmittal or any other document has been improperly completed or executed or any of the certificates for Old Securities are not in proper form for transfer or some other irregularity in connection with the acceptance of the Exchange Offer exists, you will endeavor to inform the presenters of the need for fulfillment of all requirements and to take any other action as may be reasonably necessary or advisable to cause such irregularity to be corrected.
4. With the approval of the President or any Vice President of the Company (such approval, if given orally, to be promptly confirmed in writing) or any other party designated in writing, by such an officer, you are authorized to waive any irregularities in connection with any tender of Old Securities pursuant to the Exchange Offer.
5. Tenders of Old Securities may be made only as set forth in the Letter of Transmittal and in the section of the Prospectus captioned "The exchange offer—

Procedures for tendering outstanding notes" and Old Securities shall be considered properly tendered to you only when tendered in accordance with the procedures set forth therein.

Notwithstanding the provisions of this Section 5, Old Securities which the President or any Vice President of the Company shall approve as having been properly tendered shall be considered to be properly tendered (such approval, if given orally, shall be promptly confirmed in writing).

6. You shall advise the Company with respect to any Old Securities received subsequent to the Expiration Date and accept its instructions with respect to the disposition of such Old Securities.
7. You shall accept tenders:
 - (a) in cases where the Old Securities are registered in two or more names only if signed by all named holders;
 - (b) in cases where the signing person (as indicated on the Letter of Transmittal) is acting in a fiduciary or a representative capacity only when proper evidence of his or her authority so to act is submitted; and
 - (c) from persons other than the registered holder of Old Securities, provided that customary transfer requirements, including payment of any applicable transfer taxes, are fulfilled.

You shall accept partial tenders of Old Securities where so indicated and as permitted in the Letter of Transmittal and deliver certificates for Old Securities to the registrar for split-up and return any untendered Old Securities to the holder (or such other person as may be designated in the Letter of Transmittal) as promptly as practicable after expiration or termination of the Exchange Offer.

8. Upon satisfaction or waiver of all of the conditions to the Exchange Offer, the Company will notify you (such notice, if given orally, to be promptly confirmed in writing) of its acceptance, promptly after the Expiration Date, of all Old Securities properly tendered and you, on behalf of the Company, will exchange such Old Securities for New Securities and cause such Old Securities to be cancelled. Delivery of New Securities will be made on behalf of the Company by you at the rate of \$1,000 principal amount of New Securities for each \$1,000 principal amount of the corresponding series of Old Securities tendered promptly after notice (such notice if given orally, to be promptly confirmed in writing) of acceptance of said Old Securities by the Company; provided, however, that in all cases, Old Securities tendered pursuant to the Exchange Offer will be exchanged only after timely receipt by you of certificates for such Old Securities (or confirmation of book-entry transfer into your account at the Book-Entry Transfer Facility), a properly completed and duly executed Letter of

Transmittal (or manually signed facsimile thereof) with any required signature guarantees and any other required documents. You shall issue New Securities only in denominations of \$1,000 or any integral multiple thereof.

9. Tenders pursuant to the Exchange Offer are irrevocable, except that, subject to the terms and upon the conditions set forth in the Prospectus and the Letter of Transmittal, Old Securities tendered pursuant to the Exchange Offer may be withdrawn at any time prior to the Expiration Date.
10. The Company shall not be required to exchange any Old Securities tendered if any of the conditions set forth in the Exchange Offer are not met. Notice of any decision by the Company not to exchange any Old Securities tendered shall be given (if given orally, to be promptly confirmed in writing) by the Company to you.
11. If, pursuant to the Exchange Offer, the Company does not accept for exchange all or part of the Old Securities tendered because of an invalid tender, the occurrence of certain other events set forth in the Prospectus under the caption "The exchange offer—Conditions to the exchange offer" or otherwise, you shall as soon as practicable after the expiration or termination of the Exchange Offer return those certificates for unaccepted Old Securities (or effect appropriate book-entry transfer), together with any related required documents and the Letters of Transmittal relating thereto that are in your possession, to the persons who deposited them.
12. All certificates for reissued Old Securities, unaccepted or withdrawn Old Securities or for New Securities shall be forwarded by first-class mail.
13. You are not authorized to pay or offer to pay any concessions, commissions or solicitation fees to any broker, dealer, bank or other persons or to engage or utilize any person to solicit tenders.
14. As Exchange Agent hereunder you:
 - (a) shall not be liable for any action or omission to act unless the same constitutes your own gross negligence, willful misconduct or bad faith, and in no event shall you be liable to a securityholder, the Company or any third party for special, indirect or consequential damages, or lost profits, arising in connection with this Agreement;
 - (b) shall have no duties or obligations other than those specifically set forth herein or as may be subsequently agreed to in writing between you and the Company;

Exchange Offer, and will not be required to and will make no representation as to the validity, value or genuineness of the Exchange Offer;

