THREE QUESTIONS WE ADDRESSED A YEAR AGO...

1. What has driven Domino’s success to date?
2. Can the success continue?
3. Can the success drive shareholder value?
THE MAIN QUESTIONS WE HOPE TO ANSWER TODAY...

PRETTY MUCH THE SAME.
We told the story a year ago through ‘36 Blast’...
but today, we want to Open the Playbook.
The story typically begins with 2010...
...but allow us to take you back a full decade to 2006.
First of three consecutive years of negative comps

1,300 franchisees domestically

Multiple POS platforms

Undisciplined pricing and rudimentary analytics

And, lack of identity...beyond “used to be the 30-minute guys”
How did we position ourselves for fundamental change?

- Established common POS system-wide
- Established accountability via A/B/F rating
- Took on closures
- Focused on an effective franchise base
- Investments in our people (digital, strategy & insights)
This didn’t happen overnight.

Or during a certain quarter.

Or during a certain year.
But it did happen.

True, sustainable competitive advantage takes time to build.
Decade-long, relentless focus on the customer experience through:

- Real Innovation
- Responsible Investment
- Disciplined Decisions
- Taking Smart Risks
- True Global Alignment
WHAT ARE WE TRYING TO BE?
#1
We set a goal in 2010 to become #1 in pizza.

Every decision we have made, or considered, begins and ends with that goal...and an exclusive focus on the long-term over the short-term.
#1 for customers

AND

#1 for franchisees
#1 is a “work in progress” brand, always striving to improve...
#1 needs to have the best food...
2010-PRESENT: WHAT DOES #1 LOOK LIKE?

#1 has the best store image worldwide...
2010-PRESENT: WHAT DOES #1 LOOK LIKE?

#1 makes disciplined decisions and isn’t afraid of calculated risks...
#1 delivers big, bold ideas and doesn’t
tactic’ its way forward...
#1 makes news outside of ‘product of the month’...
And most importantly, 
#1 has the strongest, most productive relationship with its franchisees of anyone in the industry...
THIS IS HOW TO VIEW THE TRUE HEALTH OF OUR BUSINESS...
THIS IS HOW TO VIEW THE TRUE HEALTH OF OUR BUSINESS...

1. Success with Customers
   - Same store sales growth
   - Focus on traffic and transactions over ticket

2. Success with Franchisees
   - Store growth is the best measure
   - Openings show optimism about the future
   - But... closures matter just the same!

DRIVING LONG-TERM GROWTH

The Rare Combination of Scale Today and Massive Long-Term Growth Potential
RUSSELL WEINER

PRESIDENT, DOMINO’S USA
We set a goal in 2010 to become #1 in pizza.

Every decision we have made, or considered, begins and ends with that goal in mind.
WHAT DOES #1 LOOK LIKE?

#1 for customers

AND

#1 for franchisees
HOW ARE WE DOING AGAINST THAT GOAL?

U.S. QSR Pizza Dollar Share

Source: The NPD Group/CREST®, data period ending 10/2/16, current data of record on 1/12/2017.
IS THERE A SIMPLE EQUATION OF HOW TO GET TO #1?

We think so!

DRIVE VALUE
IS THERE A SIMPLE EQUATION OF HOW TO GET TO #1?

VALUE ≠ LOWEST PRICE
IS THERE A SIMPLE EQUATION OF HOW TO GET TO #1?

VALUE = \frac{BENEFITS}{PRICE}

...This equation works with customers and franchisees.
Let’s look at the customer value equation first.

VALUE = BENEFITS / PRICE

...We leverage best-in-class research to determine the denominator, optimal consumer price point(s).
LET’S LOOK AT THE CUSTOMER VALUE EQUATION FIRST

VALUE = BENEFITS

...and real innovation to drive the numerator!
WE DON’T INNOVATE LIKE A FAST FOOD COMPANY

PRODUCTS OF THE MONTH

VALUE = BENEFITS
PRICE
OF COURSE, WE HAVE BEST-IN-CLASS PRODUCTS

VALUE = BENEFITS
PRICE

...all of these are sustainable product platforms!
LIKE THE BENEFITS OF EASY ORDERING

THE BENEFITS OF DELIVERY
