## Section 2 – Financial Information

### Item 2.02 Results of Operations and Financial Condition

In the fourth quarter of 2014, several organizational changes were made within the Company's management structure, with one of the changes impacting the management of our supply chain operations. As a result, management determined that our previous domestic supply chain segment and the international supply chain operations division of our previous international segment should be combined into a new global supply chain segment. As a result, we now report the following three business segments: domestic stores, supply chain and international franchise. While the consolidated results of the Company have not been impacted by this change in our reportable segments, we have restated our historical segment information in order to provide readers of our financial statements with a consistent presentation. Our global supply chain results are included in our Supply Chain segment shown below. Our international franchise operations are included in our International Franchise segment shown below.

This Form 8-K provides a summary of the Company's fiscal 2014 and fiscal 2013 quarterly segment operating results as if they had been reported under this new segment structure. Consolidated results remain unchanged. The information contained in this Form 8-K is being furnished pursuant to Item 2.02, Results of Operation and Financial Condition. Beginning with the fiscal year ended December 28, 2014, our financial statements will reflect the new reportable segment structure with prior periods adjusted accordingly.

The following tables summarize revenues, income from operations and earnings before interest, taxes, depreciation, amortization and other, which is the measure by which the Company allocates resources to its segments and which we refer to as Segment Income, for each of our reportable segments.