- (d) shall not be obligated to take any legal action hereunder which might in your reasonable judgment involve any expense or liability, unless you shall have been furnished with indemnity reasonably satisfactory to you;
 - (e) may conclusively rely on and shall be protected in acting in reliance upon any certificate, instrument, opinion, notice, letter, telegram or other document or security delivered to you and believed by you to be genuine and to have been signed or presented by the proper person or persons;
 - (f) may act upon any tender, statement, request, document, agreement, certificate or other instrument whatsoever not only as to its due execution and validity and effectiveness of its provisions, but also as to the truth and accuracy of any information contained therein, which you shall in good faith believe to be genuine or to have been signed or presented by the proper person or persons;
 - (g) may conclusively rely on and shall be protected in acting upon written or oral instructions from any authorized officer of the Company with respect to the Exchange Offer;
 - (h) may consult with counsel of your selection with respect to any questions relating to your duties and responsibilities and the advice or opinion of such counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted to be taken by you hereunder in good faith and in accordance with the advice or opinion of such counsel; and
 - (i) shall not advise any person tendering Old Securities pursuant to the Exchange Offer as to the wisdom of making such tender or as to the market value or decline or appreciation in market value of any Old Securities.
15. You shall take such action as may from time to time be requested by the Company (and such other action as you may reasonably deem appropriate) to furnish copies of the Prospectus, Letter of Transmittal and the Notice of Guaranteed Delivery (as defined in the Prospectus) or such other forms as may be approved from time to time by the Company, to all persons requesting such documents and to accept and comply with telephone requests for information relating to the Exchange Offer, provided that such information shall relate only to the procedures for accepting (or withdrawing from) the Exchange Offer. 16. You shall advise by facsimile transmission Elisa D. Garcia C., Esq., the General Counsel of the Company (at the facsimile number (734) 747-6210, and

In addition, you will also inform, and cooperate in making available to, the Company or any such other person or persons upon oral request made from time to time prior to the Expiration Date of such other information as they may reasonably request. Such cooperation shall include, without limitation, the granting by you to the Company and such person as the Company may request of access to those persons on your staff who are responsible for receiving tenders, in order to ensure that immediately prior to the Expiration Date the Company shall have received information in sufficient detail to enable it to decide whether to extend the Exchange Offer. You shall prepare a final list of all persons whose tenders were accepted, the aggregate principal amount of Old Securities tendered, the aggregate principal amount of Old Securities accepted and deliver said list to the Company.

17. Letters of Transmittal and Notices of Guaranteed Delivery shall be stamped by you as to the date and, after the expiration of the Exchange Offer, the time, of receipt thereof and shall be preserved by you for a period of time at least equal to the period of time you preserve other records pertaining to the transfer of securities. You shall dispose of unused Letters of Transmittal and other surplus materials by returning them to the Company.
18. For services rendered as Exchange Agent hereunder, you shall be entitled to such compensation as shall be agreed in writing between the Company and you. The provisions of this section shall survive the termination of this Agreement.
19. You hereby acknowledge receipt of the Prospectus and the Letter of Transmittal and further acknowledge that you have examined each of them to the extent necessary to perform your duties and obligations hereunder. Any inconsistency between this Agreement, on the one hand, and the Prospectus and the Letter of Transmittal (as they may be amended from time to time), on the other hand, shall be resolved in favor of the latter two documents, except with respect to your duties, liabilities and indemnification as Exchange Agent.
20. The Company covenants and agrees to fully indemnify and hold you harmless in your capacity as Exchange Agent hereunder against any and all loss, liability, cost or expense, including reasonable attorneys' fees and expenses, incurred without gross negligence or willful misconduct on your part, arising out of or in connection with any act, omission, delay or refusal made by you in reasonable reliance upon any signature, endorsement, assignment, certificate, order, request, notice, instruction or other instrument or document believed by you to be valid, genuine and

sufficient and in accepting any tender or effecting any transfer of Old Securities believed by you in good faith to be authorized, and in delaying or refusing in good faith to accept any tenders or effect any transfer of Old Securities. In no case, shall the Company be liable under this indemnity with respect to any claim against you unless the Company shall be notified by you, by letter or facsimile transmission, of the written assertion of a claim against you or of any other action commenced against you, promptly after you shall have received any such written assertion or shall have been served with a summons in connection therewith. The Company shall be entitled to participate at its own expense in the defense of any such claim or other action and, if the Company so elects, the Company shall assume the defense of any suit brought to enforce any such claim. In the event that the Company shall assume the defense of any such suit, the Company shall not be liable for the fees and expenses of any additional counsel thereafter retained by you, so long as the Company shall retain counsel reasonably satisfactory to you to defend such suit, and so long as you have not determined, in your reasonable judgment, that a conflict of interest exists between you and the Company. The provisions of this section shall survive the termination of this Agreement.

21. You shall arrange to comply with all requirements under the tax laws of the United States, including those relating to missing Tax Identification Numbers, and shall file any appropriate reports with the Internal Revenue Service.

24. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original and all of which together shall constitute one and the same agreement.
25. In case any provision of this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.
